Section I. Agreement Relative to Terms and Conditions of Employment

Commitment to a Respectful Climate and Culture

The Minneapolis Public School District and the Minneapolis Federation of Teachers Local 59 share a fundamental and abiding commitment to the education of the students of Minneapolis and, therefore, are committed to fostering and building a respectful climate and culture that advances student learning. They recognize and greatly appreciate the extraordinary commitment of teachers, administrators and other employees in the system who work to create a system in which the staff and students can learn, grow, thrive, and be healthy. Yet the parties to this agreement believe that the Minneapolis Public School system as a whole must do more to meet the needs and expectations of all students and of the community.

By working together through continuous improvement, effective communication, and meaningful involvement in the decision-making process, we provide a high quality education to every student. We are committed to shared responsibility and a collaborative partnership integrated into an organizational culture of respect.

The commitment to foster an organizational culture of respect that is embedded throughout the school system is a priority of the school board, union leadership and its members, and the Superintendent, executive staff and principals. This culture is built on the belief that all members of the Minneapolis Public School district are essential to a successful learning environment. We are committed to:

- Trusting one another
- Use of collaborative and interest-based processes
- Recognizing the collective bargaining relationships as opportunities to enhance this culture
- High expectations for all staff and students that are reasonable, clear and transparent
- Open, honest contributions without fear of retribution
- Respect for various points of view
- Civility in all of our interactions
- Team building and working together as a team.
- Recognition that employee's provide valuable contributions
- Open and effective communication

We believe through these support structure we can foster and sustain a culture of respect. In order to be effective, these support structures should be embedded throughout the system, viable and accessible to everyone, and seen as fair and equitable.

Together We Learn

The Goal

The parties to this Agreement share a fundamental and abiding commitment to the education of the students in the Minneapolis Public Schools. We recognize and greatly appreciate the extraordinary commitment of teachers, administrators and other employees in the system. We work to create a system in which the staff can learn, grow, thrive and be healthy.

We believe that the Minneapolis Public School system as a whole must do more to meet the needs and expectations of all students and of the community. In particular, this community of educators finds the gaps in learning between cohorts of students as unacceptable. Therefore, we are rededicating our mission to raise the level of achievement of all students.

This agreement is dedicated to doing better. Change requires intensive, carefully planned, and skillfully executed implementation. Strong, consistent leadership, system-wide communication and widespread training are needed to continue to transform the culture of the District so that all students learn effectively. To achieve real educational improvement, the parties and the community will have to work collaboratively to achieve an atmosphere of trust, innovation, and mission-driven purpose.

In the spirit of a true learning community, The Minneapolis Public Schools "exist to ensure that all students learn". We support their growth into knowledgeable, skilled and confident citizens capable of

succeeding in their work, personal and family life. We invite the rest of the community to join them in this effort. Working together, success is assured.

The Challenge

Minneapolis children come to school from homes that are diverse in culture, language, and economic status. It is our chosen task to embrace all of these children and their families and to join with them in a community of learners. Everyone in the Minneapolis Schools works to foster the success of all students in all classrooms. Our purpose will be to make the changes necessary to make success a reality.

However great the challenges may be in educating all Minneapolis students to their full potential as individuals, we are determined to tackle them. This agreement is designed to facilitate whatever change may be needed. We recognize that the work of Teachers and Related Services Professionals (herein the term "Teacher" will include Related Services Professionals in this Agreement) and students in classrooms is the only business of schools and must be the focus of our support and intention.

Teachers acknowledge their need to learn as many are overwhelmed by the monumental task of providing support to such a diverse student body. Teachers may be unprepared or unsure how to most effectively communicate with, support and encourage students and parents whose linguistic, ethnic or economic background differs from their own. Teachers want and need continual professional development but also need the system to recognize and support their extraordinary efforts to educate all children.

Some Basic Education principles guide our work:

- Student achievement is our primary focus
- The Strategic Direction for the Minneapolis Public Schools

In addition to these goals of improved educational growth and achievement for all students, we share fundamental assumptions about educational philosophy that should inform the interpretation and implementation of this Agreement. In order to effectively meet our goals, individuals need the mutual respect and collegiality of a professional working community. Teachers have a need for support and a desire to share ways to improve what they do.

The Importance of School-Based Decision-Making

We believe that decision-making is best when those closest to the classroom are involved. Each school community has the best knowledge and is in the best position to craft appropriate and effective strategies to be successful at the primary task of the continuous improvement of student achievement. The school is where people make a difference in the daily life of each student. School-based decision-making brings people together who share the responsibility for needed changes and the corresponding accountability for results achieved.

The Importance of Flexibility and Innovation

The background and skills of staff, students, parents, and administrators vary widely, as do the dynamics of groups. The staff of each school should have flexibility to work with teachers, other employees and stakeholders to develop and implement and assess their School Improvement Plan within the provisions of the District Strategic Direction, the District Improvement Agenda, and the provisions of this Agreement. District and school efforts should complement each other. The District should facilitate the communication of the efficacy of professional practices (what's working and what's not) across the District from school to school, teacher to teacher, and classroom to classroom.

The Importance of Professional Development

We believe in investing in those who deliver services to students. Professional development programs need to support teachers, site teams, and administrators in their efforts to deal with the challenges of urban education. The District shall use the National Staff Development Standards to guide their support processes. In order to achieve our goal of success for all, professional development opportunities need to strategically address the gaps in learning between cohorts of students.

The Importance of Accountability for Quality and Performance

We are committed to an accountability process that establishes a cycle of goal setting, action, assessment of results, initiating needed changes to improve performance and renewed planning. Accountability also means sharing of results. All actions are directed toward student growth and achievement in a supportive learning environment. Classroom and student accountability require a shared commitment.

Section I. Agreement Relative to Terms and Conditions of Employment

- Teachers are accountable for the growth and progress of all students.
- Students and families are accountable for their own effort, behavior and progress.
- Principals must provide an environment and professional culture in which skilled teachers can accomplish their goals.
- District offices and staff work with schools to support them in their improvement efforts.

We agree to work together to be accountable for closing the gap.

The Importance of Data

We believe that decision-making at all levels in the District needs to be data-driven. Good, timely data is the basis for quality decisions and accountability from Board, to sites, to teachers, to students. We are committed to developing, understanding, and using data to guide and assess our work to help all students learn:

- School Boards and District administrators use data to develop policy direction, provide instructional and support services, focus grants and funding, and to report student progress to community and families.
- School teams must use current, site-specific data to determine their goals, predict the practices, processes and programs that will best meet the needs of all students at the site, and to revise and evaluate their progress toward goals.
- Teachers need access to multiple sources of student data to plan, deliver, and adjust instruction to meet the needs of all students in the classroom. Teachers often develop their own data through action research projects.
- Relevant data regarding student progress should include multiple measures of student growth by individual students and cohorts of students over time.

The Importance of Family and Community Involvement

Schools are most effective when they have the full support and involvement of families and community. Continued effort is needed to build communication and trust between schools and families so that all students learn successfully. The school-home connection enables families and teachers using the District Family Involvement Standards to become effective partners in developing, monitoring and stimulating the academic growth of each student. Families/communities share a responsibility. All share a responsibility.

The Importance of Diversity

We recognize that the diversity of the Minneapolis Public Schools is one of its greatest assets in the education of our students to prepare them to participate in a diverse world. In recognition of the strength in our diversity, we renew our commitment to ensure a climate throughout the school system that treats each student, parent, and employee with respect, dignity, and sensitivity to their unique needs and culture and to increasing the diversity of the District's workforce through attention to policies and practices that promote that goal. All District employees are committed to working together toward the elimination of diversity bias, particularly racism and cultural bias, as factors affecting student achievement and learning experiences in accordance with the District Diversity and Equity Policy #2215.

The Importance of Collaborative Working Relationships

We are committed to working together to do what is best for students. We share the common goal of improved student achievement for all and are dedicated to working with mutual respect, clear and direct communication, a willingness to learn and a practice of checking out assumptions before reaching conclusion. Developing and maintaining a collaborative relationship requires all parties to act as professional colleagues who share a common dedication to student achievement.

The goal is to create an environment where teachers can teach successfully.

The Importance of Assessment of Site Processes

Within the school improvement planning process, each school sets goals, plans action steps, acts, evaluates, and adjusts---in order to improve student achievement. A critical step is the assessment step that includes the school community in discussing "what's working? what's not? why? and how do we adjust?". While these steps refer to specific actions to improve student achievement, the same process is necessary for site-based management itself. "How are we making decisions? Is it working? Why or why not? How do we adjust? What decisions would better be made elsewhere or in another manner?" These

Section I. Agreement Relative to Terms and Conditions of Employment

self-assessment steps are the hallmark of a “learning organization” and a community of learners. Self-assessment and continuous improvement processes will exist in all aspects of the organization and all programs within the Minneapolis Public Schools so that we are truly a community of learners.

The Reward

The result desired from collaborative site-based management and improvement planning is to create a climate of success. In our schools, the faculty, family members, administration, students, and other community participants work together for school improvement, better student achievement, increased satisfaction among professionals, greater involvement by and with family members, and stronger support from the community.

MISSION STATEMENT:

“We exist to ensure that all students learn. We support their growth into knowledgeable, skilled, and confident citizens capable of succeeding in their work, personal, and family lives into the 21st century.”

The responsibility of the reviewer is to determine if training and resources have been provided to allow due process to be completed in a timely manner and to make recommendations. If it is determined that training and resources are not in place, the reviewer shall recommend what is needed and meet with the site, team and/or team member to develop a reasonable plan to implement due process.
- 2.3.2 **Special Education Caseload review:** To address situations where a related service provider (Audiology, DAPE Teacher, Nursing,(LSN), OT/PT, Psychology, and Speech-Language) has a higher than recommended caseload and must use their preparation time to meet caseload, assessment and due process mandates, the following protocol will be used:
 - a. Lead staff shall meet with the related-service provider and gather data for a workload analysis;

Those realigned into special education shall have one additional day of reserve teacher time during their first realigned year to be used as needed to complete due process compliance requirements. Those in their second and third realigned year in special education may request additional reserve teacher time from their buildings to be used as needed to complete due process compliance requirements. Reserve teachers shall be scheduled in advance for a Tuesday, Wednesday or Thursday. Once a due process day has been entered into AESOP, the Teacher will be released from school duties to complete due process paperwork that is required by law. Buildings will be responsible for a plan to support special education service teachers/providers.

2.4 Length of Teacher's Day/Week

- 2.4.1 **Definition:**
 - a. **Normal Work Day:** The normal workweek of full-time teachers shall be no longer than 40 hours including their one-half hour daily duty-free lunch period. No regularly scheduled duty day shall extend beyond 8½ hours unless voted on by the licensed staff assigned to the particular site/program by a vote of 70%. The vote will be presented in writing. If a duty day is extended beyond 8 hours, it may only happen once per week. The teacher's one-half hour daily duty-free lunch period shall be during the student day.
 - b. **Preparation Time:** All teachers/RSPs are entitled to a preparation time every day within the defined student day. This time is for individual teachers to use as needed for instructional planning, reflecting on student performance, to plan, prepare, and resource

the next steps needed with students. It is not time for conducting special education evaluations, re-evaluations, or complying with procedural requirements.

1. **Meetings During Preparation Time:** Any teacher/RSP required to attend meetings scheduled during their preparation time shall be paid at their direct instruction rate of pay or be provided an alternative preparation time by administration. This includes IEP/504 meetings. (Also see Section 2.4.5 below regarding lost preparation/lunch time).

c. **Reporting for Duty Requirements:** Teachers will report for duty prior to and following the student day on a schedule agreed to at the site. If teachers find it necessary to leave the work site during the defined day, it is assumed that it is for professional, business or extraordinary personal reasons, and the principal must be notified before leaving.

d. **Extension of School Year/Day:** The District and MFT agree to meet to develop a Memorandum of Agreement (MOA) on any proposed school model that extends the school day/year. (See Section 2.6. Process for Approval to Changes to School Schedule).

2.4.2 **Professional Meetings:** An important function of a teacher is to work with students on an individual basis and to work with the families. To facilitate this goal, a longer teacher's day may occasionally be necessary. Moreover, meetings may occasionally necessitate a longer workday. Extension of the teacher's day shall not be regularly assigned (see 2.4.1 in this section for voting mechanism to extend the workday). If frequent or lengthy extension of the workday is required, a teacher shall be paid at the hourly flat direct instruction rate, or an alternative duty schedule shall be arranged by mutual agreement between the teacher and the principal/supervisor.

Union stewards shall be provided up to fifteen (15) minutes at staff meetings to report on official Union and/or labor/management business.

The school district shall recognize Wednesday after school and evening as a time reserved for Professional Organization meetings. Every reasonable effort shall be taken to reserve this time. Such meetings may be scheduled during the defined teacher day on non-student contact time. Contractual issues are appropriate matters for staff meetings.

2.4.3 **Professional Preparation Time Elementary:** The amount of preparation time for elementary teachers shall be a minimum of 275 minutes per five-day work week. This preparation time shall be within the defined student day and shall be divided into five days based on one of the options below:

Option 1: Five 45-minute preparation periods and one 50-minute preparation period per five-day cycle.

Option 2: Five 55-minute preparation periods per five-day cycle OR five 55-minute preparation periods per week.

Option 3: A schedule that provides daily preparation time equivalent to a minimum of 275 up to a maximum of 550 minutes per week.

The Chief of Schools and MFT will facilitate discussions with staff to explore opportunities for additional time for collaboration and preparation for elementary teachers, specialists and special education teachers consistent with the site's budget allocation, starting in the 2016-17 school year. (For example, creating an additional preparation period for the day).

Additional Clarification for sites with two preparation times per day: For sites with two (2) preparation times per day, two (2) of the ten (10) preparation times shall be used for collaboration. The other preparation times can be used at the discretion of the teacher and related services professional. If collaboration time is used for professional development (PD), that will count as one of the two required collaboration times per week.

The decision to implement one of the options for the following year shall be made by agreement or a majority vote of the total licensed staff and the principal by the last day of school.

Elementary specialists and other staff members affected shall be offered the opportunity to participate in the preparation of annual schedules for specialists.

Specialists shall provide instruction to students during the classroom teachers' preparation time in consecutive-minute periods that match the schedule of the school. Exceptions to consecutive time may be permitted on a site-by-site basis by mutual agreement.

2.4.4 **Professional Preparation Time Secondary/Middle School:** One of the three optional preparation schedules below will be selected by a majority vote of the total licensed teaching staff by the last day of the school year unless a staff chooses a variation of these three schedules as provided for below. If, in a subsequent school year, a site wishes to choose one of the other optional schedules, the total licensed staff shall make that change by a majority vote.

Option 1: A schedule that provides teachers with a minimum of 275 minutes of preparation time per week or the equivalent of a minimum of 275 minutes per week over the course of the school year.

Option 2: A schedule that provides teachers with a 55 minute preparation period in a six-period-day schedule. This preparation time shall be within the defined student day.

Option 3: A schedule that provides daily preparation time equivalent to a minimum of 275 up to a maximum of 550 minutes per week.

Additional Clarification for sites with two preparation times per day:

For sites with two (2) preparation times per day, two (2) of the ten (10) preparation times shall be used for collaboration. The other preparation times can be used at the discretion of the teacher and related services professional. If collaboration time is used for professional development (PD), that will count as one of the two required collaboration times per week.

For additional clarification, some secondary teachers have assignments in which they teach more than three (3) different courses in the day. For these assignments, the expectation for two (2) preparation times for collaboration should be relaxed to allow these teachers a better opportunity to prepare for teaching. They should be expected to schedule their collaboration times when it fits their particular need and schedule.

The decision to implement a schedule other than optional schedules listed above shall be made by agreement of a **two-thirds** majority vote of the total licensed staff by the last day of the second quarter (for the third and fourth quarters) or by the last day of the school year. All licensed staff shall vote on an annual basis if a schedule deviates from the three optional schedules.

Teachers agreeable to the alternative time option would accrue alternative time that would be used with the agreement of team members and the principal for professional or staff development activities. Article 4 Shared Leadership for Continuous Improvement

4.1 Shared Decision-Making - Description:

- 4.1.1 **Goals:** The Minneapolis Public Schools Strategic Direction calls for the District to support Shared Leadership for Continuous Improvement. The ultimate goal is to improve the quality of instruction and learning for students. It is expected that each school continuously renews itself and develops strategies to improve the achievement of each student served, and eliminate gaps in learning between groups of students. The chosen strategy of the District is to help each student achieve full potential by moving decision-making closest to the students served. Site-based management assures that all individuals involved in the process of educating students shall have a voice in the discussion.
- 4.1.2 **Benefits:** The benefit of shared decision-making is supported by research. Research shows that employees who are involved in the decision-making process are healthier and are more successful in achieving the goals of the organization. Research shows that families who feel heard by the educational establishment are more active in the education of their children and more supportive of the goals and practices of the institution.

4.2 Accountability:

- 4.2.1 **Description:** The Minneapolis Public Schools has adopted an accountability system that addresses individual, school, and system accountability for improved student performance. At the individual level, student accountability is incorporated into the standards and assessments that are aligned with the curriculum and/or Individual Education Plans (IEPs) for students with special needs.
- a. **Components:** The main component of professional accountability is the Professional Development Process (PDP) used by teachers, principals, and central office staff. The site's primary accountability is to the Associate Superintendent.
- The site level accountability system includes six parts:
- School Improvement Process (SIP)
 - School Feedback (SIF)
 - Quality Improvement Process (QIP)
 - Quality Performance Award (QPA)
 - School Performance Continuum
 - School Performance Conversation
- 4.2.2 **Continuous Improvement Framework:** These accountability tools are components of a single and continuous improvement process at each school site. To facilitate this process, the District will develop a common framework and criteria to guide schools and those providing feedback to the schools. This framework will be aligned with the Strategic Direction of the Minneapolis Public Schools, the District Strategic Plan, all standards for learning, and school quality standards. It will assure an accountability system that is consistent with each school's improvement plan and with District standards. The framework will be used in self-study and planning by schools and will guide the work of those providing feedback to schools.
- 4.2.3 **Guiding Principles:** The following philosophical and strategic principles help to shape the concept of shared leadership and accountability for student learning:
- a. **Common Abilities and Individual Differences:** All students can learn and we have a responsibility to ensure that all students do learn. Instruction is rooted in the belief that there are no differences in ability based on gender, culture, language, economic or family status. There are individual differences in students and teacher talents, learning styles and experiences which need to be addressed in designing instruction and student opportunities for demonstrating proficiency with the learning standards;

- b. **Shared Responsibility:** Ours is a vision of shared responsibility – shared among all stakeholders, but particularly among students, staff, families, and community;
- c. **Responsibility for Implementation:** Educators and schools must know, own, and implement the expected standards of learning and instruction;
- d. **Teachers – a Shared Voice:** Critical interactions affecting student performance take place daily between teachers and students. Teachers, therefore, must be given a shared voice in decisions at the school site;
- e. **Teachers – Responsibility and Accountability:** Along with this increased role in the decision-making process, the teachers assume more responsibility and accountability for the success of the school as well as to the students and families they serve;
- f. **Focus on Student Progress:** Student progress must be the intention as demonstrated through a variety of measures;
- g. **Positive Approach:** Effective change begins by taking actions to improve, building on areas of strength and capacity with an attitude of learning and support, rather than blame;
- h. **Role of Families:** Families have an integral role in decision-making.

4.3 Site Leadership Team – Organizational Structure And Leadership

4.3.1 General Principles.

- a. **Organizational Structure and Scope:** A shared decision-making process is integral to site accountability. Shared decision-making shall be established through a site organizational structure of a Site Leadership Team, which provides overall coordination of site decision-making. The Site Leadership Team shall ensure inclusive representation in decision-making in critical areas, including but not limited to staff development, instructional leadership, budget and staffing.
- b. **Guiding Principles:**
 - 1. **Policy-Making Body:** The Site Leadership Team is the policy making body for the site and is responsible for guiding shared decision-making at the site. The Board of Education has delegated responsibility under MN Statute §123B.04 to shared decision-making site teams under the guidelines set out in this article. The focus of procedures, programs, and practices established by site policy should be student achievement. Site Leadership Teams need to assess the effectiveness of shared decision-making in their site on a regular basis.
 - 2. **Bylaws:** The Site Leadership Team shall operate according to a set of bylaws, a current copy of which must be on file in the Associate superintendent’s office and available to all at the site. The bylaws shall include information regarding team composition, responsibility of membership, and support for Site Leadership Teams. These bylaws shall be submitted to the area office annually by the Site Leadership Team. These bylaws will be included in the staff handbook.
 - 3. **Representative Discussion:** Shared decision-making is a process that can ensure the effective implementation of the site’s SIP plan for student success. The process is based on the democratic discussion of priorities for allocating resources and for making decisions. Site-based management will involve all individuals in the education process equally including: District staff, families, and students when appropriate.

4.3.2 Site Leadership Team Responsibilities

- a. **School Direction:** Set the direction for overall management and operation of the school;
- b. **District Vision and Site Needs:** Know and understand the mission and vision of the district, the District Strategic Plan and the superintendent’s priorities, as well as the demographics, performance and needs of the students at the site;
- c. **Decision Alignment:** Make decisions that are aligned with the goals and policies of the Board and with the superintendent’s priorities;

- e. **School Improvement Plan Review:** Establish, implement, review and revise the School Improvement Process (SIP) plan;
- f. **Annual Budget Review:** Using feedback and recommendations from the site budget committee, develop and monitor the site budget annually, placing resources where they will effectively support the achievement of site instructional goals, including determining how compensatory revenue shall be used at the site consistent with provisions of law, and determining any reductions and/or additions as needed;
- g. **SIP – Embedded Plans:** Ensure that the staff development plan, behavior plan and wellness plan are embedded in the SIP;
- h. **Special Education Compliance Plan:** Review and monitor the implementation of a Special Education compliance plan;

- j. **Communication with Staff and Community:** Communicate regularly and clearly with the staff and community, including conducting conversations and releasing an annual Report to the Community;
- k. **Staffing Plan:** Develop and monitor a staffing plan that is aligned with the SIP. Determine the distribution of staffing needs to provide necessary instruction and support at the site;
- l. **Teacher Candidate Interviews:** Encourage participation of site teachers in interviews of teacher candidates
- m. **Transition Plan for New Administrators:** Provide leadership in development and implementation of a transition plan to help integrate new administrator(s) into the site with support from the Associate superintendent;
- n. **School and Quality Improvement:** Incorporate School Improvement Feedback (SIF) and lead the Quality Improvement Process (QIP)
- o. **Monitor Site Instructional Leadership Team:** Monitor the work of the Site Instructional Leadership Team in the design and delivery of instructional strategies, including program assessment, to ensure alignment with the SIP.
- p. **Climate and Culture:** Work through active leadership to promote a professional climate and positive organizational culture
- q. **Reporting:** Report its membership, selection process and meeting times and dates to the site community;
- r. **Participation in Professional Development:** Participate in professional development to improve the operations of the Site Leadership Team;
- s. **Annual Effectiveness Assessment:** Conduct annual assessment using district provided survey tool on the effectiveness of the shared decision-making process at the site and work with the Associate Superintendent's office to improve the process as needed;
- t. **Other Areas of Involvement:** Other areas of policy the Site Leadership Team may become involved with include but are not limited to:
 - Elective programming,
 - Selection of learning materials,
 - Issues raised by student government at the site,
 - Fund raising,
 - Purchasing,
 - Disbursement of funds,
 - School-related building use,
 - Staff assignments,

- Parent-teacher relations,
- Use of outside professionals and social service resources,
- Student uniforms or dress codes,
- Business/community partnerships,
- Parent involvement programs,
- Other policy issues covered by the parameters of site based management.
- Work in these areas of responsibility may be delegated by the Site Leadership Team to individuals, committees, or sub-groups, which will then report back to the Site Leadership team for final approval.

4.3.3 **Composition.**

Each Minneapolis Public School shall have a Site Leadership Team for the purposes described in this article. Members of a Site Leadership Team shall be elected annually except that community and business community representatives may be appointed. Members shall serve until a successor's term begins. (Optimally, teams would be in place when school starts in the fall). Members of the team shall represent major stakeholder segments of the school community, including staff members, families, community members, and students.

- a. **Diversity.** The make-up of the Site Leadership Team should closely reflect the diversity of the school.
- b. **Larger School Community.** Representatives of the larger school community should be represented on the Site Leadership Team, including: students (whenever possible), family members, licensed and unlicensed staff at the site, community, and business partners. A representative of the site student government shall represent the students. One-half (½) of the membership shall be other than District employees.
- c. **Staff.** The school Site Leadership Team includes the school principal, union steward, elected teachers in the school, and other employees at the site. One-half of the members shall be employees at the site. Additionally:
 1. **Ratio:** The bylaws shall delineate the ratio of at-large representatives to department or SLCs (small learning communities) or grade levels or team representatives.
 2. **At-Large Membership:** Where by-laws require at-large membership, at-large teacher representatives shall be elected by members of the teacher bargaining unit at the site
 3. **Elections:** Department, SLC, team, or grade level representatives shall be elected by the members of the teacher bargaining unit in the departments or SLC teams or grade levels.
 4. **Determination of Representation:** Licensed staff at a site may determine by majority how they will be represented on the site leadership team.
- d. **Non-Voting Participants:** As an integral part of the Site Leadership Team discussions at the site, the alignment, connection, and communication of key functions will be facilitated by including non-voting participants when appropriate

4.3.4 **Responsibility of Membership**

- a. **Staffing:** The Site Leadership Team will participate in determining the number and type of other (non-team) teaching positions needed at the school, consistent with statutory and contractual requirements based on a building staffing process. At high schools, graduation requirements and student options will be primary considerations. At magnet schools, staffing must also be consistent with magnet program requirements. Special education teachers shall be provided consistent with special education laws, regulations, funding and with students' IEPs.
- b. **Obligations of Representation:** Any member of the Site Leadership Team elected by a stakeholder group has these obligations of representation:
 1. attending and actively participating on the Team;
 2. reaching out to the diversity of the represented group to hear their opinions and ideas;

3. supporting goals and strategies to implement the School Improvement Plan;
4. communicating and working collaboratively with others on the Team;
5. Integrating the school improvement plan with the staff development plan, the behavior plan, and all curriculum and instruction.

4.3.5 **Decision-Making in the Leadership Team.**

- a. **Orientation:** The Leadership Team, in collaboration with the District, is responsible for maintaining an orientation program on school-based shared decision-making for all new employees of the school, interested family members, students and others, which includes an explanation of how decisions are made and what processes exist to provide input.
- b. **Guidelines:** The leadership team shall use the following principles to guide their shared decision-making processes:
 1. focuses on meeting academic needs of students including closing the gap.
 2. people most impacted in the decision are involved in the discussions
 3. how decisions impact student, staff and community
 4. promotes professional development of staff at the site and build collegial relationships and foster a professional climate
 5. promotes active parent and community involvement
- c. **Operation:**
 1. **Expectation for Collaboration:** The parties expect the members of a Site Leadership Team to operate as a single decision-making team, not as a group of spokespersons representing constituent groups. Their role is to work together to develop goals and strategies to implement the School Improvement Plan.
 2. **Bylaws:** Each site shall have bylaws or operating rules to govern all other aspects of the leadership effort, including how long members serve on the team, how members solicit ideas from others, and how team decisions are communicated to others. These bylaws are to be submitted to the area office annually and are in effect until amended by subsequent team action.
 3. **Decision-Making Methodology:**
 - a) **Determination of Authority:** Not all decisions will be made in the same way. There may be times the team delegates a decision, the team decides, the principal decides with participation of others, or when the team specifically delegates a decision to the administrators.
 - The first consideration in determining the scope of decisions to be made is WHICH decisions will be made by the team and which will be made by others,
 - Secondly, procedures defining HOW and WHEN decisions will be made should be determined.
 - b) **Communication:** This process should be communicated, including the process for participation. While a team may agree initially on specific processes, they may be faced with issues that require them to revisit the scope or process of decision-making.
 - c) **Expectation of Consensus:** When the team is to make a decision together, it is expected that the Site Leadership Team will operate by consensus (where lack of agreement is viewed as a signal that the best option has not yet been put forward). Consensus, however, need not mean unanimity, nor should all decisions require endless discussion, though every effort should be made through discussion and serious efforts to understand the reasoning behind opposing views.
 - d) **Dispute Resolution:** In the event that a Site Leadership Team is unable to reach a decision, the team will have a process in their bylaws to resolve disputes, which may involve a facilitator to help improve the team's process.
 4. **Agenda:** As a part of the bylaws or operating rules, the team will decide how the agenda is developed to ensure access and make it inclusive of the school community.

4.3.6 Support for Teams

a. General Principles:

1. **Information:** All information necessary to the decision responsibilities of the Team, such as budget and assessment information, shall be provided to all members equally.
2. **Incentives:** The Team can decide to provide incentives for Team membership, including compensatory time, payments of stipends, child-care costs, transportation expenses, and/or workshop registration fees, etc.
3. **Training:** Time for Team members serving on the Leadership Team shall be allotted during each year for the purpose of training or other activities related to site-based management and improvement planning.
4. **Resources:** District and Union resources will be available for the Team.

b. Site Team Development:

1. **Individual Training:** Team members should receive training that will build capacity of the group in the concepts and skills of joint problem solving, team building, teamwork, parental involvement, and decision-making by consensus.
2. **Team Training:** Site teams may desire team facilitation or development services from time to time and may access training and facilitation support services through the Area Offices, The Professional Leadership Team, Local 59, or the Principal's Forum.

- c. **District Support for the Site Leadership Team:** School and central office efforts must strive to complement each other. The District offices have a responsibility to set high expectations for student learning and the learning environment. Schools must be free to act in ways that help students reach the learning standards, and should expect and will receive support from the District. The District-school relationship was illustrated in the Standards of Effective Schools and Standards of District Support for Effective Schools contained in the Site-Based Management Report of January 1999.

To support Site Leadership Teams, the Superintendent and District Administration have the following responsibilities:

3. **Guideline Development:** Work with joint labor/management team to develop guidelines regarding the duties, power and authority of Site Leadership Teams;
4. **Professional Development Opportunities:** Provide professional development opportunities for Site Leadership Team members in the shared decision-making process and decision-making parameters;
5. **Information and Data:** Provide data and other necessary information to the site in a timely manner and accessible format;
6. **Site Assessment Analysis:** Analyze site assessments of the shared decision-making process and report to the sites;
7. **Assessment and Feedback process:** Work with joint labor/management team to develop a process for assessment and feedback to area offices of support provided to sites.

4.3.7 Relationships with the District and Site

- a. **Accountability to MPS Strategic Direction:** The Site Leadership Team shall be accountable to the Associate Superintendent and central administration for policies congruent with the strategic direction of the District, and will use the School Improvement Process as the vehicle for the development of policy to further the District Strategic Plan.
- b. **Representative Policy Development:** All policy issues should be based on the recommendations of and communication with all interest groups represented on the Site Leadership Team, and these recommendations in turn should represent an inclusive review within their respective memberships.

- c. **Transparency:** Site Leadership Teams will:
 - ensure a clear organizational structure
 - clearly communicate the decision-making process
 - identify the parties responsible for decision-making
- d. **Policy Development, Implementation, and Inclusiveness:** In the school, the Site Leadership Team also will build inclusiveness, cohesiveness and consensus. The school administration will be accountable to the site team, to the Associate Superintendent, and to central administration for the implementation of policy. The Decision-Making Parameters, found in an addendum at the back of this contract, will guide the development of policy structure and their relationship with the central administration.
- e. **Responsibility for Plan Development:** Site Leadership Teams are specifically required to construct and ensure the establishment and alignment of student behavior plans, professional staff development plans, and other plans for their site that reflect District Strategic Direction, Improvement Agenda, and their site SIP. Teams are referred to Article 5 of this contract for Staff Development and to Article 6 for student behavior.
- f. **Self-Assessment:** Shared decision makers will assess themselves using the Standards of Effective Schools as a guideline (see B 4.3.3)

4.3.8 **Relationship with Other Committees, Task Forces, and Work Groups:**

- a. **Coordination:** All site committees, task forces and work groups will communicate directly with or through the Site Leadership Team to coordinate planning and implementation of their work. The result will provide a learning environment where students, teachers, and staff will all understand the instructional goals of the site and what is expected of each of them in the process of achieving those goals.
- b. **Group Composition:** The formation of committees, subcommittees, work groups and task forces will vary according to the size and program needs of the site. While any model used must include teachers throughout the decision-making process, a model includes:
 - 1. Instructional Leadership Team.** The instructional leadership team includes instructional teacher leaders and administrators who meet regularly to create, implement, and monitor the strategies in the SIP plan focused on curriculum, instruction and assessment. The instructional leadership team may include people such as the staff development chair, PDP coordinator, department chairs, union stewards, and others as deemed appropriate by teacher leaders and administrators at the site. The instructional leadership team is responsible for aligning curriculum, instruction and assessment to state and District standards, the District Strategic Plan, Site Improvement Plan goals, and Professional Development Process plans, as well as providing interpretation, coordination, and support for the Standards of Effective Instruction. The Instructional Leadership Team will coordinate and communicate with the Site Leadership Team on a regular basis.
 - 2. Staff Development Committee:** The site staff development committee works with the Site Leadership Team and budget committee/work group to ensure an appropriate staff development budget. The site staff development committee allocates site staff development funds to most effectively support staff in achieving instructional goals. The site staff development committee is responsible for planning, implementing and evaluating all staff development activities, and determines funding for groups and individuals attending off-site activities.
 - 3. Budget Committee:** (May be a subcommittee of the Site Leadership Team). The budget committee is involved in developing and overseeing the implementation of a budget that places resources where they will effectively support the achievement of site instructional goals. Feedback is solicited from staff before the budget is created, and again before the budget is approved. The budget committee provides a budget proposal and presents it for approval to the Site Leadership Team.

4.4 Standards of Effective Schools

4.4.1 **Research and Experience:** The following Standards of Effective Schools represent a synthesis of over 20 years of research and documented experience on the effect of school quality on student learning. These standards represent both the national research and the practical experience of using that research in the Minneapolis Public Schools.

4.4.2 **Purpose:** These standards serve to guide schools in their self-assessment, improvement planning, and the feedback provided to schools on their effectiveness. They will also form the basis of a common set of criteria being developed for School Improvement Planning and all of the components in the Accountability Framework for the Minneapolis Public Schools (see outline in this article, Section 4.10).

4.4.3 The Standards:

a. **Have High and Rigorous Standards for What Every Student Should Know and Be Able To Do.**

According to research, effective schools have clearly defined their mission and goals in terms of student achievement. They have clear expectations for all students, not merely a segment of the population.

Effective schools:

1. share knowledge of the District's direction outcomes and apply them at their individual sites;
2. have a mission and vision;
3. focus School Improvement Planning cycle on improving student achievement including closing the gap;
4. present expected outcomes to students and families in a clear manner;
5. have high expectations for achievement of all students.

b. **Promote Active, Multicultural, Gender Fair, Ability Sensitive, Interdisciplinary Developmentally Appropriate Learning Tied Directly to the Minneapolis Learner Outcomes.**

*"Tell me, I forget
Show me, I remember
Involve me, I understand."*

In effective schools:

1. students engage in experiential learning in a context and environment similar to that in which the knowledge will be used;
2. diversity is valued: Activities and interactions are Multicultural, Gender Fair, Ability Sensitive, Developmentally Appropriate;
3. learning is integrated and interdisciplinary so that meaningful connections across disciplines are made;
4. emphasis is placed on mastery of critical and complex thinking processes in addition to performance in basic skills;
5. creative thinking, reasoning, group decision-making, visualizing solutions, persistence, curiosity and ingenuity are emphasized;
6. a variety of approaches and grouping practices are used to increase student expectations for themselves and for their peers;
7. students learn how to learn

c. **Expect Students to Share Responsibility for Their Own Learning.**

In effective schools, students:

1. make decisions about their own learning;
2. have opportunities to give and receive ongoing feedback;
3. are encouraged to help each other and have high expectations of each other;
4. are expected to master academic work;
5. come to school and are prepared and expected and supported to learn;

g. Share Decision-Making and Accountability for Student Success Among All Stakeholders.

The focus of shared decision-making is to improve student learning and will succeed only when all those who affect education accept their share of the responsibility for the results.

Effective schools:

1. recognize that all members of the school community play an important role in shaping education at their school site;
2. develop a sense of trust and understanding in the school community;
3. make decisions closest to where implementation will take place;

4. have a governance process that is participatory and inclusive;
5. share a sense of ownership about the changes they plan to carry out;
6. have clearly defined roles and responsibilities in the decision-making process;

j. Actively Involve Families in Helping Students Succeed.

In effective schools:

1. families are welcome;
2. families understand and support the goals of the school and the student;
3. families support the students' daily pursuit of educational objectives through homework and other learning activities;
4. opportunities are provided for families to develop understanding and skills, in ways to assist their students' learning;

4.5 Quality Performance Award (QPA).

- 4.5.1 **A Program to Recognize Performance:** Schools have an opportunity to obtain additional funding for reaching school performance goals. Available funds are presented as financial awards to schools that meet important goals in support of, but not limited to the following:
1. District Strategic Plan
 2. School Improvement Process
 3. Professional Development Process
- 4.5.2 **Improvement Strategies:** The three major improvement strategies embedded in the QPA Program are: define success, improve performance continuously, and support school communities as centers of performance. These three strategies focus the development of the program on how to support a school site's efforts to improve and reach high standards of success on both site-specific goals and District goals.
- 4.5.3 **Goals and Criteria for Success:** The District's improvement goals are specified in the document, the District Strategic Plan. Since the District Strategic Plan focuses the whole District on specific improvement and strategic goals, "Vital Quality Performance Indicators" of success are the criteria for review of a school site's performance. The link between the school site's performance and the District Strategic Plan is further strengthened through available funding. The total funds available for the QPA depend upon the results achieved by the District.
- 4.5.4 **Performance Goal Establishment and Measurement**
- a. **Criteria:** The District's accountability framework is used to select the standards and improvement goals of sites to be reviewed. The School Performance Continuum "Vital Quality Performance Indicators" will be used to collect information on the performance and improvement goals of the sites. A planning committee established by the Professional Leadership Team (PLT) develops the parameters of the program around the School Improvement Feedback process as outlined in the School Performance Conversation. The specific criteria for the review of a site's improvement plans, the reporting and payment schedules, and process for review will be approved by the Professional Leadership Team.
 - b. **Assessments, Measurements, and Indicators:** Standardized assessments, alternative assessments, and school site-specific measures provide the means for determining improvement towards and achievement of high standards by sites. Student achievement measures and other specific indicators of student success are identified in the performance continuum as criteria to be used in determining award recipients.
- 4.5.5 **Importance of QPA Programs:** Leadership and accountability are increased by QPA programs as sites review their performance relative to District and site-specific standards. The School Improvement Process is the system school communities use to plan for improvements. The QPA supports the School Improvement Plan by using the site goals as criteria for determining recipients of the QPA.
- 4.5.6 **Awards:** The selected sites will receive cash awards to further support work on their School Improvement Plan and to recognize teacher leadership. QPA funds shall be used as cash awards to teacher leaders and other staff who work beyond their instructional duties in designated leadership roles and/or in leadership positions as defined and selected by an inclusive process at the site (Also see Article 7, Basic Salaries, Rates of Pay, Other Assignment, Work, and Schedules).

Leadership roles/positions may include but are not limited to the:

- Literacy facilitator
- IEP implementation coordinator
- District trainers
- Achievement of Tenure Coordinator
- PDP coordinator
- Testing/Assessment Coordinator
- Standards Facilitator
- Site Mentor
- Staff development chair/coordinator
- Leadership team chair/co-chair

4.6 Teaching Teams

4.6.1 **Characteristics for Success:** The most distinguishing characteristic of a team is that its members have as their highest priority the accomplishment of team goals. They may be strong personalities, possess highly developed specialized skills, and commit themselves to a variety of personal objectives they hope to achieve through the team's activities, but their most important business is the success of the whole team in reaching its collectively determined, shared goals. Team members support one another, collaborate freely and communicate openly and clearly with one another. This is the team's collective strength.

4.6.2 **Collaborative Strategies:** A team with a strong foundation works well together, focuses on student needs, and uses clear processes. Such processes help solve problems, accommodate conflicts, develop skills and build relationships among members. An effective team will bring to students a variety of qualities:

- Complementary teaching styles
- Complementary instructional skills
- Background and experience

4.6.3 **Active Participation:** Team members actively participate in the planning, instruction, assessment, reflection and development of the team.

4.6.4 **Team Rights and Responsibilities:**

a. **Responsibility for Student Instruction:** A team shall be responsible for student instruction. They shall share the common goal of helping students meet or exceed promotion standards for that level. The team shall, therefore, determine instructional methods, consistent with the site and/or program focus. The team will determine how to group and schedule students for instruction in the subjects covered by the team, consistent with the school's master schedule.

b. **Team Effectiveness Survey & Assessment:** Each team shall be responsible for developing, maintaining, improving and assessing an effective teaming process. The following may be used to assess process effectiveness:

At your team meetings, can and do participants:

1. Initiate ideas; frequently offer ideas and solutions?
2. Facilitate the introduction of new ideas; actively encourage others to contribute without worrying about agreement?
3. Direct themselves and their comments toward team goals; often help to identify and clarify goals for the group?
4. Manage conflict; regard conflict as helpful in promoting different perspectives and in sharpening the differences in views?
5. Demonstrate support for others; actively encourage the participation of others and assert their right to be heard?
6. Reveal feelings; openly express feelings about issues; ensure that feelings parallel views?
7. Display openness; freely and clearly express themselves on issues so others know where they stand?
8. Confront difficult issues and behaviors; freely and honestly express views on difficult issues, and objectively identify non-productive behaviors of other team members when they occur?
9. Share leadership; assume responsibility for guiding the group when their unique resources are needed or when they see potential solutions to problems, and willingly

- follow through with tasks the team decides are necessary.
10. Exhibit proper procedures in the decision-making process; always seek a full exploration of all feasible options, and identify and cite the appropriate language from Article 5, Professional Development.

Survey Usefulness: Team members might use this or a similar team self-survey to develop team conversations that might in turn lead to decisions about various types of teaming support and/or staff development that might be useful to the team’s function and its success in meeting its goals.

4.7 School Improvement Process (SIP)

4.7.1 **Responsibility:** The Site Leadership Team is responsible for creating, implementing, reviewing and revising the SIP.

<i>School Improvement Plan</i>	<i>School Improvement Feedback</i>
Developed annually by each school community	Annual feedback to schools on their School Improvement Plan (SIP)
<p>Purpose: To provide focus and direction to the school in order to increase student achievement. To set multi-year goals for improvement. To ensure that the multi-year school focus is aligned with the District Strategic Direction, the District Strategic Plan, District and State standards.</p>	<p>Purpose: To review School Improvement Plans. To provide feedback on School Improvement Plans to help schools improve their planning process.</p>

4.7.2 **Annual Review** School improvement planning expects the school to annually review past performance; set specific, measurable targets for improvements aligned with District Strategic Plan goals; take action; assess the results of their actions; and revise goals. In this way, the plan guides schools through a systematic process for continuous school performance improvement.

4.7.3 **Inclusive Representation:** It is important to be inclusive in the development and revision of the School Improvement Plan (SIP) (see Section 4.6). There should be representatives from the entire school community including teachers, other staff, parents, community representatives, and students when appropriate. Building a sense of ownership of the plan will foster commitment as schools move to implement the plan.

4.7.4 **Components of the SIP:**

- Goals:** aligned with the District Strategic Plan
- Objectives:** specific to what students will do; must be measurable
- Data:** showing the current need for the goals and objectives
- Strategies:** activities that will lead to achievement of the goals and objectives; what teachers, staff members and/or students will do
- Timeline:** show specifically what will happen and by when
- Accountability:** who is responsible for strategy implementation?
- Budget:** how much will be spent, and from what source(s)
- Evaluation:** how will we know the strategy is helping the site to the meet the objective? (see Addendum for examples)

4.7.5 **The School Improvement Planning Process: Creating and Revising the SIP:** MDE has outlined a four-step process to help schools gather and analyze evidence about their educational practices. Schools will use this data to create and implement a school improvement plan.

1. Gather evidence
2. Analyze evidence
3. Create and implement a school improvement plan
4. Revise and reflect

4.7.6 **Creation and Use of the SIP:** The Site Leadership Team is responsible for the following phases in creating and using the SIP:

- Phase 1: **Set the Stage for the New Cycle:** Communicate to the school community the purpose of Continuous Improvement and the School Improvement Plan. Define the specific process your site will use to develop the SIP. Describe how members of the school community can be involved. Form a team to write the SIP. Gain commitment to the process from school community. Measure the process and plan against Standards of Effective Schools.
- Phase 2: **Use Data to Develop Goals:** Identify key questions that focus on student achievement. Determine data needed to answer questions. Analyze the SIR data. Evaluate progress toward goals. Develop improvement goals.
- Phase 3: **Use Additional Data to Develop Objectives and Strategies:** Identify and develop measurable objectives. Collect and organize additional data. Choose strategies to support objectives.
- Phase 4: **Develop the Plan:** Identify budget resources to support the strategies. Decide on strategies to bring the plan to life. Design and focus staff development to support the strategies. Assign responsibility and a time line for action. Establish evaluation and monitoring plan. Plan for sustained effort and accountability. Celebrate the completion of the written plan.
- Phase 5: **Commit to the Plan:** Communicate the plan to the school community. Commit to implement the plan.
- Phase 6: **Align the Professional Development Plan to the SIP and identify additional staff development needs.** Complete the actions defined in the plan. Execute the staff development plan.
- Phase 7: **Monitor Progress and Continuously Make Adjustments:** Collect data to monitor extent of implementation and to measure progress toward goals. Review and analyze data. Identify successes and needed areas of improvement and the reasons for each. Refocus resources. Update and revise plan as necessary. Measure the process and plan against Standards of Effective Schools.
- Phase 8: **Communicate Progress and Results:** Report to the School Community. Use additional methods to disseminate progress and results. Celebrate successes.

4.8 **Decision-Making Parameters**

4.8.1 **General Statements:**

- a. **District Standards, School Implementation:** The Strategic Direction of the Minneapolis Public Schools acknowledges schools as centers for performance. The District sets the standards of organizational and student performance. Schools are to initiate and implement the changes necessary for improving student achievement, with support from service oriented Area Offices and from the Central Office.
- b. **School Site Flexibility:** The philosophy guiding this work is that school sites should have as much flexibility as possible in managing their educational programs. In other words, the District sets system-wide standards (expectations) of learning and instruction for all students. The District pays close attention to these "ends" or results expected. The schools are to have as much flexibility as possible regarding the "means" of achieving those results provided the school is able to produce and demonstrate student achievement.
- c. **Table of Parameters:** The decision-making parameters found in Addendum 1 of this article intend to describe *what, when, where, and how of the decision-making process*. The 1997 revisions amended these parameters with regard to student performance standards, curriculum, instruction, and assessment.
- d. **Ongoing Assessment and Improvement:** The parameters are fluid and will continually change to reflect the best partnering possible between the District offices and the schools. School leaders and others in the community are invited to improve parameters, policy, and past practices on an ongoing basis that the site considers appropriate and advantageous to student learning goals.

- e. **Definition and Clarification of Decisional Scope:** Many who have seen the parameters document praise its honesty and clarity, but criticize its tone. Words such as District, decide, and advise, for example, sound legalistic and formal; that is not intentional. When the word “decide” is used, it does not mean to imply one person or the District unilaterally declaring a decision. It is intended to state where decision-making *responsibility* lies. Additional work must occur at both the school and District levels to further clarify who makes the decisions and how decisions are made. Sometimes decisions will be made by teams; sometimes by individuals. Many different means can be used. However, in deciding, these are the “givens”:
- 4.8.2 **Decision-Making Parameters:** In managing the school, the School Site Leadership Team should make its decisions within these parameters:
- a. **Overall Guide:** The Strategic Direction for Minneapolis Public Schools is our overall guide.
 - b. **Constraints:** Decision must be within federal and state law, contract language, referendum requirements, and Board of Education policy unless a variance has been received.
 - c. **Equity:** Decisions must assure the education of all children. The District will take action at times to ensure equitable conditions within each school and across the District.
We are a public institution, and as a public institution, we serve all students. The actions of the Leadership Team must embody sound educational policy equitably applied to all students and must assure the education of all students;
 - d. **Diversity.** School Site Leadership Teams will be less effective if any constituency groups are left out of the process. Input or involvement of others who are not members is encouraged as it is believed that decision quality improves with diverse input and participation. The Team should be strategic in establishing processes for listening to the diverse opinions of their school communities; these may include such techniques as round tables, park meetings, surveys, and call-ins. There will, of course, be times when decisions will need to be made quickly due to urgency or opportunity;
 - e. **Participation/Inclusiveness - balanced with timeliness:** Input and involvement of others is encouraged - particularly from those whom we serve. We believe that decision quality improves with diverse input and participation. We hope that early two-way consultation and ongoing collaboration between the District level offices and the schools on these decisions will be the norm. Regardless of whether the District or school is making the decision, we would like the process to allow for input from families, students, all staff and community members. At times, decisions will need to be made very quickly due to urgency or opportunity - and may be less inclusive.
 - f. **Communication:** Not everybody has to be, nor will be, directly involved in decision-making. But one thing is clear: if a decision has not been communicated, a decision has not been made. Decisions need to be communicated clearly to all who are affected.
 - g. **Evaluation:** Those who decide must welcome and use feedback and evaluation techniques to continually improve their decisions. Those making decisions should decide “up front” how they will assess progress. The District offices are also charged with assessing progress, communicating how we are doing, and providing support and feedback.
 - h. **Accountability.** Those making decisions are accountable for the results. Accountability means assuring that decisions get made; committing to the decisions; supporting implementation; communicating the decision; reporting on the results to others; conducting ongoing evaluation; dealing with the impact by receiving feedback and reporting on results and initiating needed changes;
 - i. **No Negative Effects on Other Schools.** Site team decisions should consider all effects and not make decisions that negatively impact other schools and communities;

4.8.3 Scope of Authority:

- a. The scope of authority for site decisions is delegated by the Board of Education to the sites and is located in Addendum 2 at the end of this Article.

4.9 Support for Schools

4.9.1 Performance Conversations:

In order to support schools in their effort to improve, the District has realigned services to support its schools. To facilitate support, the District Strategic Plan calls for “performance conversations” with the team from the Area Office and the principal and site team leaders. The performance conversation will reflect the school’s knowledge of how the school’s goals align with the District Strategic Plan goals as well as how the school uses the SIR to guide decisions as the school develops its SIP. The performance conversations will help identify how district services can support the unique needs of each school.

4.9.2 Standards of District Support for Effective Schools: District support for schools will be consistent with the Strategic Direction of the Minneapolis Public Schools, the District Strategic Plan, curriculum and performance standards for learning, and school quality standards. This will require that the District understand the plans, progress, and strategies at each school site. To meet this expectation, the District has developed Standards of Support for Effective Schools. These standards are designed so that each school receives assistance that meets the specific requirements of each school site.

District level support services shall undergo a self or exterior constituent assessment of its effectiveness measured against the following standards:

1. Have High Standards for Student Learning In All Schools.

- Learning standards are clearly defined.
- Outcomes throughout K-12 and upon graduation are linked to Minnesota and national standards.
- The school community is knowledgeable of and understands expected outcomes.
- All schools have School Improvement Plans focused on improving student achievement.

2. Provide Curricular, Instructional and Assessment Leadership in Support of What Students Should Know and Be Able To Do.

The District has:

- clear learner standards which are aligned with state and national standards;
- curricular content describing what students know and are able to do at each grade level and grade level expectations in each field of study (social studies, language, math, health, etc.);
- ongoing identification and support of effective and promising instructional strategies and practices;
- an assessment system for reporting the degree to which each student demonstrates mastery of the intended standards.

3. Set Strategic Direction and Establish Improvement Planning Processes to Support Student Achievement.

- The District has clear mission, vision, and goals.
- Planning processes are inclusive, shared, and well known throughout the District.
- Action results from planning.
- All schools have School Improvement Plans focused on improving student achievement.
- The District leads cross-jurisdictional, long-term planning within the city.

4. Provide Leadership Which is Visionary, Reflective, Focused, and Consistent Over Time.

- The school community knows the Strategic Direction of the District.
- The evolutionary and ongoing nature of change is understood and supported.
- Those leading and participating in positive change consistent with the vision are valued, supported, and recognized.

- Conditions are created that enable active sharing of what is learned across the District, across other districts, and across the nation.
- 5. Model and Support a Diverse, Safe, Respectful, and Affirming Environment for All.**
- The District employs Multicultural, Gender Fair, Ability Sensitive, Developmentally Appropriate (MCGFASDA) practices for:
 - attracting and retaining outside staff;
 - community partnerships;
 - alignment of policy and practices.
 - Support systems are established to ensure implementation of District-wide (MCGFASDA) plan.
 - The District supports both policy and practice of zero tolerance for violence.
 - Student achievement, curricular content and instructional strategies reflect a diverse and global society.
 - Survey results confirm an environment of safety, respect, and affirmation.
- 6. Win Community-Wide Support to Provide Resources for the District and Its Schools.**
- The District actively produces or secures needed services to support the schools.
 - District policies, procedures, budgeting priorities, and decision-making are focused on student achievement.
 - Systems are developed and maintained to deliver services focused on student achievement.
 - Taxpayer, voters, and federal and state lawmakers confidently invest in our schools.
 - Funds are leveraged through creative, matching fundraising efforts.
- 7. Support and Facilitate Continuous Improvement/Learning of All Staff.**
- District has high standards for all staff.
 - District supports staff development and skill training for all employees.
 - District supports a professional development process for each employee.
 - Performance assessments occur as ongoing, regular feedback.
 - Employees understand the knowledge and skills needed for their work.
- 8. Ensure Accountability While at the Same Time Respecting School Autonomy.**
- Schools are supported as the primary centers for change.
 - Clear goals and performance standards are set rather than telling schools how they must be met.
 - An orientation is created towards achievement of results rather than procedure.
 - Evaluation processes are in place to assess achievement of goals.
 - The District identifies areas where standards aren't being met and helps schools meet those standards by providing support services along a continuum from self-improvement to fresh start.
 - Roles and expectations for decision-making are clear.
 - The District collects and focuses reporting to the community.
 - District offices look for success stories inter- and intra-District and encourage replication, as appropriate.
- 9. Forge Links with the Community to Advance Learning Readiness and Student Success.**
- The District partners with:
- other public institutions
 - businesses
 - non-profits
 - private foundations
 - post-secondary institutions
 - professional organizations/unions
 - The District collaborates with partners to create service systems which prevent duplication, are user-friendly, and are effective in supporting students and their families.

10.Listen and Communicate.

- Opportunities are created for continual conversation and feedback within the whole District community.
- Many mechanisms exist to reach out to various communities and hear back from them.
- The District develops and maintains ongoing conversation among teachers and teachers, teachers and principals, building and central office, school to school.
- Information is available when and where needed.

11.Exhibit a Service Orientation.

- District offices find out what schools need to succeed and continually improve their abilities to meet those needs.
- When District offices are responsible for assuring adherence to District-wide norms, they make it easy for schools to comply, give schools feedback about how they are doing, and target intervention services for the few that require them.

12.Provide an Infrastructure Necessary to Support Effective Schools.

- Information management and technology acquisition supports.
- Support services such as facilities, transportation, and food services are active partners in academic program decision-making (and the reverse is true as well).
- The District's infrastructure of support advances academic, administrative, and communication goals.

13.Assure that Organized Stakeholders Actively Work to Produce Effective Schools.

- The Board of Education, union leaders, and central office administrators challenge their own and each other's past practices, beliefs, written contracts.
- District-wide mechanisms for ongoing, meaningful stakeholder involvement are created.

4.10 Accountability Through Quality Feedback

4.10.1 Assessment of Shared Decision-Making.

At least annually, each school team and the District should undergo a self- or external-assessment of its decision-making process. While the School Improvement Process (SIP) looks at "Are we doing the right things to improve student achievement?" this assessment would ask "How are the means we are using working?" These site evaluations would measure areas such as:

- efficacy and efficiency of decision-making processes;
- listening to and communicating with various school constituencies;
- connection of decisions to the District's Strategic Direction and the School Improvement Plan;
- decision-making parameters themselves;
- decisions represent what is best for the whole while respecting the needs of constituencies;
- leadership is shared among stakeholders.

Assessment tools may include: e.g., annual surveys of staff, focus groups, QIP, self-study, surveys of families, students.

4.10.2 School Information Report (SIR). The School Information Report provides data to schools that will assist them in planning programs to help students achieve. Information is provided about student progress in specific content areas as well as other areas of the school program. These measures support a continuous cycle of learning that informs the School Improvement Process. Schools will then use this information to assess the progress they have made and to plan for the next school year of the School Improvement Process.

4.10.3 School Improvement Feedback (SIF). The purpose of the School Improvement Feedback process is to provide annual feedback to schools on their School Improvement Plans. The intent is for schools to use the information to improve their plans and, ultimately, to improve their effectiveness in increasing student achievement for all students. The customer in this process is the school community. The process is not about evaluation but about feedback for

continuous improvement. Each school will receive written, timely feedback on their School Improvement Plan each year. Teams comprised of staff, parents, and community members will be trained to review plans and write feedback reports. Each plan will have more than one reader. The written feedback reports will identify areas of strength and opportunities for improvement.

The intention of this feedback is to assure that:

- SIP goals are aligned with the District Strategic Plan goals and address critical areas for improvement suggested in the School Information Report;
- activities and strategies align with SIP goals;
- SIP achievement indicators are clearly related to goals;
- evaluation will provide adequate feedback;
- the SIP is clear, concise and easy to understand, with clearly designated accountability and timelines.

4.10.4 **The School Improvement Plan.** The Associate Superintendent's charge is to provide constructive feedback to all schools on their School Improvement Plans. The performance conversation will reflect the school's knowledge of how the school's goals align with the District Strategic Plan goals as well as how the school uses the SIR to guide decisions as the school develops its SIP. Performance conversations will help identify how district services can support the unique needs of each school.

The review and feedback will be based on the following criteria:

- a. **Critical Areas:** Critical areas identified by the school for improvement are related to the District Strategic Plan.
- b. **SIP Goals:** SIP goals show how school plans reflect both District Strategic Plan goals and critical areas as identified in the SIR. An example of an SIP goal would be "Improving Achievement".
- c. **Measurable Objectives:** SIP objectives are measurable. The objective is clearly stated, includes expectations of anticipated results, and is measurable. These are related to the goals identified in the District Strategic Plan. It is the quality of the results, not quantity that counts.
- d. **Indicators of Success:** How will you know if you are successful? These indicators serve as benchmarks to assess whether progress toward achieving the goal is occurring. These indicators should also be aligned with other components of the district's success indicators. Indicators of goal achievement support how the strategies contribute to achievement of the goals.
- e. **Well-Planned Goals:** Strategies and activities are well aligned and integrated and will contribute to the achievement of the goal. Goals are likely to be achieved through the implementation of these activities and strategies. Each strategy identified is clearly linked to the goal. The plan indicates who is specifically responsible for implementation and states the target date by when the strategy will be completed and evaluated.
- f. **Activities toward Goal Achievement:** There are several activities connected to each strategy and they will be organized according to the District Strategic Plan goals. Staff development plans must be aligned with the goals identified in the SIP. Procedures for measuring the impact of staff development activities are included in the SIP. Professional Development plans for teachers and other staff should also be aligned with SIP goals. The school's staff development goals are aligned with the SIP goals and activities and should be included in the SIP strategy and activity and budget portions.
- g. **Budget Allocation:** It is necessary to establish the budget allocations as a school's goals are set and actions and strategies are put in place. Including a budget helps in several ways: the budget is focused on the school's goals and staff development plans; it serves to monitor use of state compensatory dollars to meet the needs of students most in need of intervention; it offers a way to begin discussion of budget goals for the next year.

- h. **Monitoring Progress:** Progress toward achieving identified goals is monitored throughout the year and necessary modifications are made. The SIP should include ongoing monitoring activities that show progress toward goals in order to make and implement midcourse corrections and adjustments. The greater school community should also be kept informed about the school's progress toward achieving its SIP goals.
- i. **Impact on Student Achievement:** The process for evaluating progress toward each goal focuses on learner standards. It is not enough to simply report that something was done. It is critical to report how well it was done and its impact on student achievement.
- j. **Communication with School Community:** The plan and its results are communicated to the school community. Once the SIP is developed it needs to be shared with the greater school community so that everyone is aware of the school's goals and the actions which will be taken to achieve those goals. It is recommended that the plan is shared in a variety of ways. People should be reminded of the plan throughout the year. A copy of the plan should also be sent to the Associate Superintendent.
- k. **Year-End Report:** At the end of the school year, the school should prepare a final report which summarize the SIP goals for that year and the extent to which those goals were met. This information should be reported to the greater school community and School and Site Services. This report will also provide critical information when the school prepares its SIP for the following school year.

4.10.5 **Quality Improvement Process (QIP).**

- a. **Definition:** The Minneapolis Public Schools Quality Improvement Process (QIP) is a standards-driven, internal and external feedback process to support a School Improvement Plan, actions, and results.
- b. **Structure and scope:** The Quality Improvement Process is an important piece of a larger accountability system. The Quality Improvement Process is an internal accountability tool that fosters a continuous culture of school self-improvement. It combines structured and comprehensive self-examination and reflection with in-depth review and feedback by an external team comprised of educators, peers, community members, and customers (QIP Cadre) (Minneapolis Public Schools Quality Improvement Process, Guide, and Assessment Criteria, 1997).
- c. **Purpose:** The Quality Improvement Process (QIP) encourages internal accountability within Minneapolis Public Schools. It provides schools with a safe environment for in-depth reflection and promotes the type of collegial professional environment that supports and promotes positive change.
- d. **Feedback Processes:** Two feedback processes are developed:
 - 1. Written *School Improvement Feedback* for all schools, annually. (SIF)
 - 2. The QIP process provides a structured, in-depth self-examination of schools planning and actions and feedback from an external cadre comprised of educators and community members.

All sites are expected to be on a course of continuous improvement. QIP is designed to respond to requests for more in-depth and structured feedback to inform school improvement planning. All sites will ultimately undergo the assessment as part of the cycle of school improvement. The assessment will help schools:

- increase capacity to gather, use, and interpret data; and test assumptions;
- learn to look at program as a whole system, with interconnected parts, rather than focusing on individual programs or people;
- develop a natural, systematic approach to quality improvement;
- clarify goals, improve actions and results;
- most importantly, improve student achievement!

4.10.6 **School Support Process.**

- a. **Purpose:** The School Support Process (SSP) is designed to assist sites with resolution of student performance, instructional and/or leadership issues that impact school success. This process assists sites in identifying key issues, implementing strategies to address them, and helping sites build capacity to address future issues. The SSP is coordinated by the Professional Leadership Team (PLT), which consists of representatives from the Minneapolis Federation of Teachers (MFT), Principals' Forum, and District Administration. School Support Process activities will be aligned and coordinated with other district efforts regarding school climate, adult culture and related areas.
- b. **Indicators Toward Referral:** Indicators from School Performance Management Continuum that may lead to a referral include:
 - student achievement in decline
 - a widening of the achievement gap
 - negative site climate
 - adult, student, overall site safety concerns
 - poor attendance rates
 - increasing dropout rates
 - teaching and/or leadership challenges

c. **The Process:**

Step 1: Starting the process

A school may be referred to PLT by any of the following people/groups:

- Associate Superintendent/District Leadership
- Site self-referral
- Minneapolis Federation of Teachers
- Principals' Forum
- Representatives from other Bargaining Units

Step 2: Initial assessment

- PLT will determine whether other interventions have been attempted prior to the referral. If prior efforts to address issues have been unsuccessful, or there is a need for additional partners or resources, PLT will assess appropriateness of the referral and assess need for the SSP.
- If PLT determines that there is a need for the SSP, an SSP team will be appointed that will be comprised of building leadership, representatives from MFT, Principals' Forum, C & I, Associate Superintendent, Employee Relations, and others as appropriate.
- The SSP Team then holds an initial conversation with Principal and building leadership group (e.g. may include but not be limited to administrators, union steward, representatives from leadership/instructional leadership team, PDP coordinator) to review the support process, secure agreement and lay out specifics of process implementation at the site.

Step 3: Site Assessment

Needs Assessment: To determine focus of support, Team meets with Principal and key school leaders to identify needs and plan the process. The following steps are taken:

Collection of information and data analysis through:

- Conversations with site administrators and school leadership
- Review of site data (e.g. academic, behavior, attendance, student/staff survey)
- Input from full staff, e.g. surveys, focus groups, or Chadwick/circle style discussion
- Review of written documents: e.g. behavior plan, SIP, staff development plan, organizational design

Key areas assessed: leadership and organizational design, school wide systems and practices, problem solving process, student achievement, adult culture issues, instructional environment/classroom management, equity and disproportionality.

Notification of SSP Status:

- Following data analysis, the Team makes a determination regarding site needs and appropriate strategies for improvement
- The Site, Superintendents and PLT are notified of determination and given written analysis
- Meeting is held with the site to review data, prioritize needs, and identify processes to assist with goals

Step 4: Creating a Plan

In collaboration with the site, the SSP Team develops an action plan that includes:

- goals and objectives
- strategies, timeline
- indicators of success
- roles and responsibilities
- resources needed
- feedback systems
- A goal of this process is to build the site's internal capacity for data-driven decision-making and following through on improvement processes, based on the data. Once this takes place, the site and SSP Team formulate a plan. The SSP Team facilitates discussion to establish consensus on the work, and implementation begins.

Step 5: Implementation of Work in Targeted Areas

- The SSP Team supports site leadership in building capacity to implement the outlined plan with other resources as appropriate.
- PLT coordinates resources as determined in the site plan.
- Professional development, mentoring, coaching, leadership development, and creating building infrastructure (systems) are provided/developed as indicated by the plan.
- Ongoing assessments are conducted to determine if original plan needs adjustment.

Step 6: Monitoring Progress

- The Team supports sites in establishing an assessment progress monitoring system, including collection of data about implementation and feedback systems.
- A periodic report will be provided to PLT summarizing progress of site efforts.

Step 7: Outcomes

- If the site is successful in meeting goals within the timeline, the process ends (with periodic check-ins provided by SSP team or Assoc. Superintendents for a period of one year following the end of the process)
- If unsuccessful in meeting goals within the timeline but showing evidence of positive change, the Team may extend the timeline. If unsuccessful or unclear, PLT and SSP Team will make a determination regarding appropriate next steps.

4.10.7 Other supports and structures include:

- a. **School Support Process (Whole school):** Designed to assist sites with resolution of student performance, instructional and/or leadership issues that impact school success. (See Article 4) . See section 4.10.6 above.

- b. **Climate Study (whole school):** A joint interview process conducted by the district and union to collect information to determine site strengths and areas of growth. This process results in recommendations to improve site climate. (See Article 12).
- c. **Conflict Resolution (Staff/Staff, Staff/Parent):** Created to ensure every employee works in a climate of respect and support. Conflict resolution procedures are used to resolve staff to staff or staff to parent issues. (See Article 12.7.1)
- d. **Problem Solving Protocol (Staff/Principal):** Created to further positive relationships between principals and teachers. (See Article 12.7.2)

4.10.8 **Possible next steps could include:** A report and dialogue with Associate Superintendents; and/or referral to an external review (see QIP in this article)

4.10.9 **Professional Leadership Team**

- a. **Purpose:** MFT and MPS leadership agree to establish a joint labor management committee to discuss and come to agreement on issues that impact teaching and learning and make recommendations to be considered for implementation.
- b. **Composition:** This committee, the Professional Leadership Team (PLT), will be made up of the following representatives:
 - 5 Teachers (includes the MFT President)
 - 2 ESPs
 - 5 Principals (includes the Forum President)
 - 2 District Administrative representativesAdditional guests may be added to meetings to address specific topics.
- c. **Operating Principles.** The presidents of the teachers union and principal forum will co-chair PLT and be responsible for selecting their respective representatives. The leadership of each represented group will select their members. The PLT committee will meet to determine its specific mission, vision and operational functions. The presidents of the MFT and Principals' Forum will determine meeting dates.
- d. **Annual Review:** Each year, the PLT will review past year accomplishments, the composition and number of the group and future topics. The PLT will engage in, but is not limited to, solving the following issues:
 - 1. Lesson Planning Time.
 - 2. Class Size/Caseload/Student Load.
 - 3. Inclusion of professional voice in work with students.
 - 4. Increasing a transparent and collaborative culture of respect throughout MPS and specifically in buildings.
 - 5. Ensuring adequate resources are available to ensure quality learning.
 - 6. Will review the number and purpose of student assessments given in MPS
 - 7. Over-site of MPS LM Academic Review Committee (clearinghouse for new initiatives).

4.11 The School Performance Continuum

4.11.1 General:

- a. **Background:** The mission of the Minneapolis Public Schools is to ensure that all students learn. Much work has occurred at both the State and District levels to set content and performance standards for student learning. Now, additional work is occurring to help sites/programs assess how they, as organizations, are performing in the realization of this mission.
- b. **Performance Continuum – Description:** An organization is in a dynamic, fluid relationship to its development goals, either improving in performance, staying static, or in actual performance decline. Thus, schools are able to place themselves along a performance continuum according to objective evidence of selected performance indicators. It is crucial for the District to be accurate in reporting the placement of each school along this continuum, and to provide support to sites to ensure that all schools make satisfactory progress toward their SIP goals.
- c. **School Performance Assessment:** To measure and monitor school performance, Site Leadership Teams will annually review a performance assessment data, to analyze evidence of the school's performance on the selected indicators. This performance assessment may include both an internal self-study, and an external school audit. A QIP

process shall satisfy the assessment. At a minimum, an effective review should address the following:

- instruction
- curriculum
- assessment
- school management and leadership
- staff attitudes
- professional qualifications and competencies
- percentage of non-tenured staff
- professional development of staff
- parent, student and community perceptions and involvement
- school discipline
- safety and security
- instructional supplies and materials
- the physical plant and facilities
- and the adequacy of the District's support for the school

- d. **Assessment Indicators:** Sources of information for this self-study may include the Vital Quality Performance Indicators of School Achievement, included at the end of this article. These indicators are a combination of standardized measures, growth indicators, and survey/interview data. This accountability system is designed to measure an individual school's progress against District standards for school achievement, school climate, attendance and suspension rates, and gifted and talented programming. Any sources or indicators may be used for this self-study, including:
- Effectiveness of the Site Leadership Team
 - Effectiveness of the Instructional Leadership Team
 - Staff Relationships
- e. **External Audit:** The external audit may be the Quality Improvement Process. The information and analysis provided by the school self-study should help to guide an external school audit team which, at the completion of its work, will be in a position to recommend actions that should be taken to improve the school. The external audit team should include the building principal and other licensed personnel. Schools may be asked to be involved in a North Central Accreditation assessment.
- f. **Annual Performance Assessment:** District support staff and community representatives will meet with the Site Leadership Teams and building staff each year to provide support as the school focuses on their annual performance assessment process, their improvement goals, and the school's progress toward achievement of goals specified in their SIP. This annual performance assessment will assist sites in determining their placement along the School Performance Continuum:
- Development Stage
 - Support and Technical Assistance Stage
 - Intervention Stage

4.11.2 Stages:

- a. **The Development Stage for Continuous Quality Assurance:** For those schools whose annual performance assessments indicate satisfactory standing on the School Performance Continuum, District support services will be available to sites to ensure continuous quality.

Examples of these services may include:

1. Performance grants;
2. Specific technical assistance identified by the site for goal setting or SIP implementation;
3. Training in SIP implementation;
4. Assistance with site-specific topics, such as Site Leadership Team by-laws, members' selection, length of term, communication effectiveness within the building, measures of accountability to stakeholders, and their role and effectiveness in solving

- leadership problems or questions occurring within the site;
5. Assistance with systematic planning for the transition from a former to a new administrator at the site;
 6. Assistance with the assessment of leadership functions with the use of annual surveys of building staff and/or stakeholders, focus group interviews, the use of the Standards of Effective Schools (included in this article, as a guide), or other measures such as these tools are:
 - Consensus building model
 - Adaptive Schools-Garmston and Wellman
 - Good Seeds Grow Strong Cultures-John Saphier
 - Democracy in Action-Clark Glickman
 - Renewing American Schools

b. The Support and Technical Assistance Stage:

1. **Inadequate Progress:** Those schools whose annual performance assessments using the Vital Quality Performance Indicators show that the site's efforts at self-improvement have not been adequate, will receive District services at the Support and Technical Assistance Stage. Tier 1 schools will receive Support and Technical Assistance services. Tier 2 schools may self-select to receive services.
2. **Criteria for Identification:** These schools are identified using fair and widely accepted criteria. The District will assist sites in determining the appropriateness of this level of support, and in identifying areas for improvement. All stakeholders, including staff, students and parents will be informed about the criteria by which the school's performance is being assessed. When high needs areas for improvement are identified, school staff and stakeholders will be informed promptly, and given access to supporting data and intervention options being considered. Timely action must be taken to improve these high needs schools.
3. **Core Team:** In situations where a school is identified as eligible for District services at the Support and Technical Assistance Stage, a core team will be established to coordinate services to the site. This core team will include representatives from the Site Leadership Team, the Associate Superintendent's office, representatives from the Principals' Forum, the MFT, and C&I. The Superintendent may request the Department of Children, Families and Learning and/or other outside agencies as appropriate. The MFT representative will be part of the core team to ensure that teachers and other school staff have the opportunity to continue learning, are being treated professionally, are involved in decision-making and are part of the solution.
4. **Action Plan:** The action plan for high needs schools must be educationally sound and effective. The oversight and coordination for the plan's development and implementation shall be the responsibility of the core team. The challenge is to take the scientific research on programs and pedagogical approaches that have been proven to work, and use it to ensure that children and schools succeed.
5. **Service Expectations:** The core team for sites at the Support and Technical Assistance Stage will ensure that services to the site:
 - are based on high academic standards;
 - enforce high behavior standards;
 - use objective criteria of performance that are clear and understood by all stakeholders;
 - address the particular needs of the individual school;
 - are supported by scientific research; involve staff and provide them with the professional development, time and resources they need to be effective.

Examples of services at this level for high needs schools include:

- Challenge grants;
- Climate surveys/assessments and /or administrative assessment;
- External guidance: from consultants, from successful peers (peer coaching/mentoring);

- Joint District-Site decisions, based on what’s best for kids;
 - Extra support for students;
 - Additional time and/or resources for staff development.
6. **Timeline, Followup Plan, Monitoring:** A timeline for District services at this support and technical assistance stage and a specific follow-along/follow-up plan will be established by the core team, to ensure that the school action plan is implemented appropriately, and leads to satisfactory progress toward specified improvement goals. As satisfactory progress is established, the core team continues to monitor and provide technical assistance as necessary to ensure continuous quality performance, until the site is able to more independently function at the level of the Continuous Quality Assurance stage.
- c. **The Intervention Stage:**
1. **Unsatisfactory Progress:** For sites in which the outcomes from the Support and Technical Assistance Stage of District services do not result in satisfactory and sustained progress on the School Performance Continuum, the school enters the Intervention Stage of District services. The core team may be formed again according to the site’s specific needs.
 2. **Needs Assessment:** Once a school’s strengths and most pressing needs have been identified, the District assists the Site Leadership Team in choosing among those replicable, research-based programs that have a record of success in similar situations.
 3. **Corrective Action Plan:** The core team prescribes corrective actions to be completed, with strict expectations and timelines.
 4. **Staff Transfer:** Since staff support is critical for the effective implementation of a successful academic plan, any staff member who prefers not to work with the adopted model will be allowed to transfer under the transfer and reassignment provisions of this contract, and a team of teachers with training and experience in the selected model will be recruited into the school.

4.11.3 Voting for change by licensed staff

- a. **Availability of Information:** Staff members should be provided with enough information to make informed decisions from among research-based improvement models. This should include accurate information about research results, costs, and any additional professional development, curriculum materials, or other assistance that might be necessary for the effective implementation of each program.
- b. **Presentation Requirements:** Presentations on the programs under consideration should address the specific needs of the school, use data and examples to illustrate how the program can help raise student achievement, and provide a realistic description of what effective implementation would involve.
- c. **Site Visits:** Staff representatives should be provided opportunities to make site visits to school sites where the programs under consideration are being implemented.
- d. **Secret Ballot:** Teachers should choose by secret ballot, such ballot to be overseen by the MFT and the Forum.
- e. **Voting Results Criteria:** Programs should be adopted by a consensus or, failing that, a two-thirds majority.

4.11.4 Fresh Start:

- a. **Decision:** If, despite intervention efforts, student performance fails to improve within a reasonable time frame, the core team may recommend a fresh start procedure to the Superintendent and the School Board. The Superintendent and the School Board shall make the final decision on Fresh Start.
- b. **Design Expectations:** When a new school is opened to replace the closed school, whether or not it is located in the same physical plant, it should be designed around a

research-based academic improvement plan shaped by stakeholders, including the union and new Site Leadership Team.

- c. **Staff Decisions:** Staff should receive enough information to make an informed decision about whether or not they wish to be assigned to the site, based on their training and/or experience with the new model, under the New Program provision, Article 15, Transfer, Reassignment, and Recall. Those not selected by the new school will have transfer rights to other schools as excessed teachers under Article 15, Transfer, Reassignment, and Recall.

4.11.5 **Quality Performance Indicators of School Achievement:**

- a. **Accountability Rating System:** The District's accountability system is broader and more systemic than any accountability system in the state, measuring individual school progress against district standards for student achievement, school climate, attendance and suspension rates and gifted/talented programming. Points are assigned to each indicator to show whether or not the school is meeting the standard for that indicator. The average of the combined results in a school's overall point total can range from low (1) to average (3) to high (5).
- b. **Elementary and Middle School Indicators**
 - 1. Rate of growth of continuously enrolled students making one year's growth or more in reading and math on the District's standardized assessment approved by the Chief Academic Officer and administered through the Department of Research Evaluation and Assessment
 - 2. Student performance compared to state high standards in reading, math, and writing in grades 3-11.
 - 3. Decrease in the achievement gaps on reading, math and science.
 - 4. Equity of Achievement: Decreasing the achievement gap for reading, math and science for students of color.
 - 5. Percentage of students and staff who agree that their school is safe.
 - 6. Percentage of students and staff who agree that students and staff respect each other.
 - 7. Percentage of students suspended for behavior that threatens the safety of others.
 - 8. Decrease in students' suspension gap between current levels and the standard for all schools.
 - 9. Increase in the percentage of students attending school at least 95% of all days.
 - 10. Decrease in student attendance gap between current levels and the standard for all schools.
- c. **High School Indicators**
 - 1. Rate of growth of continuously enrolled students making one year's growth or more in reading and math on the District's standardized assessment approved by the Chief Academic Officer and administered through the Department of Research Evaluation and Assessment
 - 2. Participation in MCA assessments for all subgroups.
 - 3. Student performance compared to state high standards in reading, math, and science.
 - 4. Decrease in the achievement gap on reading, math and science.
 - 5. Equity of Achievement: Decreasing the achievement gap for reading, math and science for students of color.
 - 6. Percentage of students and staff who agree that their school is safe.
 - 7. Percentage of students and staff who agree that students and staff respect each other.
 - 8. Percentage of students suspended for behavior that threatens the safety of others.
 - 9. Decrease in students' suspension gap between current levels and the standard for all schools.
 - 10. Increase in the percentage of students attending school at least 95% of all days.

Article 5 Professional Development

5.1 Professional Development in Minneapolis Public Schools

- 5.1.1 **Importance:** The Minneapolis Public Schools (MPS) along with the Minneapolis Federation of Teachers (MFT) agree on the importance of professional development and support of its teachers. It is a crucial factor in creating and maintaining an excellent school system focused on ensuring that all students learn. In addition, the District's ability to attract, develop, and retain excellent and diverse teachers is improved when a strong professional development foundation exists.
- 5.1.2 **Definition and Anticipated Results:** Professional development is the process by which teachers individually and jointly enhance and update their knowledge of standards, curriculum, and content, and improve their instructional skills and strategies. Effective and continuous professional development expands the knowledge base and repertoire of practices and skills necessary for teachers to engage in educated and optimal decision-making so that all students acquire the highest quality of education. Enhanced professional development increases teacher effectiveness, builds confidence, morale and commitment, and subsequently, the ability to improve the quality of education of all students in MPS.
- 5.1.3 **Assumptions for Success:** The underlying assumptions that support the success of the Professional Development Process for MPS teachers are:
- a. Professional development is focused on ensuring successful student learning and achievement for all students.
 - b. The expectation that there is a school climate for professional learning and growth that provides opportunities for collaboration and dialogue around student results and teacher practice for the purpose of improving student achievement to meet standards.
 - c. Professional development is job-embedded, continuous, and focused on research-based best practices supporting the National Staff Development Council Standards and the Minneapolis Standards of Effective Instruction.
 - d. Opportunities for teachers to be engaged creatively in the action research process is essential to effective instructional practices.
 - e. Research-based innovation and taking risks are the norm and necessary for continuous learning.
 - f. The instructional community is responsible for collegial coaching, growth and support with the understanding that the professionals have each other's best interest at heart.
 - g. Implementation is systematic and aligned with the district work.
- 5.1.4 **Positive Growth Continuum:** The professional development continuum for teachers depends on systemic support and begins with initial training and collaboratively supported practices, evolves into independently and collegially facilitated growth, and continues throughout the teaching career with ongoing reflection and leadership.
- 5.1.5 **Standards of Effective Instruction (SOEI):**
- a. **Application to All Teachers:** The Minneapolis Standards of Effective Instruction applies to all teachers and assists them as they move through the professional development continuum. (Standards of Effectiveness are available for other professional teaching groups such as School Social Workers, Psychologists, Speech and Language Therapists, etc.)
 - b. **SOEI Applications:** These standards are expected to be used as a guide towards planning and implementing staff/professional development to support teaching quality and student achievement. They are also an effective tool in coaching, mentoring, and teaming as a part of the Professional Development Process (PDP).
 - c. **Initial Development:** During the development of the original Standards of Effective Instruction, a representative group of teachers, principals and administrators reviewed, analyzed and synthesized standards and current research on teaching and standards

from the following national and state organizations: National Board for Professional Teaching Standards (NBPTS), Educational Testing Service (PRAXIS), National and Minnesota Interstate New Assessment and Support Consortium (INTASC).

- d. **Alignment with National and State Standards:** The original Standards of Effective Instruction have now been revised to align with all of the above national standards, as well as, the newly adopted Minnesota State Standards of Effective Practice for Teachers. (MN Rule 8710.2000). This will assist teachers as they work on their PDPs to also be working on relicensure efforts.
- 5.1.6 **Other Professional Standards:** Some education professionals working under the teacher contract (e.g., psychologists, School Social Workers, nurses, speech clinicians, etc.) have professional practice standards specific to their field of licensure. While it is important for these professionals to be aware of and understand the MPS Standards of Effective Teaching, the standards for each specific professional practice should be the guide used for planning, growth, collegial and student support.

INTRODUCTION and GUIDELINES FOR USE

Standards of Effective Instruction

Domains & Rubrics

Purpose and Scope: The Minneapolis Standards of Effective Instruction were designed for the primary purpose of ensuring teaching quality and student achievement. They were developed to align with the National Board for Professional Teaching Standards (NBPTS), Educational Testing Services (PRAXIS), the National and Minnesota Interstate New Assessment and Support Consortium (INTASC) Standards, and the Minnesota State Standards of Effective Practice for Teachers (MN Rule 8710.2000).

Rubrics for Effective Utilization: To enhance the utility of these Standards of Effective Instruction for use in systematic, specific and objective professional development, descriptors of what teachers actually do to implement various Standards, as well as what is actually observed to support students both in and out of the classroom, have been placed in rubric form. These rubrics are designed to determine levels of effectiveness in implementing the Standards. The rubrics have been field tested over the past several years in numerous Minneapolis classrooms by teachers, principals and mentors.

Intended Uses: These Standards of Effective Instruction and rubrics are intended as a tool to assist teachers and teams in reflecting on their practices, in developing specific competencies, and in goal setting for professional development. They are also useful for colleagues, mentors or principals who provide classroom observations and coaching.

The Standards of Effective Instruction and rubrics are intended to be used as a formative tool.

Domains: Broad instructional areas, called Domains, include competencies that are the focus of assessment to identify specific strengths and areas for growth. Multiple sources of information, such as the teacher's self-assessment or observations and coaching by colleagues, can show patterns of professional growth over time. The Standards and rubrics are not intended to be used in their entirety at a single point in time as a summative evaluation tool.

Minneapolis Standards of Effective Instruction

5.3 The Professional Development Continuum - Overview

5.3.1 History and Scope:

- a. **History:** The Minneapolis Federation of Teachers in collaboration with the Minneapolis Public Schools launched its professional continuum journey in 1984 with the start of a teacher mentoring program for first year teachers. The success of this mentoring program led to the design of other programs and services to optimize the quality of teaching throughout the district. In addition, the national report, *A Nation at Risk*, called for raising the quality of teaching through the creation of a true professional model. This professional model has been developed in the district over the years by teachers, principals, administrators, parents, students, business leaders, and community members and is outlined in this article.
- b. **Career-Long Process:** The Professional Development Continuum embodies the best research in educational pedagogy, human development, and effective leadership. It moves teachers through a career-long process of professional inquiry, lifelong learning, continuous quality improvement, and accountability for student results. The continuum begins with pre-service recruitment and training and continues through induction, retention, and recognition. Each step along the continuum builds from one to the next to ensure that all teachers are able to maintain the highest standards of effectiveness throughout their career.

5.3.2 **The Four Components of PAR:** Outlined below are the basic Peer Assistance and Review (PAR) components of the continuum that deal with accountability and ongoing professional growth/improvement. The four main components of the PAR portion of the continuum are:

- **Professional Development Process (PDP)**
- **Achievement of Tenure (A of T)**
- **Guided Professional Development Process**
- **Professional Support Process (PSP)**

Component Descriptions

a. **Professional Development Process (PDP)**

At the heart of the PAR continuum is the Professional Development Process (PDP). All other PAR processes have been built on the beliefs and structure of PDP. PDP is:

1. for all teachers tenured and non-tenured
2. a professional process for teachers' use to assist them in continuous assessment and reflection to improve their instructional skills, knowledge bases and collegial/student interactions
3. a method to show accountability for the learning/achievement of all students
4. both the right and the responsibility of all teachers
5. implemented annually

b. **Achievement of Tenure (A of T)**

1. is for teachers in their first three (3) years of service in Minneapolis Public Schools
2. provides support toward achieving the Standards of Effective Instruction through successful completion of the A of T requirements. These requirements assist teachers in using the reflective skills they will need throughout their career
3. is supported by a District PAR mentor in the first year of teaching

c. **Guided Professional Development Process**

1. provides additional assistance to help teachers improve their practice who are not at the level of needing PSP but require additional support
2. is determined by the District PDP Facilitator and/or District PAR Mentor following a thorough assessment that includes interviews and meetings with the principal(s), team members, and the teacher, as well as, observations of the teacher
3. is guided by the District PDP Facilitator and/or District PAR Mentor but is the responsibility of the teacher on the Guided PDP and the PDP team (which includes the principal) to implement as agreed upon

d. **Professional Support Process (PSP)**

1. provides more in depth support and mentoring for teachers whose performance does not meet expected Standards of Effective Instruction and who have not successfully done so through the PDP and/or Guided PDP
2. is determined by a District PAR Mentor following a thorough assessment that includes the data from the Guided PDP
3. provides an avenue for teachers to either transition back to PDP or Guided PDP after successful attainment of the PSP goals and strategies
4. provides a professional and fair method for teachers who need to transition out of teaching or their position once it is determined that the teacher is unwilling or unable to meet the Standards of Effective Instruction and the PSP goals and strategies
5. provides career options counseling with a District mentor to assist with the transition of moving out of the job/district

5.3.3 **Multiple Sites**

a. **A of T Teachers Participating in PDP at Multiple Sites:** When a teacher is assigned to more than one site, the administrator for each site will be notified by the District PAR mentor, if assigned. The teacher, District mentor, PDP coordinator and administrators

together determine which site will provide the primary A of T Process service and the role of the other sites to support the teacher. A current A of T plan will be on file at each site. The purpose of notifying each site is to provide more comprehensive support for the teacher.

- b. **Teachers Participating in PDP at Multiple Sites:** When a teacher is assigned to multiple sites, the teacher will elect which site will host their PDP. The teacher will notify the PDP Coordinator at each of their sites as to which site they will conduct the Professional Development Process and give each site's PDP Coordinator copies of the PDP plan and progress reports to assist in the coordination of support.
- c. **Teachers Participating in PSP at Multiple Sites:** When a teacher on a PSP is assigned to more than one site, the administrator for each site will be notified by the District PAR mentor. The teacher, District PAR mentor, and the administrators together will determine which site(s) will provide the primary services and the role of the other sites to support the teacher. The purpose of notifying each site is to provide more comprehensive support for the teacher.

5.4 The Professional Development Process: The Heart of the Continuum

- 5.4.1 **Why PDP?** Student growth and success is at the heart of all teaching and learning. Keeping that heart alive and well requires time for staff, exceptionally hard work, the unwavering commitment of all involved, and ongoing professional development. While time, hard work and commitment are necessary, it is through ongoing professional development that teaching knowledge and skills are continuously improved and/or changed in order to meet the needs of an ever-changing and complex student population. Supporting all students to accomplish the goal of the highest performance possible requires a high performance work place dedicated to professional excellence and ongoing development. Minneapolis Public Schools and the Minneapolis Federation of Teachers aspire to achieve this vision through the creation, implementation, and enculturation of the Professional Development Process (PDP).
- 5.4.2 **Opportunity for Continuous Improvement:** The Professional Development Process (PDP) is both the right and responsibility of each professional. PDP recognizes the importance of all professionals in the successful education of all students. Whether you are classroom teacher, support specialist, School Social Worker, psychologist, counselor, speech/language therapist, OT/PT, licensed school nurse, TOSA, SNOSA, SWOSA, administrative intern, or District Program Coordinator, PDP provides an opportunity to work together as we focus on student success. PDP promotes high expectations and standards for teaching and learning that are rooted in current research and best practices. It is designed to help all educators assess and improve their instructional skills, their knowledge base, their collegial and family/community interactions, and their daily impact on student learning. Ultimately, PDP is designed to assist all professionals in continuously improving so they can support the achievement and success of all students.
- 5.4.3 **A Climate of Support:** The PDP encourages collegial planning, assessment, analysis, and reflection. While teachers play a valuable role in assessing their own skills and the needs of the students, PDP also acknowledges that peers are valuable support in trying to establish and maintain professional goals and strategies. Designing and implementing the PDP becomes both an individual, team and school effort.

In order for PDP to be successful, it must take place in a professional culture of trust, respect, and constructive support. Coaching and teaming are essential components as professionals reflect on their efforts with themselves, their students, and each other. The whole process encourages productive dialogue and action among staff, students, administrators, families, and the community. Most importantly, it promotes professional growth centered on students' needs and opportunities.

- 5.4.4 **Alignment with Established Standards:** Professional development and support are key components of the District's work. PDP is aligned with the Strategic Plan, the School Improvement Process (SIP), and staff development in philosophy, training, and forms. It uses the Minnesota State Standards, Professional Job Descriptions, and the Standards of Effective Instruction (or equivalent) as its foundation.
- 5.4.5 **Mission:** The mission of the PDP is to:
- Improve student results/achievement
 - Improve instruction for all students
 - Promote collegial and professional growth
- 5.4.6 **Goals:** The PDP goals are to:
- organize efforts around the real work of a site/classroom
 - increase professional peer interaction and involvement
 - improve communication and collaboration among professionals
 - include means for student and parent participation and feedback
 - be flexible and responsive to teaching and learning
 - be multicultural/gender fair/ability fair/developmentally appropriate
 - incorporate options, choices for professional growth
 - increase inclusive leadership
 - provide incentives, rewards, recognition
 - create and maintain an environment supportive of reflection, change, and trust
 - be research-based, action-oriented
 - incorporate site-based management/shared decision-making
 - be honest, open, constructive, helpful, direct, and respectful
- 5.4.7 **State Legislation:** As of July 1995, Minnesota State Law (§122A.41) on Peer Review requires all Minnesota school districts to develop and use a peer review process. In Minneapolis Public Schools, the Professional Development Process (PDP) has been adopted by the Minneapolis Board of Education and the Minneapolis Federation of Teachers to fulfill this state requirement.
- 5.4.8 **How the Professional Development Process Works:**
- a. **Beginning Assessment:** The Professional Development Process (PDP) participant begins by assessing (formally and informally) the needs and achievement levels of students.
 - b. **PDP Plan Development:** Following that, a review is done of the Strategic Plan and School Improvement Plan (SIP), as well as, School Information Reports (SIR), Minnesota State Standards, Office for Civil Rights (OCR), and other multiple data sources. A Professional Development Process Plan is then written based on the findings of the data analysis. The plan also needs to align with the School Improvement Plan (SIP) goals and the curriculum content standards (if applicable). The overall PDP plan should focus on increased student achievement/learning and what the teacher needs to do to make that happen. The PDP plan outlines goals, teacher and student objectives, implementation strategies, indicators of success, and methods of growth, assessment, and reflection.
 - c. **PDP Team:** Next, the PDP participant selects a team of 4-6 people who will serve as critical friends in the yearly process. This team meets regularly, a minimum of three (3) +times a year, (fall, winter and spring) but is encouraged to meet more frequently. The team discusses the plan, assesses progress toward goals, and assists in resourcing, reflecting, and problem solving. (See Section 5.4.12 below regarding the PDP Team)
 - d. Alignment of the PDP goals, as depicted here, is important to achieve full impact of the PDP work.

- e. **Reflective Activities:** Reflective activities to ensure PDP goal attainment are essential to the success of the plan. In between PDP Team meetings, participants engage in a variety of reflective goal attainment activities to assist with inquiry, reflection, and assessment in an effort to promote improved student learning. These activities may include: peer coaching, study groups, action research, student/family surveys, videotaping, observations, journaling, collegial networking and the development of professional portfolios. Data, information, student work, and artifacts used and/or developed during the PDP can be shared at PDP Team meetings to help with discussion of progress and results.
- f. **Focus on Established Professional Expectations:** In conjunction with PDP, the Standards of Effective Instruction, Minnesota State Standards and job descriptions are used to assist and guide professional performance. Participants are asked to assess PDP efforts against professional standards and job descriptions as a way of keeping professional expectations in focus. This reflection may occur in a variety of ways; for example, individually, with the PDP Team, with a coach or mentor, or with a study group.
- g. **Continuous Reflection and Strategic Action:** Results from continuous assessment, both formal and informal, should inform and influence the planning, strategies, and direction of PDP efforts. The entire process is simply asking: What are we doing? Why are we doing it? What's working? What's not working? Why and/or why not? What do we need to do to improve so that student achievement will improve? How will we get there and when?

5.4.9 **Frequency of PDP:**

- a. The Professional Development Process occurs annually. Educators will have a PDP plan and a functioning team in place at all times. A minimum of three meetings takes place during the year (fall, winter, and spring) to discuss the plan and progress. It is important for professional development to be embedded in the everyday functioning of a site/school. The purpose of job-embedded professional development is to make growth and improvement relevant, intentional, hands-on, interactive, meaningful, ever-evolving, and centered on student achievement.

5.4.10 **Annual PDP Timeline:**

- September:** All staff: Review student scores, student work, and other available data. Make observations of students to determine needs, areas of strengths, and future

expectation to help focus PDP goals. Plan when to give, receive, and review family and student surveys.

October: Write PDP plans, preferable in electronic format, and meet with teams to share and discuss. Turn in or electronically transmit PDP plan to site PDP Coordinator. Keep individual signed copy for your file.

November: Site PDP Coordinator, Steward, Staff Development Chair, Site Council Chair, Principal, and others as needed, assess PDP plans to inform site staff development to assist in the implementation of the PDP plans. Begin doing coaching, staff development, study groups, action research, etc., as planned in PDP's and as aligned with School Improvement Plans (SIP) and Staff Development.

Administer the Student Feedback Surveys available through Site PDP Coordinator.

December: Continue working on the implementation of the PDP plans and staff development. Coach, observe, meet in study groups, videotape, work on action research, etc. as outlined in the plan. Tabulate the results from the Student Feedback Surveys for use at the Winter Progress Report meetings.

Jan. & Feb: Winter Progress Report team meetings are held in late January or early February to go over progress to date, to discuss plans and decide whether strategies are working or not. Adjustments are made as needed in the plans and activities. Completed Winter Progress Reports are turned into PDP Coordinator at the site, who then transmits them to the Professional Development Services department. Keep copies on file at school site as well.

March: Continue working on the plans and doing reflective growth activities (coaching, study groups, portfolios, etc.) and collecting evidence of results.

April-May: Administer Student Feedback Surveys if needed, or desired, as determined by teacher or PDP team.

Begin Spring Progress Report process and complete by the end of May. Signed Spring Progress Reports are turned in or electronically transmitted to the Site PDP Coordinator, who will send in or transmit copies of reports to the District PDP Facilitator.

June: All Spring Progress Reports have been delivered to the District PDP Facilitator from the Site PDP Coordinators. Copies of PDP Plans and Progress Reports are kept on file for a period of three years.

Please note: Throughout the entire year, staff may share good ideas and successful results from the PDP work with other staff. This may occur at staff meetings, on staff development days, or in other creative venues.

5.4.11 **Electronic PDP Filing:** While paper copies may be filed, teachers are urged to do their PDP Plans and Progress Reports in electronic format. PDP coordinators will be provided with the materials and training to assist teachers in this transition. PDP coordinators are urged to aggregate individual teachers PDP submissions and transmit them to the Professional Development Facilitator in a single electronic file.

Teachers at Multiple Sites and PDP – See Section 5.3.3 of this article.

5.4.12 **The Professional Development Process (PDP) Team:**

a. **Purpose:** The purpose of PDP Team is to assist in the thinking about, planning of, and reflection upon a PDP Plan. The members of the team serve as trusted, critical friends who coach, discuss, give feedback and suggestions, analyze, and provide support as needed/ requested.

b. **Composition:** The professional selects the team once the PDP Plan is written. The team of 4-6 people meets a minimum of three times during the school year (fall, winter, and spring). A team consists of:

1. the professional
 2. peers/colleagues (teachers, EAs, support staff, etc. with at least some from the same school site)
 3. others as needed and/or desired. This can include, district support staff, business/community members, parents, students, university staff, and/or anyone who can assist in the process.
 4. the principal/supervisor* [*The principal/supervisor is a member of each team but does not need to be present at every team meeting. They should be informed, however, of PDP plans, progress reports, dates of meetings and results, etc. The intention is to be as inclusive and collaborative as possible to ensure student success.
- c. **Team Meetings:** Each teacher conducts her/his own PDP meeting by sharing with the PDP team plans, efforts, and results. The teacher asks for and receives ideas, strategies, etc. from team members. Team members are expected to listen, coach, help the teacher reflect, and suggest/offer resources.
- d. **Value of the Team:** The PDP Team can be of invaluable support. Trust, respect, encouragement, honesty, and active participation provide the critical foundations for successful teaming and growth. Learning from one another is an essential ingredient to increasing professionalism in education.

5.4.13 PDP Planning, Goal Setting, and Strategy Development:

- a. **Importance:** PDP planning is at the core of the Professional Development Process. While teachers continue to work on and grow in many areas simultaneously, the PDP gives focus to a specific area of need/interest. By planning what is to be accomplished, developing support and resources needed, detailing strategies to achieve results, and creating measurement tools to assess progress and results, professionals have a much greater chance of success.
1. **Data Gathering:** Before beginning goal setting, it is important to gather the necessary data and information about the student and teacher needs. This data may include family and student surveys, School Information Report (SIR), and/or other multiple assessments including student work and Office for Civil Rights (OCR) data. It is also important to observe students before setting on a plan of action.
- b. **The PDP Plan:** Once the data is collected the teacher writes a PDP plan. A teacher may write the plan individually and/or work with their team, and/or coach to think through a plan. Team or school wide PDP plans are also an option. Collaborative plans are often beneficial in that they get everyone working together in a focused direction. Each team member is still responsible for writing a plan, even if it is a collectively decided upon plan. Generally, PDP plans that achieve the best results for overall school success and student results are aligned with school improvement goals. When the majority of teachers and support staff at a site focus on common goals, a much greater impact can be achieved. However, teachers must be sure to work on what is of greatest need to improve or expand their own teaching and improve student achievement.
- c. **PDP Goals:** Goals are chosen by each teacher in accordance with their needs and the needs of their students. Ideas, suggestions, and issues may be raised at the teacher's PDP team meeting by team members, but respectfulness and professional coaching should be used.
- d. **Reflective Activities:** In between PDP team meetings, reflective activities that are focused on PDP goal attainment take place. These activities include such things as coaching, staff development, study groups, action research, observing colleagues, assessing a videotaped lesson, journaling on practice, networking with colleagues, creating a professional portfolio, reviewing student work, and coaching. These activities bring PDP to life and strengthen learning and results. PDP is centered on the real work that is already occurring in schools and classrooms and is a process that helps that work become more meaningful and successful.

- e. **Performance Issues - Referral:** If performance issues arise, the PDP Team provides initial support for relevant goal setting and interventions. If additional support is needed for the teacher to achieve the necessary goals and objectives, a member of the PDP team may make a referral to the District PDP Facilitator or PAR District Mentor who can assist teachers, teams, and sites with performance issues.

- b. **Achievement of Tenure – Definition (MN Statute §122A.41):** In the State of Minnesota, tenure is defined as continued service after the completion of three consecutive years of successful teaching. Minneapolis Public Schools and Minneapolis Federation of Teachers believes the key to nurturing this successful teaching is through ongoing professional development experienced over an entire career.
- c. **Designed for Success:** To ensure all non-tenured teachers get a strong start in becoming highly skilled practitioners, the professional contractual Achievement of Tenure has been designed to support the successful achievement of tenure. Research indicates that the effects of well-prepared teachers on student achievement can be stronger than the influences of student background factors such as poverty, language background and ethnicity. (Darling-Hammond 2000).
- d. **Rigorous Standards:** Completion of the Achievement of Tenure involves rigorous, meaningful, and reflective work, which demonstrates that a teacher has achieved high standards for teaching and is ready to become a tenured teacher in the Minneapolis Public Schools. In recognition of the rigor, a District Achievement of Tenure Facilitator (located at PAR Office) is available to support teachers through the tenure process.
- e. **Time Period for Completion:** Probationary teachers must successfully complete this process by the end of their third year in the District. See 5.8 and 5.9 for timeline and responsibilities.
- f. **Team Effort:** The A of T Process is a team-supported induction into the profession and the Minneapolis Public Schools. It is designed to provide teachers new to the District with on-site and District support toward achieving the Standards of Effective Instruction and successful completion of Achievement of Tenure requirements. Teachers work with mentor(s) (if assigned), colleagues, and administrators to identify their A of T team members and to develop, implement, and achieve goals that support professional development to improve student achievement. These goals are to be aligned with the School Improvement Plan, and the Standards of Effective Instruction.

5.5.2 **Who Participates in Achievement of Tenure?**

- a. All teachers new to teaching or new to Minneapolis Public Schools are required to do Achievement of Tenure.
- b. **Guidelines:** The following guidelines will help determine if A of T requirements need to be fulfilled:
 1. **Returning within First Three Years:** Teachers returning to work in Minneapolis Public Schools in the first three years of employment:

Teachers who were released and rehired within the first three years of teaching do not have to start the Achievement of Tenure process over. They may resume where they were before they were released from service. All the A of T requirements still apply as outlined in this article.

2. **Returning within Five Years of A of T Completion:** Teachers returning to work in Minneapolis Public School within five (5) years of completing the A of T requirements and achieving tenure do not need to do the A of T process over.
 - **Longer than Five Years:** However, if it has been longer than five years, a mentor will do an observation and complete an assessment to determine if the returning teacher needs to do the A of T requirements again.
3. **Tenured Elsewhere:** Teachers tenured elsewhere and new to Minneapolis Public Schools: Teachers who worked in other school districts and are tenured will have an assessment and observation completed by a district mentor to determine if the teacher will need to complete the A of T requirements.
4. **Returning Retired MPS Teachers:** Retired Minneapolis teachers returning to work in Minneapolis Schools: Achievement of Tenure requirements are not required.

5.5.3 Professional Development Components of Achievement of Tenure:

- a. Teachers during their first year of employment within the Minneapolis Public School District are required to attend the New Teacher Orientation in August.
- b. Teachers hired after the New Teacher Orientation shall attend the New Teacher Orientation held in August in the beginning of their second year.
- c. Teachers during their first three years of employment in Minneapolis Public Schools are required to participate in the following staff development experiences:
 - New Teacher Orientation (first year);
At least twenty hours (20) of staff development of their choosing in support of Achievement of Tenure professional development goals over the three year probationary period.
 - Sites will provide the equivalent of two days without loss of pay to probationary teachers for the purpose of observing classrooms of identified demonstration teachers. Teacher will be accompanied by a mentor or other A of T team member(s) during this observation.
 - To be eligible for the Achievement of Tenure bonus, the new teacher must complete Peer Coaching (16 hours) and a PAR-approved behavior/classroom management training.

Teachers must also complete the remaining Achievement of Tenure requirements:

5.5.4 Steps in the A of T Process for Teachers New to the District:

- a. Meet with Mentor, site and/or or District staff to learn intent and details of A of T Process. This session will include:
 - Explanation of the A of T Professional Development Process (PDP) that is based on student achievement and teacher professional development needs aligned with the School Improvement Plan (SIP), the Standards of Effective Instruction, respective job descriptions, and the Minnesota Code of Ethics and Standard of Professional Ethics found in Section 5.2 of this article.
 - Reviewing the requirements for A of T and developing a personal timeline for completion of tenure requirements.
 - Developing a professional portfolio as a tool for growth and for documenting progress.
- b. Meet with mentor, if assigned, or site colleague to identify PDP team members, and to formulate a PDP plan.
- c. Meet with A of T PDP team to discuss plan. Plan will include:
 - Goals, objectives, and strategies
 - Goal attainment activities (coaching, action research, etc.)
 - Indicators of achievement of goals.
 - A timeline for the year that includes dates for Progress Report meetings and formal observation(s) as part of the Achievement of Tenure Process.

- d. Date and sign a copy of the plan and turn it in to the school's Professional Development Coordinator for retention at the site. The teacher should include a copy of their plan in their Professional Portfolio. The PDP Coordinator will send paper or electronic copies of the Achievement of Tenure PDP Plans and Progress Reports to Professional Development Services at assigned times.
- e. Participate in periodic meetings with A of T team to review and document progress toward goals, Standards of Effective Instruction and Achievement of Tenure. The Team will review progress towards development of the professional portfolio.
Participate in the required observation process (refer to Achievement of Tenure Suggested Pacing Schedule)
- f. First year Probationary teacher performance assessment and decision-making resides collaboratively with the A of T PDP team, which includes the mentor (if assigned), colleagues and the principal. At the end of each probationary year, the team will assess progress based on multiple indicators including observations by team members and plan next steps for the following year. The A of T PDP team will make one of the following determinations:
 - For teachers in **Year 1 or 2** - continue working toward Achievement of Tenure in the following year (for teachers making satisfactory progress toward Achievement of Tenure);
 - For teachers in **Year 2 or 3** - continue working toward Achievement of Tenure with the support of an assigned mentor or other identified resources (for teachers who need continued or added support);
 - For teachers in **Year 3** who have successfully completed all the A of T requirements by the end of the probationary period - move to PDP in Year 4 as a tenured teacher.
 - For any teacher in **Year 1, 2, or 3** – who has not made satisfactory progress, and who has received support from an assigned mentor for a minimum of three months, a referral will be made to Human Resources with the recommendation to discontinue employment.

NOTE: A referral to a Professional Support mentor may be made at any time during the first three years for career options counseling. Teachers may also access Employee Assistance Program (EAP) for support.

5.5.5 **Where to Send A of T Forms**

- a. The administrator will forward the Probationary Teacher Summary Reports reflecting the determination of the team to the Division of Human Resources at the end of the first, second and third years of employment.
- b. A of T PDPs are handled the same as other staff PDPs. They are collected at the appropriate times (fall, winter, spring) and turned in to the District PDP Facilitator at the times designated.
- c. The site PDP Coordinator will forward the Achievement of Tenure Notification form to the District PDP Facilitator for processing.
- d. Site PDP Coordinators are to assist new teachers in the A of T process as outlined in the Site PDP Coordinators Job Description in this article.

(Teachers at Multiple Sites and A of T – See Section 5.3.3 of this article.)

5.5.6 **Financial Support for Tenure Candidates**

The district will allocate a Probationary Teacher Financial Support Package for each teacher new to the District. This package will cover the following:

- a. **Twenty hours of portfolio development:** Probationary teachers working toward tenure will be granted 20 (twenty) Continuing Education Units (CEUs) for the development of the A of T portfolio. These CEUs may be used for relicensure purposes.

- b. **Peer coaching class participation:** The cost for the District Peer Coaching class (maximum 16 hours), attended outside of the teacher duty day, will be paid from site staff development funds. Sixteen (16) CEUs will be given to each participant upon completion of the course. These CEUs may be used for relicensure purposes.

(Teachers at Multiple Sites on a Guided PDP – See Section 5.3.3 of this article.)

5.7 Professional Support Process (PSP):

5.7.1 Definition: The Professional Support Process (PSP) is a confidential process that provides support for employees who are experiencing challenges that require expanded collegial assistance after efforts have been made to support the teacher at the site through a PDP or Guided PDP.

- a. **Request for Assessment:** The teacher or any member of the PDP Team or Guided PDP Team may request a teacher be assessed for PSP after a discussion with the teacher and the team. This is done by contacting the PAR Program Office and speaking with the lead

mentor. During an intake process, the mentor will establish efforts to support at the site to determine whether an assessment for PSP is appropriate. PSP is initiated when a PAR mentor, after meeting with the teacher's PDP Team/ or Guided PDP team, determines the need to assure additional support for the teachers (as defined by MN Statute §179.A.03, Subd. 18) to achieve the necessary goals and objectives.

- b. **Professionalism and Confidentiality:** Professional ethics, respect, and the Government Data Practices Act will govern information and the team process. Members of PSP teams agree to keep confidentiality, be active members of the team, and participate in making a decision at the end of the process (see 5.5 for a description of the process for teachers new to the District.)
- c. **Reasons for PSP:** The teacher may enter the Professional Support Process for a variety of reasons. This process may be appropriate and beneficial to a teacher who:
 1. is performing effectively in most areas of job responsibility, but may need some targeted assistance in one or more specific areas.
 2. has a history of effective job performance, but is currently experiencing circumstances that, for a variety of possible reasons, challenge job performance.
 3. needs more comprehensive collegial involvement.
 4. is working in a new or different position and is experiencing a challenging and difficult transition.
 5. is experiencing difficulty meeting the professional responsibilities of the Job Description, Code of Ethics, the Standards of Effective Instruction, and overall performance requirements.
- d. **Time Period:** The Professional Support Process will extend for *up to nine months*. If the PSP team believes that a shorter timeline is appropriate, the PAR Mentor may make *an earlier referral* to the PAR Panel on behalf of the team.
- e. **Support Strategies:** During the Professional Support Process, extensive support is provided to the teacher through a variety of strategies. This support may include peer coaching, mentoring, scheduled and unscheduled observations, study groups, videotaping, modeling, discussion groups, demonstration teaching, professional portfolio, action research, journaling, collaboration, teaming and/or any other strategies that prove to be helpful.
- f. **Number of Meetings:** At least four team meetings should occur during the PSP timeline: (a) an initial planning meeting and (b) a minimum of three progress report team meetings. It is recommended that additional support meetings occur as needed. Sufficient time should elapse between meetings in order to provide adequate support for growth and change. Decisions regarding next steps will be made at a progress report team meeting.
- g. **Successful Completion:** When the teacher successfully accomplishes the goal(s) outlined in the PSP and no other concerns exist, the teacher returns to the PDP or Guided PDP. It may also be that the teacher has successfully reached the PSP goal, but another area of concern may exist. If needed, PSP may continue with additional and/or revised goals, strategies, and timelines.
- h. **Inadequate Progress:** When the teacher does not meet the PSP goal(s), the PSP team determines the next steps. If an extension of the timeline with additional support and adjusted strategies will be of benefit, this should be planned. If, however, the teacher has been unable or unwilling to improve and is not meeting the job description responsibilities, Code of Ethics, or the Standards of Effective Instruction, the next course of action must be determined. With a change of sites, the PSP continues in the new site, with possible revisions of the PSP Plan.

5.7.2 **The Professional Support Process (PSP) will include the following steps:**

Step 1: PSP Team Development: A PSP team is developed by the PAR mentor with input from the teacher and site administrator, according to the specific growth needs of the teacher entering service.

Development of the PSP team: The PSP team meets with the teacher to agree upon the implementation of a support plan for the teacher. The teacher's team consists of the following core participants:

- a. the principal/site administrator,
- b. one or more member(s) of the PDP team, or other building colleagues, as appropriate, and,
- c. the District PAR mentor.

This core team through consensus or majority may include other teachers and/or resource people.

Step 2: **Professional Support Plan:** Development of a Professional Support Plan: The PSP team writes a support plan that includes a goal(s) for the teacher that focuses on the area(s) in need of improvement. Reasonable strategies, resources, and timelines are established within the plan. These may be modified based on identified needs.

Step 3: **Plan Implementation:** Implementation of the Professional Support Plan: The PSP team implements the plan. A variety of options are utilized during the PSP implementation to assist the teacher. Some of these options may be: peer coaching, mentoring, scheduled and unscheduled observations, study groups, videotaping, modeling of lessons by the mentor or another staff member, discussion groups, demonstration teaching, professional portfolio, action research, journaling, co-planning and teaming, feedback from students and/or parents, and/or any other strategies that prove to be helpful.

Step 4: **PSP Progress Determination:** According to the timeline specified in the PSP plan, the PSP team has regular Progress Report meetings to assess and discuss the possible growth and improvement occurring or to determine the lack of improvement. At the end of the pre-determined timeline, the PSP team decides, based on the extent of growth/achievement toward PSP goals, whether the teacher has made sufficient progress to:

- a. return to the Professional Development Process (PDP)
- b. return to a Guided PDP,
- c. continue with Professional Support (PSP), or,
- d. be referred to the PAR Panel for status determination.

5.7.3 **Career Options:** Career Options discussions can occur anytime during the process. See Section 5.8 of this Article.

5.7.4 **Ethical, Legal, or Unprofessional Concerns:** In circumstances or instances in which there may be issues or patterns which are ethically or behaviorally unprofessional, or legal concerns that may not be appropriate for referral to the PSP process, the principal will consult with the Director of Labor Relations to determine the appropriate course of action.

5.7.5 **Teacher Transfers on PSP.** When a teacher in the Professional Support Process wishes to transfer to another site, the teacher discusses this with the PAR Mentor. If a transfer occurs, the receiving principal/site administrator, the District mentor, and the teacher will have a discussion regarding the appropriateness of the PSP plan for the subsequent school year. Given the new job description and site, the mentor will determine whether continued support appears appropriate. If support in the new assignment appears appropriate, the mentor will complete an assessment of needs for success, work with the teacher and the administrator to revise the PSP plan, and develop a PSP team with input from the teacher and the administrator. Otherwise, the teacher will return to the PDP process.

- 5.7.6 **PAR Panel for PSP.** In the event that the Achievement of Tenure or PSP Team does not reach consensus on the decision to continue to provide support for the teacher through A of T, or PSP, the recommendation(s) are referred to the PAR Panel.

Composition: The Peer Assistance and Review Panel (PAR Panel) will be comprised of members from the Joint Labor-Management Peer Assistance and Review Committee (PAR Committee) as follows:

- two teachers on the PAR Committee,
- one principal on the PAR Committee,
- one Labor Relations administrator on the PAR Committee, and
- a District PAR mentor not involved with the teacher's A of T or PSP Team.
- A Minnesota Bureau of Mediation Services representative will facilitate the PAR Panel. The PAR Panel will determine the status of the teacher through consensus, if possible, or a majority vote, if necessary.

(Teachers on a PSP, see Article 15 regarding excessing rights during canvassing and see Article 7 regarding withholding of step until return to PDP/GPDP. Teachers at Multiple Sites on a PSP should also see Section 5.3.3 of this article)

5.7.7 **District Student and Family Feedback Surveys:**

- e. **Selection of Resident Coordinators and Resident Mentors:**
 1. **Staffing Requirements:** Each site/program will have a Resident Coordinator (with a minimum 0.2 exclusive release) and enough Resident Mentors in the building/program who are released to support the resident teachers at the site or within the program.
 2. **Application:** All staff who have the qualifications outlined in the job posting will be given the opportunity to apply for these positions; therefore, written solicitation for applicants will be distributed to all staff.
 3. **Resident Mentor:**
 - a) **Qualifications:** Qualifications for resident mentors include tenure in Minneapolis Public Schools and at least five years of experience, evidence of successful

completion of cognitive/peer coaching, and a commitment to successful completion of Pathwise™ and other required trainings.

b) Applicants must demonstrate:

- Engagement with the district's Professional Development Process as evidenced through submission of current PDP Portfolio Development;
- Effective collegial coaching skills (may be evidenced by letters of support by colleagues who have been formally or informally mentored);
- Experience as a reflective practitioner (may be evidenced by PDP work, National Board Certification, or other artifacts);
- Evidence of effective teaching practice (may be evidenced by progress towards National Board Certification, assessment against the Standards of Effective Instruction, etc.);
- Understanding of both the mentoring process and the professional development needs of new teachers (may be evidenced by written statements, interview questions, responses to questionnaires, etc.).

4. **Resident Coordinator:**

a) **Qualifications:** Qualification for resident coordinators include evidence of teacher leadership, successful completion of cognitive or peer coaching, a commitment to successful completion of Pathwise™ and other required trainings, and an interest in working beyond the building/program with representatives of the district, the Minneapolis Federation of Teachers, and higher educational institutions.

b) Applicants must demonstrate leadership through the following:

5. **Application and Interview:** Applicants will apply in writing to the principal or designee. To select the best candidate(s) for the position(s), the site/program will hold interviews by a committee composed of the Resident Coordinator, other representatives of the teaching staff at the site/program, the administrator/designee, Division of Human Resources and/or PAR representatives as appropriate.

f. **Assessment and Approval of a Resident Teacher Site/Program:**

1. **Application:** New sites/programs interested in becoming a resident teacher site/program will submit a Residency Site Application in early March. This will be reviewed by at least two review teams comprised of members of the Teacher Development Council who will make a recommendation as to the site's/program's

status as a residency site/program for the following year. This recommendation is taken to the Teacher Development Council to make a final decision. Schools/Programs are notified in late March of the decision. Late applications will not be considered.

2. **Self-Study:**

- a) **First Three Years:** In an effort to ensure that quality residency programs that meet District standards are in place throughout the District, all approved new resident teacher sites/programs will complete a self-study in the fall of each year for the first three years that they participate in the program.
- b) **Four or More Years:** Sites/programs with an established residency of four or more years will complete a self-study once every three years unless requested to do so earlier by the Teacher Development Council. This self-study must be submitted in December. It will be reviewed by a Residency Site/Program Assessment Team who will make a site/program visit in January or February to either recommend the residency site/program for the following year or provide feedback about areas which need improvement prior to recommendation for continuation.
- c) **Residency Site/Program Team:** The Residency Site/Program Assessment Teams will be comprised of members from the Teacher Development Council and/or their designees. The Team's recommendations are taken to the Teacher Development Council to make a final decision.

g. **Hiring of Successful Residents:**

1. **Assessment and Recommendation:** Resident Teachers are given preferential hiring upon completion of a successful residency. The decision to recommend a resident teacher is carried out through the Achievement of Tenure Process each spring. The site Achievement of Tenure Team determines whether the resident teacher has successfully completed the first-year requirements of the MPS Achievement of Tenure Process.
 2. **Salary Placement and Seniority:** As MN Statute §122A.68 Subd.2 states that the resident year should be considered as a first year placement, resident teachers will be recommended for continued employment as a second-year teacher on the salary schedule with seniority number based on the initial contract signed during the residency year.
 3. **Expectations:** The residency induction program continues to prepare exceptionally well-prepared first year teachers. The rigor of the induction program requires that resident teachers not only meet year-one Achievement of Tenure requirements, but also a professional development process that requires a second Pathwise™ assessment, continued observation within the context of expanded and varied teaching experiences, guided supervision by the site/program coordinator as well as a personal mentor, and development of a professional portfolio.
 4. **Funding:** Each residency site/program is expected to be responsible for paying for the resident teacher program as well as ensuring all of the before mentioned expectations.
 5. **Site Placement:** If the resident teacher is recommended for hire and if there are teaching positions available in the building where the resident is housed, a resident teacher will be considered for hire in the building as any other teacher within the same department or license area would be. If no teaching position is available at the residency site/program, the resident teacher is allowed to compete for teaching positions within the district on equal footing with other excessed first-year teachers.
- h. **Expansion of the Residency Model:** The Resident Teacher Program has shown that resident teachers are more thoroughly prepared for teaching in the District as a result of beginning their career in a structured induction program. The Resident Teacher Program

has had an equally positive impact on the professional development of veteran teachers in the schools where it exists and on the maintenance and continued support of a more scholarly teaching environment among the faculty. In the belief that all first-year teachers, as well as experienced teachers working with residents benefit from this experience, the District and the Union encourage all sites to develop residency programs especially in high need areas that may lead to requiring a year of residency for all new hires. The requirement of a year of residency is contingent upon the supportive agreements and understandings among the MFT, its members, and the District in the areas of funding residency sites/programs and hiring of residents.

5.12 Professional Development Centers:

- 5.12.1 **Description:** Professional Development Centers (PDC) are a collaborative effort of school sites, Minneapolis Public Schools, Minneapolis Federation of Teachers and Teaching and Learning to promote teacher quality and enhance student achievement. Professional Development Centers will be located in school sites and may serve individual sites or a cluster of sites. The purpose of Professional Development Centers is to promote continuous, site-based, job-embedded professional development that supports/enriches the skills of staff, parents, students, and the school community. They provide a forum for reflecting on educational reforms, teaching practice, student needs, and family/community involvement.
- 5.12.2 **Climate of Support:** Professional Development Centers support the Professional Development Process (PDP) by promoting collegiality, trust, collaboration, and time for learning and reflection. They are places where educational staff find support for acquiring new skills and/or improving existing instructional strategies based on best practices reflected in the Minneapolis Standards of Effective Instruction. The centers also engage educational staff in the development of relevant curriculum and materials that support student

achievement in a standards-based teaching and learning environment. This allows teachers to select experiences that either build awareness of and/or competency in a subject area(s).

5.12.3 **Objectives:** Objectives of the Professional Development Centers:

- a. Promote the development of professional learning communities among all stakeholders at sites and throughout the district.
- b. Analyze and use student data to focus the efforts of the PDC in providing meaningful professional development.
- c. Focus and organize the diverse initiatives and directives that schools must address by working collaborating and cooperatively with others at the site such as the PDP coordinator, staff development team, administrator, etc.
- d. Align the efforts of the center with the Strategic Plan, the School Improvement Process (SIP), the Professional Development Process (PDP), and the Individual Learning Plans (ILP), Individual Education Plans (IEP), and the Minneapolis Standards of Effective Instruction.
- e. Heighten professionalism by fostering and maintaining networks where colleagues can explore and exchange teaching ideas, create and improve materials, and collaboratively determine how to improve the school as a workplace.
- f. Provide access to research relevant to professional needs and assist in transforming the research into practice.
- g. Encourage research and development of professional practices and their context in order to maintain high professional standards.
- h. Assist in creating learning environments that support better student learning and achievement.
- i. Update, expand, enrich, and refine content knowledge and the instructional skills necessary to teach that content.
- j. Inform staff of district-wide initiatives, policies, and programs.
- k. Support risk-taking, teacher leadership, and accountability.
- l. Be accountable for documenting the link between high quality professional development and student achievement
- m. Model and implement the National Staff Development Council (NSDC) Standards for Staff Development.

5.12.4 **Key Features**

Professional Development Centers (PDC) share common characteristics.

They have:

- n. **Professional Development Team:** A Professional Development Team that organizes and coordinates the on-site professional development activities the Professional Development Center.
- o. **Scheduled Time:** Scheduled time allowing for professional development to occur within the school context throughout the site, e.g., study groups, coaching sessions, action research projects, observations, demonstration teaching by Distinguished Teachers , mentoring, in-services, and so forth.
- p. **Organized Activities:** A variety of educational activities that are organized by the PDC team.
- q. **Literature and Media:** Books, journals, videos, and technology available for personal and professional growth.
- r. **Focused Resources:** Materials and resources on effective teaching practices that meet the needs of all students, e.g., English Second Language Learners/Bilingual Education, Special Education, Gifted Education, Cultural Competency, etc.
- s. **Technology:** Technology resources for use by the learning community (computers, video cameras, TV, telephone).
- t. **Centralized Location:** A central location where learning community may meet to learn about educational best practices, plan the implementation of those practices, and assess the results of the implementation.

- u. **Supportive Administration:** Administration that is supportive of the Professional Development Center Model

5.12.5 **Professional Development Center Teams.**

- a. **Composition:** Professional Development Center teams should consist of trained and knowledgeable mentors, distinguished teachers, curriculum specialists, master teachers, and staff developers.
- b. **Professional Development Center Coordinator:** PDC site coordination and continuity is a key factor for the success and growth of existing and future centers. Therefore, each site should have a PDC team, which includes a full time on-site Professional Development Center Coordinator. As each District Professional Development Center is established, a site PDC Coordinator will be selected through a process developed and implemented by PAR. The site and the PDC Steering Committee will be involved in the selection process for the Professional Development Center Coordinator. The PDC team will coordinate and collaborate with the Professional Development Process Coordinator, Staff Development Chair, and others involved in staff development.

5.12.6 **District Professional Development Center Steering Committee.** The PDC Steering Committee is a representative labor-management committee established by PAR whose role it is to support the development of Professional Development Centers. The committee representatives include one or two PDC team members from each PDC site. The committee meets on a regular basis to receive reports from the centers, discuss ideas to support the school staff and students, participate in training designed to create a professional learning community, make decisions regarding relevant issues. The District Professional Development Center Coordinator is responsible for coordinating the committee efforts and meetings.

5.12.7 **District Professional Development Center Facilitator.** The District Professional Development Center Facilitator supports and promotes the development, implementation and assessment of Minneapolis Professional Development Centers and on-site staff development as guided by the District Professional Development Center Steering Committee. The District PDC Steering Committee establishes the process for selection of the facilitator. The PDC facilitator works collaboratively at the PDC sites to help achieve goals that are aligned with the Strategic Direction for staff development and National Staff Development Council Standards. The PDC facilitator promotes, implements and develops results-based staff/professional development opportunities for the PDC sites, staff and steering committee based on identified needs.

5.12.8 **Accountability**

- a. **High Need Sites:** Sites identified as high need as determined by multiple indicators will become Professional Development Centers and be supported, through PAR Services.
- b. **Additional Sites:** The application process for additional sites that wish to establish a Professional Development Center will be established through PAR Services. Qualifying sites will be asked to respond to questions related to such areas as:
 - The process regarding the decision to become a PDC site
 - Instructional leadership support systems
 - Staff/professional development needs
 - Student performance
 - Professional Development Process
 - Administrator and teacher leadership at the site
 - Adequate space and equipment/materials
 - Other

5.13 National Board For Professional Teaching Standards (NBPTS)

- 5.13.1 **MPS Belief:** The Minneapolis Public Schools acknowledges that professional staff who acquire a National Board Certificate, (NBC) from the National Board for Professional Teaching Standards (NBPTS) will enhance the quality of the district's teaching force. Teachers who wish to acquire National Board Certification (NBC) are encouraged, supported, and rewarded for doing so.
- 5.13.2 **NBPTS Core Propositions:** Accomplished teachers are expected to reflect the NBPTS core propositions in their teaching. The foundation for National Board Certification (NBC) is based on the five core propositions that first appear in the National Board's policy statement, *What Teachers Should Know and Be Able to Do*. These propositions define the knowledge, skills, dispositions and commitments that distinguish accomplished teachers:
- Teachers are committed to students and their learning.
 - Teachers know the subjects they teach and how to teach them.
 - Teachers are responsible for managing and monitoring student learning.
 - Teachers think systematically about their practice and learn from experience.
 - Teachers are members of learning communities.
- 5.13.3 **Eligibility:** To be eligible to apply to become a National Board Certified teacher, a teacher must meet the following NBPTS requirements:
- Have taught a minimum of three (3) years,
 - Hold a baccalaureate degree, and
 - Hold a valid state teaching license.
- 5.13.4 **National Board Certificates (NBC):**
- Certificates Available:** NBPTS currently has 23 certificate areas available. Based on the five core propositions, advanced standards are being set in additional certificate fields. National Board Certification recognizes accomplished teaching throughout the United States.
 - Renewal:** National Board Certification is valid for a period of ten years and may be renewed. This renewal process should begin, if desired, a year or two before the first certificate expires to avoid a gap in certification.
- 5.13.5 **Support of Candidates Pursuing NBPTS:**
- Fees:** The application fee of the certification process is approximately \$2,300 (More information can be found at: www.nbpts.org). To assist teachers in meeting the cost of this fee, the district will provide \$850 towards the initial application fee. A grant may also be available for those teachers who have taught five (5) years or more. Low interest loans are also available for teachers who wish to borrow the money to pay for the National Board application fee. In addition, sites may elect to support candidates in this process.
 - Sabbatical Allowance:** Teachers pursuing NBC will be allowed up to five (5) days NBPTS Sabbatical for the purposes of meeting the National Board candidacy requirements. Sites may choose to augment this with site staff development dollars to allow the candidate additional days.
 - Support:** Support groups and professional development seminars are available to provide support and assistance to National Board candidates as they participate in the portfolio and assessment process.
 - Lane Advancement:** Any Minneapolis Public School professionally licensed teacher who achieves the National Board for Professional Teacher Standards' (NBPTS) National Board Certification (NBC) will advance one (1) lane on the teacher salary schedule.
 - Board Certified Positions:** A National Board Certified teacher may apply each year to serve as a demonstration teacher, NBPTS coach, and/or NBPTS staff developer. The

NBPTS teacher would then be eligible for a \$1,000 stipend. Additional information about National Board Certification may be obtained by calling Professional Development Services.

- 5.13.6 **PDP:** During the period of time when a teacher is working towards National Board Certification (NBC), the teacher may use this effort as the goal of the teacher's Professional Development Process plan and teaming efforts upon submission of documentation to PDP Site Coordinator.

5.14 Professional Career Continuum:

5.14.1 **Opportunities for Learning and Professional Growth:** The Minneapolis Public Schools (MPS) and the Minneapolis Federation of Teachers are committed to improving the profession of teaching to ensure that all students experience and achieve a quality education. Research shows that teachers' learning positively impacts student achievement. Improving the teaching profession requires that teachers have opportunities for on-going professional growth, involvement in the decision-sharing process, increased responsibilities and accountability, and time for open communication, collaboration, and reflection. By implementing systemic educational improvement and reform, teachers will be assuming greater responsibility for the success of these efforts. Accordingly, teachers should be given opportunities to develop these professional and leadership skills. The MPS Professional Career Continuum provides these needed opportunities, as well as incentives that attract new teachers and motivate quality teachers to stay in the profession.

5.14.2 **Categories:** There are currently twenty-one categories in the Professional Career Continuum. Teachers may be classified in more than one category concurrently.

A.	Future Teacher	L.	Teacher Mentors
B.	Student Teacher	M.	Site Teacher on Special Assignment
C.	Intern Teacher	N.	District Teacher on Special Assignment
D.	Resident Teacher	O.	Distinguished Teacher
E.	Probationary Teacher	P.	National Board Certified Teacher
F.	Professional Tenured Teacher	Q.	Teacher Emeritus
G.	Cooperating/Supervising Teacher	R.	Administrative Intern
H.	Student Teacher Coordinator	S.	District Program Facilitator
I.	Demonstration Teacher	T.	Master Teacher

Through this commitment, the District and Union will work diligently to increase the number and diversity of the teaching staff to be more reflective of the student population. The District and the Union have collaborated with other teacher education partners to establish a multitude of teacher development programs. In addition, students and employees completing these programs will have preference in hiring.

- B. **Student Teacher:** Minneapolis Public Schools provides a wide range of programs, diverse urban schools, and the support of skilled professional practitioners for pre-student and student teachers participating in approved teacher preparation programs from contracting institutions. This pre-service experience is designed to develop, practice, and hone teaching skills; learn how to build relationships with students and families, and to broaden the repertoire of instructional strategies. Student teacher placements shall be assigned through the auspices of the Teacher Development Council and consistent with the five induction models.
- C. **Intern Teacher:** An Intern Teacher is currently enrolled in a graduate program and shall be employed under a contract negotiated between the School Board and the Intern teacher's graduate school and is a part of the Professional Practice School team.
- D. **Resident Teacher:** A resident teacher engages in a voluntary step between student teaching and full-time teaching. Newly licensed teachers who have already completed their student teaching apply and are selected as residents. Resident Teachers are supported by the Minneapolis Federation of Teachers, the Minneapolis Public Schools, and the Professional Educator Licensing and Standards Board (PELSB) in collaboration with teacher education institutions, and engage in a high quality, intensive, on-site induction process.

A Resident Teacher is hired within the scope of MN Statute §122A.68, Subd. 2, licensed, and teaches at a site or program that has established a teacher development program in collaboration with a teacher education institution. They do not replace any current teachers. A resident teacher is a first-year teacher who has received an initial Minnesota teaching license no more than two (2) years prior to applying for a residency and who has fewer than nine (9) months of full-time equivalency teaching experience as a licensed teacher. Exceptions may be considered in consultation with the district for candidates in high need areas who are participating in approved alternative license programs and/or individuals on track to obtain their license during the resident year. Exceptions will be made on a case-by-case basis.

Under this provision, the Resident Teacher assignment consists of up to 80 percent teaching time that includes preparation time and 20 percent job-embedded professional development. This professional development time is non-instructional time reserved for the resident teacher to work with the resident mentor, resident coordinator, the New Teacher PSP team, and other staff and residents to improve practice.

Resident Teachers are required to use the program to:

- develop self-directed goals to improve instruction and/or classroom management through the Achievement of Tenure Process for New Teachers;
- implement the various reflective activities of the professional development processes such as peer coaching action research, study groups, portfolio development and student feedback. participate in the mentor/mentee relationship as a pro-active and interactive partnership used to guide the resident teacher through professional growth experiences, e.g., to problem-solve issues and to accept constructive feedback in a confidential setting.
- demonstrate that learning is on-going, life-long and that even with experience, teachers must continue to reflect, analyze and improve how they teach;
- engage in the collegial education community to help with their own efforts to improve student success;
- articulate their teaching philosophy, and demonstrate methods consistent with the Standards of Effective Instruction.

A residency program emphasizes professionalism among the staff.

- E. **Probationary Teacher.** A Probationary Teacher is a non-tenured teacher who is within the first three consecutive years of employment by the District. (MN Statute §122A.41) Resident Teachers have this career continuum designation also (See MN Statute §122A.68). It is the responsibility of the probationary teacher to fulfill the requirements of the Achievement of Tenure under this Agreement (as well as legal requirements per MN Statute §122A.41), which lead to becoming a tenured teacher. (see Article 5, Professional Development)

- F. **Professional Tenured Teacher.** A Professional Teacher is a teacher who has successfully met the criteria for a continuing contract as defined by the teacher's job description, the Minneapolis Standards of Effective Instruction, and the Professional Development Process (PDP). (MN Statute §122A.41)
- G. **Cooperating/Supervising Teacher.** Cooperating/Supervising Teachers share their knowledge and skills with student teachers by modeling, mentoring, coaching, assessing, advising, listening to and reflecting with the student teacher. As an incentive for participation, Cooperating/Supervising Teachers may be eligible for leadership rewards. In addition, Minneapolis teachers may also be adjunct university staff, participate in co-teaching seminars, and, partake of other collaborative instructional opportunities with teacher preparation institutions. During the contract period 2001-2003, a Cooperating/Supervising Teacher screening process will be developed and used to ensure that both the Cooperating Teacher and student teacher enjoy a positive and productive experience.
- In exchange for professional services, Minneapolis Public Schools Cooperating/Supervising Teachers will expect to receive stipends directly from the contracting institution of a minimum of \$200 (2001-2002 school year), \$250 (2002-2003 school year) and \$300 (2003-2004 school year), per student teacher per session. Teachers may also receive other rewards/incentives that may include graduate courses in supervision, mentoring, coaching, etc., offered by the contracting institution, as well as, undergraduate courses for teachers' children, contributions to a professional account, purchase of professional books/materials, and/or other recognition.
- H. **Student Teacher Coordinator.** A teacher may be designated as a Student Teacher Coordinator at a site where multiple student teachers from the same teacher preparation institution are assigned. The institution will contract with the student teacher coordinator to place student teachers, maintain contacts, provide instructional seminars and serve as an advisor to the institution.
- I. **Demonstration Teacher.** Demonstration Teachers are highly skilled teachers who have been identified through a labor-management process and have agreed to welcome other teachers to observe their classroom or other professional environments. Requests for demonstration teaching may be made through PAR, Professional Development Services, Teaching and Learning and/or a site PDP/PSP team.
- J. **Site Lead Teacher.** A Site Lead Teacher is a teacher who meets the established labor/management criteria for professional leadership, advancement, and growth, while remaining at a site.

The PDC Coordinator serves as a member of the site PDC team and works collaborating with the team and others at the site. PDC Coordinator will be expected to facilitate and coordinate the services of the PDC so that the objectives of the center will be successfully achieved. The position will be full-time with the responsibility of supporting one or more school sites. The PDC team will be responsible for supporting the improvement of teaching and learning at the site.
- L. **Teacher Mentors.** Teacher Mentors are selected teachers in Minneapolis Public Schools who have agreed to serve for up to five years within a position/category as mentor teachers and then return to their previous location if a vacancy exists. They are advisors, role models, peers, and highly skilled teachers with successful teaching experience in the Minneapolis Public Schools. Teacher Mentors are committed to setting an example, sharing ideas with others, offering support and encouragement and assisting teachers in locating needed resources. The PAR Committee is responsible for the process of selecting all Teacher Mentors. Sites will be involved in the selection of building mentors and TAP Mentors.

There are currently five types of Teacher Mentors available to support teacher and learning. These mentors work collaboratively with one another to support teachers/sites.

- **District Mentors:** District Mentors work primarily with probationary teachers in the Achievement of Tenure process at multiple sites. They provide support through facilitating New Teacher PSP meetings, coaching, co-teaching and observing teachers.
 - **(PAR) Mentors:** PAR Mentors work with site Professional Development Process (PDP) and/or Professional Support Process (PSP) teams to support teachers. They provide direct support through facilitating meetings, coaching and observing teachers, and ensuring appropriate implementation of the PDP/PSP.
 - **Building Mentors:** Building Mentors work primarily with probationary teachers in the Achievement of Tenure process at a particular site. They provide support through facilitating PSP meetings, coaching, co-teaching and observing teachers.
 - **Professional Development Center (PDC) Mentors:** PDC Mentors are building-based mentors and work as part of the Professional Development Center Team by providing support to all staff in the building through job-embedded professional development.
 - **Resident Mentors:** Resident mentors support resident teachers at an approved residency site or program in their first year and may assist with mentoring of other probationary teachers at the site.
 - **TAP Mentors:** Serve as exemplary teachers and instructional leaders providing feedback, and the knowledge and skills needed to improve classroom practice through well-structured, collegial, job-embedded professional development.
- M. **Site Teachers on Special Assignment (Site TOSA).** Site Teacher on Special Assignment positions in the Minneapolis Public Schools have evolved to support site-based instructional/educational program needs of students and staff other than a classroom assignment. Site Teachers on Special Assignment are highly qualified professional who have been identified as having high-level skills that fit the unique needs of site TOSA positions. Specific job descriptions are written to define the duties of all site TOSA assignments and shall be made available to all staff at a site. The job description shall indicate whether the position is for a specific period of time as determined by a site-based decision-making process. Sites TOSAs are selected by the site through a standard screening process with representation that includes site teachers who will receive the services. All site TOSA positions that exist for the purpose of supporting teachers and instructional programs shall be members of the teacher bargaining unit. Site TOSAs who have been excessed or who wish to leave the position exercise their rights pursuant to Article 15, Transfer, Reassignment, and Recall.
- Appointment and Return to Classroom:
- In order to maintain maximum educational stability for students, site TOSAs will be appointed prior to the beginning of the school year. Exceptions to this schedule may be made with the approval of the appropriate Area Office.
 - The appointment of site TOSAs will occur at natural breaks in the school year or at a time mutually agreed to by all parties involved.

National Board Certification recognizes teachers who effectively enhance student learning and demonstrate the high level of knowledge, skills, dispositions and commitments reflected in the following five core propositions:

- Teachers are committed to students and their learning.
- Teachers know the subjects they teach and how to teach them.
- Teachers are responsible for managing and monitoring student learning.

- Teachers are members of learning communities.

The District and the Union encourage all tenured teachers to actively seek National Board Certification and award all those who achieve certification through the salary schedule and district-wide recognition.

ADDENDUM 1: FINDING TIME FOR THE PROFESSIONAL DEVELOPMENT PROCESS:

Successful professional development and reflection requires dedicated time throughout the year. The following is a list of possible ideas for finding time:

1. **Cadre Reserve Teachers:** Use a cadre of reserve teachers who rotate around the building releasing teams of teachers or coaching partners for an hour or two. A grid can be constructed of the time periods in use (a day or two or three) on which teachers sign up for a reserve teacher to come into their classrooms. If the time requested by a teacher is backed up to a preparation time, this gives the teacher a two-hour block. At some schools, they have asked the reserve teachers to come prepared with a favorite lesson (storytelling, singing, science or math activities, creative dramatics, a fun art project, etc.) and act as guest teacher. This frees the teacher from having to prepare for the reserve. If this process is done several times throughout the year, it can add 6-8 hours or more of time for observing, coaching, teaming, etc., and it's relatively inexpensive.
2. **Alternating Meetings:** Alternate staff meetings with PDP meetings; have one day a month designated for PDP meetings only.
3. **Discussions During Meetings:** Include conversations about School Improvement Plan (SIP) goals and PDP efforts in all grade level or department level meetings. It can be done by simply making the connections throughout the discussion. (How does this support our work on our goals?) Five minutes here and there can keep plans and goals in focus.
4. **Principal Visits:** Have the principal(s) visit each classroom for 30-40 minutes and talk with the students about how everything is going. The teacher can leave during this visit to do PDP activities. This gives the principal a great chance to hear from the students but also to emphasize school expectations.
5. **Preparation Time:** Use preparation times once or twice a month. Since the PDP work is about the work you are already doing, then using a preparation time for PDP is supportive of your classroom efforts.
6. **Study Groups:** Hold a study group/PDP team meeting after school once a month for 1-2 hours. Bring treats. Vary the meeting place each time by having it in each other's classrooms or offices. Share ideas about teaching, reaching students, planning, involving parents, time management, implementing the standards, or whatever is of need or interest to the group. You could focus on an area over several meetings or change the subject of discussion each time.
7. **Release Days:** Use part of a staff development release day for PDP activities.
8. **Summer Days:** Add a day or two during the summer for full staff PDP work. Use staff development dollars or grant monies to pay stipends or compensate the time during the year.
9. **Sharing Students:** Share students to release a teammate for a half or full day. Spread students from one classroom among other classrooms (could be at same grade or different grade levels) so a teacher could be released for a day. Older students could mentor younger ones...large group activities could be done for a day...parent volunteers could come to help, etc.
10. **Simultaneous Meetings:** Hold PDP team meetings simultaneously in your media center or lunchroom. Have principal(s) move around the room (just like teachers do with cooperative groups) to listen to various team discussions and be available for comment. This allows the principal to touch base with many teams at once.
11. **Reduce Number of Meetings:** Cut back on the number of overall meetings at your site. Decide what activities or committees could be combined or eliminated or postponed. Are there other ways to accomplish what you want besides having a meeting or committee?
12. **Get organized and prioritize.** Being organized creates efficiency, which frees up time. There are many resources available for helping with organization. Do what works for you. Don't force yourself to use someone else's system if you don't like it.
13. **Analyze Teaching Practices:** What teaching practices can you eliminate or update? We are often bogged down with correcting papers. What are other ways to accomplish this overload? Can students self-correct? Group correct (small cooperative groups)? Teaching students to critique and assess their work is a valuable teaching tool. Feedback is more immediate for the student and it gives the teacher

more time for creating lessons. Papers can still be collected and reviewed or looked at while the in-class correcting is taking place. Students reading each other's essays or deciphering math problems, critiquing a project, etc., is an excellent way to reinforce learning, while helping students feel more responsible and included. This will take some training within the classroom but works great once in place.

14. **Volunteers:** Use volunteers to help with one-to-one tutoring. Many retirees are looking for regular volunteer opportunities. Getting someone to come each week or a couple times each week, even if just to read aloud with students can help ease a teacher's burden.

Article 6 Student Behavior/Discipline

6.1 Preamble:

6.1.1 **Climate and Culture for Learning:** Schools must be safe, and perceived to be safe places to support the necessary climate for learning. Staff, community, parents and students alike need to hear, discuss and understand the district’s discipline and harassment policies and the accompanying potential consequences for students. The Minneapolis Public Schools has a standard of restorative and supportive practices of non-violence in all of our schools/programs.

Staff, community, parents and students will work together to strengthen those factors that encourage non-violent behaviors and to provide sound interventions for those members of the school community that choose to use inappropriate behaviors. A school working to establish a nonviolent culture will examine all aspects of the school day and the total environment.

6.1.2 **Diversity and Individual Student Needs:** Some of the factors that strengthen and support positive behavior include recognizing diversity among students and designing curriculum, instruction and assessments that address the needs of each student.

6.1.3 **Positive Behavior Choices:** Schools will use data from the current research concerning positive youth development to identify and implement strategies that promote opportunities for youth to gain and practice the social, emotional, and cognitive skills necessary to choose positive behaviors, such as mediation and conflict resolution.

The district’s policies will be consistently implemented with special attention given to violent behavior and possession of weapons.

6.2.3 **Intervention for Positive Behavior:** Sound interventions for students using inappropriate or violent behavior must include both educational opportunities and consequences. Effective programs will include a variety of diagnostic procedures and educational options along a continuum culminating in intensive district services with ample education for students to relearn and choose new behaviors.

- 6.2.4 **Victim Support:** Services and programs must be made available to support the victims of bullying, harassment, intimidation and/or inappropriate violent sexual behavior or who have had their personal property damaged or destroyed by others, when this is done within the context of prejudicial or biased actions based on the victim's status as it relates to race, ethnicity, national origin, gender, religion, disability and/or sexual and affectional orientation.

This committee will meet to review site behavior plans and site behavior data. The District Behavior Committee will meet monthly or more often as needed. The Committee shall develop intervention strategies, resources, and plans to assist schools in meeting crisis situations with regard to behavior. This shall include review of student placement strategies and re-examination of District policies on administrative transfers, suspensions, expulsions, attendance and high school age parameters.

6.3.6 **Goals:** Issues of safety affect both student achievement and community trust. Schools must be safe, and perceived to be safe places to support the necessary climate for learning. Goals under this strategic issue:

Receiving classroom teachers shall be considered in those "needing to know " before admittance to a classroom.

11.3.3 **Leave Donation Program**

- a. **Purpose.** This program provides an opportunity for teachers to donate days to other teachers in certain situations where a teacher has experienced a catastrophic illness or injury with special, extenuating circumstances that results in not being eligible for or exhausting all other benefits. It is the responsibility of the District, in consultation with the Division of Human Resources, to ensure that the requirements of the program are followed.
- b. **Donation Program Description.**
 1. This is a leave-to-leave donation program, under which the teacher recipient does not have the option to convert the donated leave into cash.
 2. A teacher recipient does not accrue leave benefits while accepting leave donations.
 3. A donor teacher may contribute sick leave to a specific teacher recipient by means of a centralized pool that is administered by the Division of Human Resources and the Sick Leave Pool claims administrator for assessment of eligibility.
 4. Eligible teacher recipients will provide the necessary eligibility and medical documentation to the Third-Party Administrator. The Division of Human Resources will notify the bargaining unit of the teacher's eligibility.
 5. The Union and/or District will communicate to other teachers the needs of the teacher for donations.
 6. Teacher recipients may not use this program to care for a spouse or dependent.

c. Eligibility for Recipients

1. The teacher shall have experienced a catastrophic illness or injury with special, extenuating circumstances that results in not being eligible for or exhausting all other benefits.
2. The teacher will become ineligible for this program once any other source of income (e.g., workers' compensation or Social Security insurance) becomes available.
3. The teacher may access as many days as are donated in their name as long as medical certification supports their eligibility.
4. The teacher may only receive sick pay from this program for duty days missed during the regular school year. Such pay will not extend to additional assignments such as overload time, summer session time, or hourly rate assignments.

d. Clarification for Donors

1. Donor recipients may contribute any number of days from their sick leave balance in any one (1) fiscal year to the sick leave bank for use by an eligible teacher recipient.
2. The donation is not tax-deductible to the donating teacher and will result in recognition of increased wages and taxes to the donor teacher.
3. Any donated leave not used will be transferred to the Sick Leave Pool.

11.3.4 Personal Leave and Religious Observance:

a. Personal Leave – Five (5) Days:

1. Three (3) non-cumulative personal leave days, deducted from sick leave, may be taken and shall be granted each year for incidents involving special obligations or emergencies that cannot be scheduled on non-duty days and are not available under other leave provisions, and
2. Two (2) additional non-cumulative personal leave days, deducted from sick leave, may be taken and shall be granted each year.

Effective with the 2015-16 school year, if teachers have used three (3) days, or the equivalent number of hours (currently 24 for three days in AESOP), and choose to use these additional personal leave days, their pay will be reduced by \$60 for an absence of up to four (4) hours or \$120 for an absence of four (4) or more hours.

3. Personal leave days shall be granted according to the following guidelines:
 - **Non-Emergency:** Whenever possible in non-emergency situations, as a courtesy, the teacher should provide prior notification of dates of absence for personal leave to the principal/supervisor at least one day prior so that sub arrangements can be made. Personal leave days shall require no explanation and do not require the filling out of request forms or approval forms. Personal leave is not vacation and is not used to extend breaks such as winter or spring break.
 - **Emergency:** In emergency situations, written notification of personal leave may be requested after the leave has been taken. It is understood that the teacher will assume the responsibility in such an emergency of notifying the principal/supervisor at the earliest possible time of the absence.

b. Religious Observance: Teachers may use four (4) days of leave per school year for religious observances.

1. **Prior notification** of absence for religious observance may be requested by principal/supervisor.
2. **Options:** Teachers who use such days for observance of religious holidays have the following options:
 - The teacher may choose to take up to four (4) religious observance days not deducted from personal leave nor from sick leave; however, teachers' pay shall

be reduced by \$60 for an absence of up to four (4) hours or \$120 for an absence of four (4) or more hours;

OR as an alternative,

- The teacher may choose to take up to four (4) religious observance days not deducted from personal leave; however, such days shall be deducted from sick leave.

11.4 Extended Leaves - General

11.4.1 Leave Process:

- a. Extension of Leaves:** The purpose of this section is to provide stability of programs in the planning and staffing process.
 1. In order to extend a leave, teachers on a leave of up to one year shall submit an additional "Request for Leave" form to their supervisor and the Division of Human Resources requesting to extend their leave.
 2. If requesting to extend a medical leave of absence, all medical leave requests will be accompanied by the "Medical Documentation-Department of Labor" form, which will be available online, indicating the need and the length of time the leave is recommended.
 3. Teachers must provide a physician's statement indicating the need and the length of time the leave will be extended.
 4. In order to extend a leave, teachers who have been on a leave of more than one year shall submit an additional "Request for Leave" form directly to the Division of Human Resources.
 5. Teachers who take personal leaves of one year or more will lose their right of return to their site or program unless the site holds the position for return.
 6. Teachers whose leaves are extended beyond one (1) year will lose their right of return to their site or program.
 7. Probationary teachers are not eligible to renew a leave of absence beyond three months with the exception of a military leave.
- b. Return to Duty After Absence:** Teachers who are absent shall notify principal/supervisor before the close of a school day on the day previous to their return to duty in order that reserve teachers may be released before they leave the building. In case a reserve teacher reports for duty the following day due to the teacher's failure to notify the principal/supervisor, the reserve teacher will remain for the day and the teacher will forfeit the reserve teacher's salary.
- c. Medical Reports:** Teachers returning from a medical leave shall submit the appropriate form from their attending physician indicating that they have medical clearance to return prior to reporting to work. When returning from a medical leave, teachers shall submit the designated forms indicating their intent to return to work. The teacher shall return to the same position if the position still exists. The teacher shall return to the same site, unless the teacher is the least senior in their licensure area/department, or chooses excess status through the canvassing process found in the staff reduction provision of Article 15, Transfer, Reassignment, and Recall.
- d. Return from Leave:** Granting a leave of absence signifies that the teacher will be employed at the end of the leave if there is a position for which the teacher is qualified.
 1. Tenured teachers who intend to return to active duty from leaves of absence shall provide written notice to the Division of Human Resources prior to February 1. Failure to provide written notice to return to duty to the Division of Human Resources prior to February 1 will result in the loss of the right of return from the leave of absence for the following school year.

2. Probationary teachers who intend to return to active duty from leaves of absence shall provide written notice to the Division of Human Resources prior to February 1.

11.4.2 **Personal Leaves of Absence Without Pay, less than a school year:**

- a. **Leaves of up to fifteen (15) consecutive duty days:** A leave of absence without pay may be taken for any number of consecutive days up to a maximum of fifteen (15) duty days upon two (2) weeks prior notice to the principal/supervisor. These leaves are intended to be used only for documented, urgent personal business and emergencies and not for vacation. Notice should be given as early as possible so that coverage may be obtained. In the case of an emergency, the notice requirement may be waived. Such leaves of absence shall not be taken more than twice in the contract period, and no more than once in a school year, the total days not to exceed the fifteen (15) duty day maximum for the contract period. Paid leave may not be used during an unpaid leave of absence. Not more than five percent (5%) of the teachers at any work site or one (1) teacher, whichever is greater, may utilize such leave at any one time.
- b. **Leaves up to ninety (90) calendar days during the school year:** A leave of absence for a period of up to ninety (90) calendar days may be requested during the school year for personal business, personal illness, illness in the family, or urgent personal reasons. Requests will be granted at the sole discretion of the District, and the District reserves the right to place conditions on granting such leaves to ensure minimal disruption to instruction.

Requests should be planned to coincide with natural breaks in the school year at the site. The District retains the discretion to adjust the start date/end date, and/or duration of the leave, including extending the return date to the end of the school year if return would be disruptive to instruction.

Extensions may be requested, and such requests for an extension are subject to District approval.

Notification of return from leave will be coordinated with Division of Human Resources.

11.4.3 **Leaves for Probationary Teachers:**

- a. Except for military leave, no leave of absence will be granted to probationary teachers for more than three (3) consecutive school months, unless the Division of Human Resources deems it advisable to grant a leave until the end of the year covered by the current contract.
- b. Except for military leave, any leave of absence of a period longer than three (3) months constitutes a break in service and will be interpreted as termination of employment unless prior arrangement has been made for return. (Also see Sections 11.2. and 11.4.3)

11.4.4 **Mobility Leave:** Teachers who are tenured are eligible for mobility leave as defined in MN statute §122A.46. Only teachers who have five (5) years of service as a teacher in the District and ten (10) years vested in a Minnesota retirement fund are eligible for a mobility leave. A mobility leave may be approved for at least three (3) and no more than five (5) years based on the discretion of the Division of Human Resources.

11.5 **Extended Leaves - Medical:** Teachers who are unable to perform their duties because of personal illness may be granted a leave of absence for one (1) year. This leave may be extended for a maximum of one (1) additional year upon request at the end of the first year.

11.5.1 **Parenting Leave (Maternity, Paternity, Adoption):**

- a. **Purpose and Procedures:** A leave of absence shall be granted to a teacher for the purpose of providing full-time parental care for a new-born or newly adopted child(ren). Whenever possible, arrangements for such leaves shall be made at least forty-five (45)

days prior to the beginning date of the leave. A planned date of return to duty shall also be arranged at the same time. Teachers should meet with the principal/supervisor in considering the particular educational needs of the students in their classroom in selecting an effective date for beginning of and/or returning from such leave.

Arrangements for leaves granted for purposes of adoption shall be made upon official notification of the pending adoption.

- b. **Use of Sick Leave for Parenting Leave:** For any leave of absence for maternity, paternity or adoption, teachers shall be able to access their earned sick leave during the parenting leave up to twelve (12) weeks. Documentation of date of birth or adoption shall be submitted to the Division of Human Resources.
- c. **Parenting Leave in Excess of Twelve (12) Weeks:** Any leave of absence for maternity, paternity or adoption that results from the birth or adoption of a child(ren) that is medically necessary as evidenced by an attending physician's statement is covered by the sick leave provisions of this Agreement. The attending physician's statement shall be submitted to the District concerning the medical circumstances that require the leave. Teachers may access their earned sick leave during parenting leave up to twelve (12) weeks or the time specified by their physician. Leaves to care for children in excess of twelve (12) weeks that are not medically necessary would qualify as personal leaves of absence.
- d. **Parenting Leave for Adoption:** Any parenting leave for adoption of a child(ren) that does not have documented medical need is applied toward the twelve weeks provided under the Family Medical Leave Act. For any leave of absence for adoption, teachers shall be able to access their earned sick leave during the parenting leave up to twelve (12) weeks provided under the Family Medical Leave Act. Documentation of date of adoption shall be submitted to the Division of Human Resources.

Teachers may use their earned sick leave for up to thirty (30) duty days, of the twelve (12) weeks of parenting leave, prior to the arrival of an adopted child(ren) when the adoption procedures include a legal requirement that the adopting parent be present. Such use of duty days need not be used consecutively.

- e. **Interruption of Leave:** Upon giving five (5) duty days notice of intent to return to duty, a teacher may return to duty prior to the approved ending date of leave in the event of interruption of pregnancy or cancellation of adoption.
- f. **Return to Duty:** Teachers returning from a maternity leave shall submit the appropriate form from their attending physician indicating that they have medical clearance to return prior to reporting to work. When returning from a parenting leave, teachers shall submit the designated form indicating their intent to return to work. The teacher shall return to the same position if the position still exists. The teacher shall return to the same site, unless the teacher is the least senior in their licensure area/department, or chooses excess status through the canvassing process found in the staff reduction provision of Article 15, Transfer, Reassignment, and Recall.
- g. **Probationary Teachers:** Probationary teachers may take military leave and up to three (3) consecutive months of Family Medical Leave Act (FMLA) qualifying leave. Teachers who achieve tenure in the District will be considered as having completed their probation. Teachers who have been officially notified that their contract will not be renewed are no longer eligible for parenting leave benefits beyond the end of the school year. A request for parenting leave shall not be used as a basis for non-renewal of contract. (Also see Sections 11.2. and 11.4.3 in this Article)

11.5.2 **Death in Family or Critical Illness :**

- a. **Death In The Family:** Teachers, including those assigned as long-call or cadre reserve teachers, may be granted a leave of absence for up to five (5) consecutive days per event for the death of the teacher's mother, father, sister, brother, spouse, significant other, child, aunt, uncle, niece, nephew, grandparents, grandchildren, mother-in-law, father-in-law, son-in-law, daughter-in-law, sister-in-law/brother-in-law, parents of significant other, spouse's immediate family, anyone who has the position of parent or child, or any person who has been a member of the teacher's household immediately prior to the critical illness or death of the individual. Teachers traveling more than 2,000 miles one way will be granted up to two (2) additional consecutive days per event.

Documentation may be requested.

If a teacher requests this leave to be taken intermittently, they will communicate a timeline for the anticipated bereavement leave to their supervisor, which must occur within the same school year.

- b. **Critical Illness:** Critical illness is defined as an illness where death is impending, but recovery is possible. Teachers, including those assigned as long-call or cadre reserve teachers, may be granted a leave of absence for up to five (5) consecutive days in the event of the critical illness of the teacher's mother, father, sister, brother, children, spouse, significant other, parents of spouse, or parents of significant other and anyone who has the position of parent or child, or any person who has been a member of the teacher's household immediately prior to the critical illness. Documentation may be requested.

If a teacher requests this leave to be taken intermittently, they will communicate a timeline for the anticipated critical illness leave to their supervisor, which must occur within the same school year.

- c. **Leaves for Critical Illness and Death in the Family:** Such leaves shall be with pay and shall not be deducted from the teacher's sick leave; however, each teacher is limited to twenty (20) days per contract period. The District reserves the right to require documentation of critical illness or death.
- d. **Critical Illness or Death of a Friend:** In addition to utilizing unused Personal Leave days, teachers may take up to two (2) days, to be deducted from the teacher's cumulative sick leave for the critical illness or death of a friend.

- 11.5.3 **Absence because of Quarantine:** Teachers who are absent because their residence is under quarantine shall be allowed full pay up to seven (7) duty days.

11.6 **Study Leaves**

- 11.6.1 **Leaves for School Purposes:** Teachers may be granted a leave of absence without loss of pay to observe methods of teaching, attend professional meetings, or for other school purposes. Requests for such leaves shall be made in writing to the Division of Human Resources. The Division of Human Resources shall notify the Union when such requests are denied.

- 11.6.2 **Professional Improvement:** Leaves of absence for teachers may be granted by the Superintendent of Schools or designee for professional experience and improvement exclusive of study—such as an exchange position, a Fulbright Scholarship, or a teaching position in a dependent school, only after five (5) years of consecutive employment with the District. These leaves are granted without pay and will be granted for a one (1) year period only (with the exception of leaves granted for teaching in dependent schools). Candidates for this type of leave shall not have had a leave for a similar purpose, unless the teacher has had at least five (5) consecutive years of employment with the District since the termination of the previous leave.

Applications for professional leaves shall be filed with the Division of Human Resources on the designated form at least three (3) months prior to the date of anticipated absence.

- 11.6.3 **Standards Team Leave:** A study session leave of absence with pay may be granted for one (1) to two (2) weeks to a team of teachers from a site or city-wide program for standards integration at their site or in their program. A team will submit a proposal to create integrated standards units/lessons that follow guidelines established by the Teaching and Learning Department. The proposal would provide a plan for assuring continuous learning of the team's students, a description of the final products, list of participants, a total budget, and length of leave.

Criteria used to grant leave are:

- a. financial obligation of the site or program to pay for reserve teachers;
- b. ability to assure continuous learning for students;
- c. degree to which the project ties to the guidelines for District standards;
- d. involvement of site team and site staff development committee.

- 11.6.4 **Study Leaves without Pay:** A leave of absence without pay may be granted for study. If a teacher carries a minimum of twelve (12) credits or its equivalent for each quarter and/or semester, the time spent on leave of absence will be included in computing eligibility for an increment. This provision shall not extend beyond a single annual increment. The institution and the course of study that the employee pursues must be approved by the Superintendent of Schools or designee.

11.6.5 **Sabbatical Leave**

- a. **Definition:** Sabbatical leave is a leave of absence for study or travel for the purpose of professional enrichment/development that shall result in benefit to the District. The Union and the District share the commitment to raise professional standards in teaching and education. This definition includes Bush Leadership Fellow and AFT Distinguished Teacher Fellow.
- b. **Eligibility:** A sabbatical leave of absence for up to one (1) year may be granted to teachers for the purpose of study after seven (7) consecutive years (a minimum of 110 days/school year) of active service in the District. This leave is granted in order that a teacher may maintain and/or improve the quality of instruction or for professional leadership. No leave shall be granted for fewer than six (6) weeks. Reserve teachers are not eligible for sabbatical leave.

In order to be eligible for another sabbatical leave, the teacher shall complete another seven (7) full contract years of active service in the District before being eligible for another sabbatical leave.

- c. **Duration, Pay, Benefits:** Sabbatical leave may be granted for one-half (1/2) year or up to one (1) full year.

1. Half-Year Sabbaticals

- Regular sabbatical leave: Teachers granted sabbatical leave for one-half (1/2) year shall receive full pay during the sabbatical. Teachers who take a sabbatical for one-half (1/2) year are eligible for the perfect attendance incentive options benefit based on the portion of the year they are not on sabbatical leave.
- Unused Sick Leave Sabbaticals: In addition to the regular sabbatical leave, a leave of absence for study or travel shall be granted to teachers for one-half (1/2) year at full pay based on the individual teacher's unused sick leave, provided the teacher has fifteen (15) sick leave days remaining following the leave and agrees to teach in the District for at least two (2) years upon completion of the leave.

If the teacher discontinues service for any reason other than incapacity to carry out assignments before the expiration of two (2) years, she/he shall pay back the pro-rated share of the sick leave used. Teachers eligible for this paid study leave based on unused sick leave shall file their applications by March 15. The District reserves the right to adjust schedules of study leaves when the number per building or subject-matter area would be detrimental to the educational program.

2. Full-Year Sabbaticals:

- Teachers granted sabbatical leave for one (1) year shall have the option of receiving either one-half ($\frac{1}{2}$) pay during the sabbatical leave. The allowance granted to teachers on sabbatical leave shall be one half ($\frac{1}{2}$) of the rate of pay received by the teachers had they remained in their positions.
- Alternatively, teachers granted sabbatical leave for one (1) year shall have the option of receiving three-fourths ($\frac{3}{4}$) pay during the sabbatical leave and three-fourths ($\frac{3}{4}$) pay during the first year of teaching upon return to duty following the sabbatical leave. The three-fourths ($\frac{3}{4}$) pay for the year following the sabbatical leave shall not be construed as a voluntary demotion under the Teacher Tenure Act, MN Statute §122A.41.

Upon return from a $\frac{3}{4}$ pay sabbatical, the teacher's percent of time/full-time equivalent (FTE), must be equal to or greater than the FTE while on sabbatical. If teachers' FTE changes upon return, the amount to be paid to the District shall be based on the FTE while on sabbatical.

The beginning and returning dates of teachers on sabbatical leave should, to the extent possible, coincide with the normal transition periods of the school calendar and be determined in consultation with the Sabbatical Leave Committee.

- d. **Application for Sabbatical Leave:** Applications for sabbatical leave shall be filed by March 15 for all leaves that are to be taken during a portion of or for the entire following school year.

Included in the application package will be an outline of the process.

After being notified of acceptance for the sabbatical leave, recipients will be required to attend a pre-sabbatical planning seminar sponsored by the District and the Union.

Sabbatical leave requests shall be filed each year. No requests will be held over from one year to the next. Granting of sabbatical leave to pursue a particular field does not imply endorsement of this goal for consideration for placement upon completion.

The Sabbatical Leave Committee shall meet and grant sabbatical leaves no later than four (4) calendar weeks after the sabbatical leave request deadline date.

- e. **Allotment:** Up to a maximum of twenty (20) sabbatical leaves may be granted. Up to ten (10) teachers may exercise the option of selecting one (1) semester of leave at full pay for purposes of study only subject to the conditions previously outlined. Up to a maximum of ten (10) teachers may be granted either one (1) year-one half ($\frac{1}{2}$) pay or one (1) year-three fourths ($\frac{3}{4}$) pay sabbatical leave during a school year.

In the event the number of teachers placed upon the eligibility list exceeds the allotment of teachers for sabbatical leave, consideration will be given, among other things, to length of service and contribution to the general welfare of the school.

- f. **Credits Required for Sabbatical Leave:** If the sabbatical leave is granted for the purpose of study at the undergraduate level or for a Master's degree, the teacher shall complete twelve (12) credit hours of work during the semester or quarter for which the leave is granted. Work beyond the Master's degree requires nine (9) credit hours each semester or quarter. The institution and the courses to be taken must be approved by the Sabbatical Leave Committee.

- g. **Itinerary for Travel:** If the sabbatical leave is granted for the purpose of travel, the itinerary shall be submitted in detail with the application. The itinerary must be approved by the Sabbatical Leave Committee before the leave is granted.
- h. **Position on Return from Leave:** Upon returning from sabbatical leave the teacher shall return to the position held immediately prior to the leave. Exceptions may be made only under one (1) or more of the following conditions:
 - 1. The teacher and principal/supervisor have consulted upon any change deemed necessary in department, grade level assignment, caseload, or specified job description of the position prior to its implementation. In the absence of mutual agreement, the principal/supervisor shall provide the teacher with a written rationale for the necessity for the change to the position within ten (10) calendar days of the consultation meeting. The teacher will have the right to appeal the decision to change the position through the grievance process as described in Article 13.
 - 2. A reduction in student enrollment has occurred that necessitates a reduction of some or all of the position. In such a case, the staff reduction process, as described in Article 15, Transfer, Reassignment, and Recall shall apply.
 - 3. A change in grade or program configuration resulting in the elimination of the position or moving the position to a different site. In such a case, programs and classrooms moved intact, staff reduction, and other applicable processes as described in Transfer and Reassignment Article of this Agreement, shall apply.
- i. **Salary Upon Return from Leave:** The teacher who has been on sabbatical leave will receive the full yearly increment, provided she/he has fulfilled the plans approved by the Sabbatical Leave Committee.
- j. **Teachers' Obligations Upon Return:**
 - 1. Teachers granted sabbatical leaves shall teach two (2) years in the District following the completion of their leaves. If teachers discontinue service for any reason other than their incapacity to carry out their assignment before the expiration of the two (2) years, they shall pay back to the District a prorated part of the sabbatical allowance. Teachers shall return to duty at the beginning of the next semester following the end of the sabbatical leave.
 - 2. Teachers granted sabbatical leaves through the selection process whose position is subsequently discontinued by the District and who are recalled within the twenty-four (24) month recall period, shall have a right to their previously-granted sabbatical leave for the following school year. Such sabbatical leaves shall be included in the ten (10) leave maximum for full year/half pay or $\frac{3}{4}$ pay Sabbatical Leaves granted for that year.
 - 3. Exceptions to immediate return shall only be allowed if a need and eligibility for medical, parenting, or military leave arises subsequent to the beginning of the sabbatical leave. Such leave must be requested and approved according to appropriate procedures set forth in this article. Such a leave will not excuse or reduce the teacher's obligation to teach two (2) years in the District following the completion of the leave. Discontinuance of contract by the District releases the returning teacher from the two (2) year obligation.
- k. **Accountability:**
 - 1. Since the purpose of this leave is to study, the applicants will agree not to accept any other employment during the period of their leaves unless it pertains directly to their study programs and then only with the approval of the Superintendent of Schools or designee. Should the amount of such remuneration, grant, fellowship, or stipend together with the sabbatical leave pay exceed the teachers' regularly

scheduled pay, the sabbatical leave pay will be reduced to the amount teachers would have received had they not taken the leaves.

2. Upon return from sabbatical leave, the teacher shall be expected to present a summary report of the experiences or learning that occurred during the sabbatical leave, including a one (1) page Executive Summary to be shared with other District teachers. The emphasis of the work to be submitted to the Sabbatical Leave Committee shall focus on how the experiences and/or learning related to teaching or professional leadership. The work shall be submitted to the Sabbatical Leave Committee by October 1, following the completion of the leave of absence. At the request of the Sabbatical Committee, exemplary experiences will be presented in designated forums. The sabbatical recipient shall receive \$200-\$500.

I. Sabbatical Leave Committee:

1. The Sabbatical Leave Committee shall have equal representation with three (3) members appointed by the Superintendent of Schools or designee and three (3) members appointed by the President of the Union.
2. The Sabbatical Leave Committee shall meet in the fall to establish criteria upon which the sabbatical applications will be judged and the selection process that will be followed. The criteria and process will be distributed system-wide prior to the March 15 application deadline.
3. In the event of a tie vote on an application, the Superintendent of Schools or designee shall cast the deciding vote. At no other time shall the Superintendent of Schools or designee vote on an application for sabbatical leave.

11.6.6 National Board Certification Leave:

- a. Up to five (5) days with pay may be granted by the Division of Human Resources to teachers pursuing National Board Certification. Teachers must notify their supervisor and the Division of Human Resources at least two weeks prior to the leave.
- b. The granting of these leaves will be included in the allotment of sabbatical leaves (see 11.6.5.e) and not cause the allotment to be exceeded.

11.6.7 Teacher Exchange Program:

- a. Teachers who have served a minimum of five (5) years in the District may participate in a Teacher Exchange Program with other school districts and educational agencies. The intent of the program is to provide an opportunity for teachers to work in another educational frame of reference in order to gain different insights into instructional patterns, schedules, facilities, students and cultural environments. It is to be expected that the school district or agency with which the exchange is made gains in similar fashion.
- b. Participation in the program is on a voluntary basis. All exchanges of personnel require the approval of the Superintendent of Schools or designee and the administrative head of the other system or agency.
- c. Approval for each teacher exchange will be by means of a letter between the other school district or agency and the Minneapolis Public Schools specifying:
 1. Names of the volunteer participants
 2. Assignment in other school district or agency
 3. Length of time of exchange
 4. Salary agreement
 5. Other relevant details concerning the exchange
- d. No more than two (2) teachers from any one (1) school may participate in an Exchange Program in any one (1) school year at a time.

- e. Exchanges are to be initially planned for a definite period of time and may vary according to the circumstances of the individual case. Should extensions of this time seem desirable, such extensions will require approval as outlined above.
- f. The District reserves the right to interview and make a decision as to the acceptability of all teachers from another school system or agency prior to agreeing to a specific exchange.
- g. A teacher exchange with another school district may not be extended beyond one (1) year. A teacher exchange with another educational agency may be approved for up to one (1) year and may be extended annually. The teacher who has been on a Teacher Exchange Program leave will receive the full yearly increment.

11.6.8 **Summer Study:**

- a. Teachers may be released for summer study without pay before the close of school in June or after the opening of school in the fall, if absolutely necessary.
- b. Request shall be submitted on the designated form at least five (5) weeks prior to the date of absence. Teachers shall receive written approval from their principal/supervisor, and request should then be submitted to the Division of Human Resources.

11.7 **Other Leaves**

11.7.1 **Legal Commitments and Transactions:**

- a. **Jury Service:** A teacher who is called to jury service shall be granted leave with pay while serving provided the teacher pays to the District any fees received minus travel allowance, for such jury service. Teachers may retain fees for jury service that occurs on holidays and non-duty days for teachers.
- b. **Court Cases:** A teacher who is absent as a witness in any case in court, when duly subpoenaed, shall be entitled to one (1) day's pay while attending as a witness. In cases where the District is a party in litigation, the teacher shall be entitled to pay while attending as a witness at the request of the District.
- c. **Defendant or Plaintiff in Court:** When a teacher is absent because of serving as a defendant or a plaintiff in court, full deduction will be made for time away from duty. The teacher may elect to use the three (3) non-cumulative personal leave days deducted from sick leave if they have not previously been used.
- d. **Indictment:** Any employee of the District who is indicted shall be automatically suspended from service from the date of indictment. In case of acquittal, the employee shall be paid in full for the time lost by reason of such suspension.

11.7.2 **Military Leave:**

- a. **Tenured Teachers:** Leaves of absence are granted for military purposes, but not to exceed the enlistment or draft period. Official military orders shall accompany request for leave forms submitted to the Division of Human Resources prior to the beginning of the military leave. Upon termination of military leaves teachers shall be entitled to be reinstated in a teaching position at the same salary that they would have received if they had not taken such a leave, upon the following conditions: that the position has not been abolished; that they are physically and mentally capable of performing the duties of the position; that they make written application for reinstatement to the Division of Human Resources within ninety (90) days after termination of military service; and that they submit an honorable discharge or honorable separation from the military service. Teachers returning from a military leave of one (1) year or less retain the right to return to their previous work location. If there is a staff reduction the canvassing process that includes the teacher on leave will be followed pursuant to the Transfer and

- 12.1.2 **Obligations and Commitments:** Air quality, lighting, noise level, temperature, safety and security, and other environmental factors may greatly impact the performance of some students and staff in a school or other work location. The District has statutory obligations to maintain a safe working environment. Both the District and the Minneapolis Federation of Teachers are committed to continuing to work together to assess and develop the quality of school and other work environments so that students and staff may achieve their best performance. When determining school or classroom closures due to temperature extremes, the District will consider the temperature inside buildings and classrooms in addition to the weather outside. The Minneapolis Federation of Teachers and the District have obligations under the Americans with Disabilities Act (ADA) to consider accommodation requests from disabled employees and make reasonable accommodation according to the statute.
- 12.1.3 **Environmental and Personal Impact:** Environmental issues are becoming an increasing concern for the health and safety of students and staff. An environment as free as possible of fragrances such as strong cleaning agents, perfumes, cologne, or scented lotions would be appreciated by those affected. While personal choice in the matter of scent is respected, the increasing number of students and staff who have an adverse reaction to these chemicals in their environment is growing. Cleaning agents, perfumes, colognes, scented lotions, and hair sprays can cause symptoms including breathing problems, lethargy/depression, headaches, irritability, hyperactivity, muscle aches. These reactions are not simply aversion or discomfort but are medical in nature and can cause loss of time at school or can even result in life-threatening situations. Compliance is voluntary in this matter.

The teacher may leave the area of danger and/or the facility as needed.

Step 3: Any issue that arises under this section that needs further resolution shall be referred to the Associate Superintendent for the school or site for problem-solving. The Associate Superintendent or site administration will acknowledge receipt of the issue in a timely manner and will provide ongoing timely communication on a resolution or problem-solving.

12.1.8 **Reporting a Work Injury/Illness:**

a. **Reporting an Injury/Illness:** If a teacher receives an injury or illness that arises out of and in the course of employment, a First Report of Injury form will be completed by the employer once the employer is made aware by the teacher that the injury or illness is being claimed as work related. If the injured teacher is able, they will file the First Report of Injury in the event the employer is not available to assist the teacher. 13.3.1 Level I: Principal or Immediate Supervisor Level

STAFF ADJUSTMENT

i. What happens when staff adjustments between schools are necessary during the school year?

Note: It is extremely rare for related services and nursing staff to be reassigned during the school year.

Special Education related services (Audiology, DAPE, OT/PT, Psychology, Speech-Language and School Nursing) staff positions and assignments are designated as city-wide positions, and not allocated to schools. This gives the district maximum flexibility to shift staff resources depending on the city-wide distribution of students with IEPs and for students with significant health concerns requiring intensive nursing cares.

TEACHERS WITH CASELOADS (See Article 15.9.13): Teachers with caseloads who are assigned city-wide may have their caseload adjusted with consultation during the school year, depending on IEP requirements and city-wide distribution of students.

- a. Staff in city-wide assignments are informed that their assignment is subject to change depending on IEP requirements and city-wide distribution of students, as per current teacher contract.
- b. Staff adjustment found in Article 15.9.2, staff reduction, shall be followed (e.g., canvass in seniority order at sites with more than one staff person).
- c. School reassignment decisions are made by the respective Special Education or Health Related Services administration (or their designee), in consultation with the staff involved. Lead staff will notify principals, assistant directors, the Division of Human Resources, MFT and Academic Superintendent by email.
- d. For city-wide staff that have a portion of their position purchased by the school, the adjustment in their assignment will come exclusively from the city-wide portion of their position. In these cases, principals are consulted, as appropriate.
- e. The staff involved will retain the right to go back to their original position at the end of the school year if it still exists, and retain all relevant teacher contract rights and privileges (e.g., transfer).
- f. When possible, staff adjustments will occur at natural breaks in the school calendar, such as quarter or semester breaks and vacation breaks.

OTHER ISSUES REGARDING CITY-WIDE POSITIONS

5. What is the makeup and role of city-wide advisory groups?

- a. Advisory groups for city-wide Special Education related services and city-wide School Nursing staff have the following common characteristics:
 - Open to tenured staff in the respective units
 - Rotating terms
 - Representative of sub-units (e.g., preschool, elementary, secondary)
- c. The role of the advisory group is to facilitate the assignment, transfer, excessing and bundling process for related services staff. The lead staff and the advisory groups will develop guidelines for how assignment pieces will be bundled, and communicate this information to the respective groups, the Division of Human Resources and MFT.

6. How may staff address concerns they have about assignments?

- a. Staff may meet with lead staff, advisory committee, and/or the respective Special Education or Health Related Services administrator to address the concern.
- b. If the concern cannot be addressed with these procedures, staff will follow the teacher contract procedures for addressing staff concerns.

7. How are schools and staff informed about city-wide services at the site?

- a. Principals may be informed at budget tie-out of the approximate amount of time their school will receive based on the predicted number of students with IEPs or health concerns, along with notification that the amount of service is subject to change.
- b. Special Education/Health Services will do Position On Line Forms (POLFs) for all city-wide positions.

8. How is the effectiveness of the procedures in this document evaluated?

Staff satisfaction surveys on the assignment/excessing/bundling procedures will be collected every two years (in conjunction with new teacher contracts). Results of these surveys will be collected by the respective lead staff and shared with the advisory committee, Special Education or Health Related Services administrator and the Special Education/Labor Management Committee.

SCHEDULE G STAFF DEVELOPMENT, OTHER HOURLY RATES, STIPENDS

Effective July 1, 2003

Hourly Staff Development Rate: \$25/hr

Teachers as defined in this Agreement shall be paid, with the expectation of successful completion, for a pre-approved number of hours, at the Hourly Staff Development Rate for active participation in work-related and staff development activities outside the teacher's defined day and of benefit to students. Examples of hourly staff development activities include workshops; curriculum, and assessment development; examination of student work; coaching and professional practice and reflection; and distance learning.

It is expected that professional development will result from compensated staff development activities and shall therefore be implemented and reflected in the teacher's practice. Evidence of professional development in the teacher's Professional Development Plan includes, but is not limited to, action research, classroom coaching, and teaming.

Teachers shall be paid at this rate for each full hour of time outside the defined school day during which they participate in approved staff development activities. In addition, they shall be paid one half (1/2) the amount of this rate for each additional full thirty (30) minutes spent participating in such activities.

Teachers obtaining required staff development via distance learning (online) shall be compensated at a rate of one hour of hourly staff development pay for every pre-approved hour spent engaged online with the required distance learning. Time requirement expectations shall be equivalent to time requirement expectations for distance learning courses delivered under the auspices of Minnesota teacher preparation and development programs, e.g., ten (10) hours of online engagement for one (1) quarter credit of university distance learning.

Such hourly staff development payments are appropriate expenditures from site Staff Development allocations as determined by the site Staff Development Committee (see 5.10).

Staff Development Stipend: \$18 /hr up to \$85/day

Teachers as defined in this Agreement shall be paid for a pre-approved number of hours, at the Staff Development Stipend rate of pay upon the agreement of the site staff. This rate is used at times when the funds are limited, but the site wishes to undertake staff development activities.

Teachers shall be paid at this rate for each full hour of time outside the defined school day during which they participate in approved staff development activities. In addition, they shall be paid one half (1/2) the amount of this rate for each additional full thirty (30) minutes spent participating in such activities.

Such staff development stipend payments are appropriate expenditures from site Staff Development allocations as determined by the site Staff Development Committee (see 5.14).

Hourly Leadership Rate: \$30/hr

Teachers as defined in this Agreement shall be paid for a pre-approved number of hours, at the Hourly Leadership Rate for each hour of instruction during which they present to other teachers or employees of the school district if the presentation is outside the duty day. Regardless of when the teachers present the staff development, they shall receive one (1) additional hour at the Hourly Leadership Rate for every one (1) hour of preparation as reported up to one (1) hour of preparation for every one (1) hour of presentation. Furthermore, teachers shall be paid one half (1/2) the amount of the full hourly rate for each additional full thirty (30) minutes spent presenting or preparing such activities.

Such hourly leadership payments are appropriate expenditures from site Staff Development allocations as determined by the site Staff Development Committee (see 5.14).

Hourly Pro-rated Rate:

Teachers shall be compensated at the Hourly Pro-rated Rate of pay for work performed for student instructional time outside the regular day and year, such as summer school and extended day/year teachers. Such teachers are paid at their current step and lane placement computed to an hourly rate. To compute the Hourly Pro-rated Rate, divide the teacher's current annual salary* by the teacher duty days; that result is further divided by the hours in the teachers' regular duty day less 30 minute duty-free lunch. Furthermore, teachers shall be paid one half (1/2) the amount of the full hourly rate for each additional full thirty (30) minutes worked. The hourly rate will be based upon 196 duty days per year and 7 1/2 (8 hours per day less 1/2 hour duty free lunch).

[*Summer school rates are calculated based on the annual pay earned in the school year in which summer session starts and the same rate remains in effect throughout that session.]

Hourly Flat Rate: \$25/hr

Teachers shall be compensated at the Hourly Flat Rate of pay for work performed as specifically indicated in the Agreement, such as hourly employment, lost preparation or lunch time reimbursement, extended-time program assignments (Article 7.21.1, and generally; Schedule "D"), and for work performed beyond the teacher's defined day not otherwise defined in this Agreement.

Teachers shall be paid at this rate for each full hour of time outside the defined school day during which they participate in approved activities. In addition, they shall be paid one half (1/2) the amount of this rate for each additional full thirty (30) minutes worked.

Additional Hourly Rate \$15/hr.

Teachers in the categories of Success for All tutors, Teaching Associates for Direct Instruction (TADI's) and Early Childhood testers, assessors and evaluators shall be compensated at the Additional Hourly Rate of pay for work performed as specifically indicated in Article 7.22 of this Agreement.

Teachers shall be paid at this rate for each full hour of time outside the defined school day during which they participate in approved staff development activities. In addition, they shall be paid one half (1/2) the amount of this rate for each additional full thirty (30) minutes spent participating in such activities.

Section IV Memoranda of Agreement (MOAs)

MOA – STREAMLINED INTERVIEW & SELECT PROCESS

Agreed to by the parties to the 2015-2017 Bargaining Agreement on July 26, 2016.
Updated August 31, 2020.

This Memorandum of Agreement (MOA) is entered into by and between Minneapolis Public Schools, Special District No. 1 (District,) and the Minneapolis Federation of teachers (Union,) to specify certain terms and conditions relating to the Interview & Select staffing process.

WHEREAS, the current collective bargaining agreement between the District and the Union specifies the Interview & Select process (See Article 15: Transfer, Reassignment, and Recall); and,

WHEREAS, the District and the Union have a shared interest to improve and streamline the Interview & Select process to provide the greatest opportunities for teachers to serve in assignments where they can be successful; and,

WHEREAS, the District and Union have a shared commitment to recruit and hire effective and diverse teachers; and,

WHEREAS, the District and the Union have committed to collaborate to create a refined Interview & Select process.

NOW THEREFORE, be it resolved that the parties agree to the following terms:

1. **Implementation of streamlined Interview & Select Process.** The streamlined Interview & Select process initiated by this MOA shall be in effect for the next two (2) staffing cycles during Spring 2020 and 2021, for the 2020-2021 and 2021-2022 school years.
2. **Timeline for streamlined Interview & Select Process.** The parties agree to create a streamlined Interview & Select process with the following components:
 - a. The schedule for postings, interviews and transfers to occur will be reviewed at contract administration. Once finalized, the schedule will be posted online and emailed to staff.
 - b. Within 10 duty days after the District’s Budget Tie Out (BTO) deadline, the catalogue of open positions will be posted online for teachers to begin the application process. The catalogue will be sent to the Union and principals. The catalogue of open positions will be open for five (5) duty days. Candidates shall go online to upload their resume and sign up for interviews for positions.
 - c. Candidate Pool: The interview pool shall consist of eight (8) candidates for each position which shall include the top four (4) senior applicants, two (2) applicants currently teaching in the District, and two (2) applicants to be selected by the site interview team which may include those who have signed early contracts to teach the following year.
 - i. In instances where there are fewer than six (6) current educators who have applied for a position, additional early contract educators can be chosen for interview, up to a total of eight (8) candidates.
 - ii. In instances where one candidate pool may be used to interview for multiple identical positions at a school, the total number of applicants who interview will be equal to or less than to sum of the total number of interview positions times eight and the candidate ratio from 2c shall be observed.
 - d. One (1) Round, Central Location: Approximately five (5) duty days after the positions have been released and teachers have applied for interviews, there will be one (1) round of interviews. Interviews will be conducted in 1-2 days at a central location to be determined. As a courtesy to candidates and interview teams, the District will make a good faith effort to avoid arena style seating to ensure privacy and candor during interview sessions.
 - e. Teachers will receive an email notification from the posting system informing them of the job offer. Teachers will have forty-eight (48) hours to accept or decline the job offer. Teachers shall go online to the posting system and accept or decline the position.

- f. Matching, Placement: Approximately five (5) duty days after the conclusion of Interview & Select, the District and the Union will initiate the Matching and Placement processes as designated in the collective bargaining agreement.
3. **Teacher Movement.** Teachers will be allowed to accept only one assignment (1) time during the streamlined Interview & Select process.
4. **Interview Teams.** The Union Stewards and site administration shall have flexibility to create interview teams to meet the needs of their interview schedules, such as using blended teams of teachers at various grade levels to accommodate a high volume of interviews during the interview period each round. The selection of teachers on the interview team shall be governed by the collective bargaining agreement.
5. **Excessed Staff Participation in Interview Process:** Because school programs are unique, it is important that teachers make informed decisions regarding their teaching assignments. To assure that excessed teachers apply for positions that fit their interests, experience, training, and skills, they shall participate in the interview process whenever positions in their licensure area(s) are available. The District and Union will collaborate to ensure that all excessed teachers participate in interviews or matching in order to reduce the need for placement.
6. **Labor-Management Placement Committee.** The Labor/Management Placement Committee (Placement Committee; made up of the District, Teachers' Union and Principals' Forum) will provide advice and counsel regarding the Interview & Select process, and help problem-solve issues relating to logistics and implementation.

Data: The Placement Committee will determine the scope of its work as needed. Annually, at a minimum, the Placement Committee shall be provided data by the District as follows:

 - a. To determine whether sufficient vacancies were made available to accommodate all excessed staff identified at BTO, the District will provide a list of vacancies by site, licensure area(s), FTE, staff who transferred, and other pertinent aggregate data as determined by the Placement Committee;
 - b. To determine the effectiveness of this MOA, annually within 60 days of the conclusion of Interview & Select, the District will aggregate and provide transfer data for each license area indicating:
 - i. Whether the candidate who secured the position was:
 1. One of the top four (4) most senior candidates; or,
 2. One of the two (2) internal candidates currently working in the District; or
 3. One of the two (2) external candidates hired under an early contract for the following school year.
 - ii. Whether candidates who secured the position self identify as people of color and/or white.
7. **All Other Terms and Conditions.** All other terms and conditions of the collective bargaining agreement between the District and the Union relating to Interview & Select shall remain in force.

BE IT FURTHER RESOLVED, that to the extent this MOA is a deviation from the terms of the collective bargaining agreement between the District and the Union, it shall not form the basis for any precedent that may be cited for any grievance concerning any alleged violation of the contract.

This MOA shall expire on June 30, 2021.

MOA – STAFFING HARD TO FILL LICENSE AREA AND HIGH PRIORITY SCHOOL VACANCIES

Agreed to by the parties to the 2015-2017 Bargaining Agreement on July 15, 2016.

This Memorandum of Agreement (MOA) is made and entered into by and between the Minneapolis Public Schools (District) and the Minneapolis Federation of Teachers (MFT) to establish that all teacher vacancies shall be filled using the contractual Interview and Select (I&S) process.

WHEREAS, the District and MFT are seeking to provide flexibility to staff vacancies at a time that is strategic to obtain new hire candidates during a hiring season;

WHEREAS, in order to provide the best opportunity to match a teacher with a hard-to-fill vacancy, the District and MFT are desirous to have an early round of Interview & Select occur prior to budget tie-out for contract teachers to interview for vacancies for the following year that may arise at times earlier than the regular staffing process;

NOW, THEREFORE BE IT RESOLVED THAT the District and Union hereby agree that the following parameters will apply to any High Priority Schools and hard-to-fill vacancies at any site:

1. **Identification of High Priority Schools:** By November 1st each year, the District shall notify the Union of the list of High Priority schools based on the Minnesota Department of Education (MDE) definition of priority and focus schools. No job postings relating to the positions identified in this MOA shall be made until the District and Union meet regarding these positions.
2. **Identification of Hard to Fill License Areas:** By November 1st each year, the District and Union will meet to discuss the list of hard to fill license areas. No job postings relating to the positions identified in this MOA shall be made until the District and Union meet regarding these positions.
3. **Extended Interview and Select:** Interview and Select for hard-to-fill positions may take place prior to during or after budget tie-out for the following school year due to reasons such as resignation, retirement, reassignment (e.g., taking a TOSA position), or newly created positions due to additional funding.
4. **Stabilizing mid-year displacement:** In the event that a teacher gives notice of a retirement or resignation date that is within the school year, the District will work with the teacher to provide an opportunity to exit at a natural break in the school calendar. With the agreement of the teacher after consulting with the Union, the District has the discretion to look for a temporary alternative assignment (e.g., Building Reserve, etc.). After reassignment of the teacher to the alternative assignment, the vacancy created may be posted and filled in accordance with this MOA and/or the Collective Bargaining Agreement (CBA.)
5. **Licensure, Application Process:** Any applicant seeking a position must hold the proper license(s) listed for the position valid through the school year for which they are applying in order to be considered for positions. Teachers seeking a new position must go online and apply for specific positions at designated sites. Teachers shall submit a resume using the standard resume format when applying for positions. All MPS contract teachers (i.e., current teachers and unassigned teachers) and qualified external candidates (i.e., screened by Human Resources who have been given a contract) may seek an interview.
6. **Other Transfer Provisions:** Other transfer provisions contained in the CBA will otherwise apply.
7. **Adjustments to Process:** Any necessary adjustments to the process outlined in this MOA that may arise will be brought to contract administration where the parties will meet to seek the solution.

MOA – CLASS SIZE

6. Teachers will be able to contact the MPS Enrollment Center to communicate when class sizes exceed the priorities, outside the regular monitoring process by the staff adjustment committee. The Enrollment Center will follow up with the Chief of Schools.

7. Specialists will be held to the same class size priorities.

BE IT FURTHER UNDERSTOOD AND AGREED THAT to the extent that this Memorandum of Agreement may be construed as a deviation from the terms of the 2015 - 2017 Collective Bargaining Agreement between the District and the Union, it shall not form the basis of any precedent that may be cited by any teacher in any grievance that may be filed.

MOA – STUDENT BEHAVIOR AND SUPPORT

Agreed to by the parties to the 2015-2017 Bargaining Agreement on July15, 2016.

Whereas, schools should be a place of joy that are the heart of the community;

Whereas, it is the responsibility of MPS and MFT to ensure safe and welcoming learning environments for all students and staff;

Whereas, a comprehensive and high quality education includes an intentional focus on the academic, social, and emotional needs of every student so they may reach their full potential;

Whereas, behavior expectations must be clearly delineated for both students and staff and broadly communicated so we can build positive climates and cultures in all of our schools;

Whereas, district and school behavior policies must include effective and equitable practices to promote positive outcomes that resolve conflict as well as hold individuals and groups accountable;

Whereas, MPS Policy 5200 specifies that MPS is responsible for engaging appropriate community resources and identifying needed training for staff, students, parents, and community partners;

Therefore, be it resolved that the Minneapolis Federation of Teachers and Minneapolis Public Schools will:

Policies -

1. Develop deep clarity about the MPS Behavior Policy to ensure everyone knows: what it is, how it is implemented, and the strategies to be followed to ensure student safety and success;
2. Continue the ongoing development of racial and cultural equity throughout the school system;
3. Consistently follow the behavior policies and guidelines for violent behavior – both verbal and physical – to ensure safety for all students and staff; have site leadership report all physical violence to Human Resources on the day it occurs with follow up within 24 hours by District leadership to those effected;

Communication -

4. Communicate district-wide the expectations of behavior policies, procedures, and practices so there is a common understanding and implementation of each across the district.
5. Ensure all newly hired staff have MPS training and support regarding district behavior policies and procedures, professional expectations, and effective strategies for creating positive student behavior, de-escalating negative behaviors and how to manage a crisis situation.

Data -

6. Conduct a deeper examination of students needs and student behavior data to understand and determine the root causes of individual student behavior and find the most appropriate interventions needed;
7. Collect school and staff reactions to district and school policies/practices as well as student behavior, and current promising practices that go beyond just trying to reduce suspension numbers,

Professional Support and Training -

8. Provide rich exposure to childhood/youth trauma-based research via the Adverse Childhood Experiences (ACE) study; provide training options, if desired
9. Develop ProPay courses on social emotional learning, trauma informed strategies, de-escalation of classroom conflict, and so on;

Site Support -

10. Change the name of “in-school suspensions” to “in-school support” to more appropriately define what needs to be implemented;
11. Revamp and rebuild an “in-school support” framework so students may remain in school for non-violent behaviors (but in not a classroom) and receive proper support for their behavior(s) that have not been conducive to safety or learning;
12. Provide high-quality district and/or site training upon request that aligns with behavior policies;
13. Sites will all follow the procedures as outlined in the Teacher and RSP Contract regarding assault and attacks;

Resources -

14. Apply for local, state, and federal grants on school climate/safe schools to help support the adequate and successful implementation of positive discipline practices;
15. Expand partnerships with state and local resources who have expertise in social and emotional learning, mental health disorders, best practices in student behavior
16. Ensure the use of relevant and culturally appropriate curriculum for schools, programs, classrooms;
17. Make better use of the talents and skills of current MPS School Social Workers, Counselors, Psychologists to assist in supporting student behavior needs more immediately;

Other recommendations to ensure student academic, social, and emotional success:

- A. Continue working towards small class sizes (see Class Size MOA) because small class sizes and caseloads help teachers/related services professionals build stronger relationships with their students, be better able to differentiate instruction and support for each student appropriately, provide more timely feedback to students and parents, and ensure high quality preparation, professional practice and reflection.
- B. Create full service community schools with wrap around student and family support services embedded in the site (for example, Cincinnati's model; see CPS MOA);
- C. Ensure all caseloads are properly weighted and supported by student needs to better align appropriate services
- D. Work in collaborative partnership with MPS staff to find the best ways to ensure positive and productive climates and cultures across all schools

BE IT FURTHER UNDERSTOOD AND AGREED THAT to the extent that this Memorandum of Agreement may be construed as a deviation from the terms of the 2015 - 2017 Collective Bargaining Agreement between the District and the Union, it shall not form the basis of any precedent that may be cited by any teacher in any grievance that may be filed.

MOA –IMMIGRANT TEACHERS

Agreed to by the parties to the 2017-2019 Bargaining Agreement on March 6, 2018.

WHEREAS, Minneapolis Public Schools (MPS) and Minneapolis Federation of Teachers (MFT59) recognize that immigrant teachers and their families are a valued and important part of the community; and

WHEREAS, MPS and MFT59 reaffirm their commitment to equal opportunity and shall not discriminate as provided by law.

NOW, THEREFORE, MPS AND MFT59 AGREE THAT:

1. In keeping with current practice, Minneapolis Public Schools will not inquire about or demand proof of immigration or citizenship status, except as required by law.
2. In the event that MPS is no longer permitted to employ a teacher due to immigration restrictions, MPS will place the teacher on a recall list for purposes of the teacher's return to work for a period of up to two (2) years. Specifically, MPS will reinstate the teacher to the teacher's former position, if vacant and so long as the teacher is qualified and licensed without loss of prior seniority within two (2) years of the date of separation. If the former position is not available, Minneapolis Public Schools will reinstate the teacher within the two (2) year time period to a substantially similar vacant bargaining unit position for which the teacher is licensed and qualified.
3. In order to be eligible for reinstatement, the teacher must notify the Human Resources Department of their eligibility for employment and provide proper work authorization documentation. The teacher must also provide the Human Resources Department with their phone number and mailing address. The teacher is responsible for keeping current their contact and work authorization information. The District will notify the teacher of a vacant position by first calling the teacher who will have until the end of the next business day to accept or decline the recall. If the teacher is not reached by phone, a certified letter addressed the teacher's last known address will be sent offering the recall. Within seven (7) calendar days of the date of postmark of such notice, the teacher shall notify the Human Resources Department of their acceptance of the position. If the teacher does not accept the position, they will no longer be eligible for reinstatement.
4. MPS's compliance with the terms of this MOA shall not be the basis of a claim that MPS has violated the parties' collective bargaining agreement.
5. Within thirty (30) days of the signing of this MOA, Minneapolis Public Schools and Minneapolis Federation of Teachers (MFT59) will send the following:
 - a. A joint letter to our congressional delegation explaining the importance of the DACA policy to our community and the need for a legislative solution.

 - c. A joint letter to students and their families with resources, such as those listed on the [Here To Stay](http://weareheretostay.org/resources/) (<http://weareheretostay.org/resources/>) website.
6. This MOA shall be in effect for the duration of the 2017-19 collective bargaining agreement.

MOA - RESTORATIVE PRACTICES

Agreed to by the parties to the 2019-2021 Bargaining Agreement on August 31, 2020

We recognize that interpersonal, institutional and structural racism and other systems of oppression are deeply embedded in our social institutions. These systems of oppression impact the climate of our schools and our district.

We acknowledge that each person has beliefs, conscious or unconscious, that perpetuate institutional and structural racism and other systems of oppression. We commit to ongoing learning, reflection and action to actively dismantle structural racism and oppressive behaviors at both the interpersonal and institutional levels. We will disrupt interpersonal and institutional racism and oppression to ensure we are not individually nor collectively perpetuating the cycle of systemic racism and oppression. By working in collaboration, the Minneapolis Federation of Teachers and the Minneapolis Public Schools will ensure equitable and well-supported learning and professional experiences for all persons served and employed by Minneapolis Public Schools.

We know that some of the factors that build and strengthen positive school cultures include supporting self-reflection and personal growth, recognizing diversity among students and staff as well as designing culturally-sustaining curriculum, instruction, assessments and interventions that address the various needs of students, staff, and learning communities.

We also acknowledge that district implementation of restorative practices thus far has been ineffective due to a wide variety of factors. As such, this Memorandum of Agreement (MOA) represents a new start to this work. The joint power of and dedication to the partnership between MFT and MPS in this work signals a deep commitment to restorative practices and represents a strategic shift in how we partner together and drive towards positive and improved outcomes for students.

Therefore, be it resolved that the Minneapolis Federation of Teachers and Minneapolis Public Schools will:

1. Develop a joint communication plan around restorative practices that includes a deliberate launch, monthly communications and opportunities for input and feedback by October 1, 2020.
2. Develop shared beliefs and common language as it relates to restorative practices by November 15, 2020.
3. Identify knowledge, skills, abilities, and existing and possible embedded school and community supports needed to effectively implement restorative practices across the district by December 15, 2020.

4. Develop an understanding of restorative practices that are currently being implemented across the district by site and map best practices across the district by March 1, 2021.
5. Identify opportunities to ensure student, family, and community voice is present in guiding restorative practices across the district during the 2020-2021 school year.
6. Develop a professional development plan and comprehensive implementation plan for restorative practices and trauma responsive and healing centered education for teachers for implementation no later than May 1, 2021.
 - a. Ensure restorative practices are included in New Teacher Orientation agendas.
 - b. Develop restorative practices professional development modules aligned to the identified knowledge, skills, abilities, and existing and possible use of embedded school and community supports to be offered at multiple and variable times throughout the duration of this MOA.
 - c. Offer a minimum of four ProPay Courses focused on restorative practices and trauma responsive and healing centered education during the 2020-2021 school year.
7. Continue the Restorative Practices Labor Management Committee focused on the implementation of restorative practices across the district in collaboration with the Sense of Safety and Acceptance Climate framework sub-committee and philosophically aligned with draft language proposals for negotiations of the 2021-2023 MFT Teachers Contract.

This MOA shall be in effect for the duration of the 2019-2021 collective bargaining agreements and shall be subject for renewal in successor agreements.

Coverage will be available on an optional basis to benefit-eligible employees working at least 20 hours per week. In order to establish this benefit, the District will complete and RFP, which will include a maternity leave option. If no vendor submits an acceptable maternity leave benefit proposal, the District will not have an obligation to make the benefit available.

This MOA shall be in effect for the duration of the 2017-19 collective bargaining agreement.

Be it resolved that the District and MFT designate June 15th 2021 as an educator self-directed reflection day for all staff under the Teachers contract;

Be it further resolved that the District and MFT will publicize, but not require use of, available district and union resources that support adult social emotional learning and reflection;

- (a) **Teachers.** The term "teacher" includes every person regularly employed, as a principal, or to give instruction in a classroom, or to superintend or supervise classroom instruction, or as placement teacher and visiting teacher. Persons regularly employed as counselors and school librarians shall be covered by these sections as teachers if licensed as teachers or as school librarians.
- (b) **School board.** The term "school board" includes a majority in membership of any and all boards or official bodies having the care, management, or control over public schools.
- (c) **Demote.** The word "demote" means to reduce the compensation a person actually receives in the new position.
- (d) **Nonprovisional license.** For purposes of this section, "nonprovisional license" shall mean an entrance, continuing, or life license.

Subd. 2. Probationary period; discharge or demotion.

- (a) All teachers in the public schools in cities of the first class during the first three years of consecutive employment shall be deemed to be in a probationary period of employment during which period any annual contract with any teacher may, or may not, be renewed as the school board, after consulting with the peer review committee charged with evaluating the probationary teachers under subdivision 3, shall see fit. The school site management team or the school board if there is no school site management team, shall adopt a plan for a written evaluation of teachers during the probationary period according to subdivisions 3 and 5. Evaluation by the peer review committee charged with evaluating probationary teachers under subdivision 3 shall occur at least three times periodically throughout each school year for a teacher performing services during that school year; the first evaluation must occur within the first 90 days of teaching service. Days devoted to parent-teacher conferences, teachers' workshops, and other staff development opportunities and days on which a teacher is absent from school shall not be included in determining the number of school days on which a teacher performs services. The school board may, during such probationary period, discharge or demote a teacher for any of the causes as specified in this code. A written statement of the cause of such discharge or demotion shall be given to the teacher by the school board at least 30 days before such removal or demotion shall become effective, and the teacher so notified shall have no right of appeal therefrom.
- (b) A probationary teacher whose first three years of consecutive employment are interrupted for active military service and who promptly resumes teaching consistent with federal reemployment timelines for uniformed service personnel under United States Code, title 38, section 4312(e), is considered to have a consecutive teaching experience for purposes of paragraph (a).
- (c) A probationary teacher whose first three years of consecutive employment are interrupted for maternity, paternity, or medical leave and who resumes teaching within 12 months of when the leave began is considered to have a consecutive teaching experience for purposes of paragraph (a) if the probationary teacher completes a combined total of three years of teaching service immediately before and after the leave.
- (d) A probationary teacher must complete at least 120 days of teaching service each year during the probationary period. Days devoted to parent-teacher conferences, teachers' workshops, and other staff development opportunities and days on which a teacher is absent from school do not count as days of teaching service under this paragraph.

Subd. 3. Mentoring for probationary teachers.

A board and an exclusive representative of the teachers in the district must develop a probationary teacher peer review process through joint agreement that is consistent with subdivision 5. The process may include having trained observers serve as mentors or coaches or having teachers participate in professional learning communities.

Subd. 4. Period of service after probationary period; discharge or demotion.

(a) After the completion of such probationary period, without discharge, such teachers as are thereupon reemployed shall continue in service and hold their respective position during good behavior and efficient and competent service and must not be discharged or demoted except for cause after a hearing. The terms and conditions of a teacher's employment contract, including salary and salary increases, must be based either on the length of the school year or an extended school calendar under section [120A.415](#).

(b) A probationary teacher is deemed to have been reemployed for the ensuing school year, unless the school board in charge of such school gave such teacher notice in writing before July 1 of the termination of such employment.

(c) A teacher electing to have an employment contract based on the extended school calendar under section [120A.415](#) must participate in staff development training under subdivision 4a and shall receive an increased base salary.

Subd. 4a. Additional staff development and salary.

(a) A teacher electing to have a continuing contract based on the extended school calendar under section [120A.415](#) must participate in a total number of staff development days where the total number of such days equals the difference between the total number of days of student instruction and 240 days. Staff development includes peer mentoring, peer gathering, continuing education, professional development, or other training. A school board may schedule such days throughout the calendar year. Staff development programs provided during such days shall enable teachers to achieve the staff development outcomes under section [122A.60, subdivision 3](#).

(b) A public employer and the exclusive representative of the teachers must include terms in the collective bargaining agreement for all teachers who participate in additional staff development days under paragraph (a) that increase base salaries.

Subd. 5. Development, evaluation, and peer coaching for continuing contract teachers.

(a) To improve student learning and success, a school board and an exclusive representative of the teachers in the district, consistent with paragraph (b), may develop an annual teacher evaluation and peer review process for probationary and non-probationary teachers through joint agreement. If a school board and the exclusive representative of the teachers in the district do not agree to an annual teacher evaluation and peer review process, then the school board and the exclusive representative of the teachers must implement the state teacher evaluation plan developed under paragraph (c). The process must include having trained observers serve as peer coaches or having teachers participate in professional learning communities, consistent with paragraph (b).

(b) To develop, improve, and support qualified teachers and effective teaching practices and improve student learning and success, and provide all enrolled students in a district or school with improved and equitable access to more effective and diverse teachers, the annual evaluation process for teachers:

- (1) must, for probationary teachers, provide for all evaluations required under subdivision 2;
- (2) must establish a three-year professional review cycle for each teacher that includes an individual growth and development plan, a peer review process, and at least one summative evaluation performed by a qualified and trained evaluator such as a school administrator;
- (3) must be based on professional teaching standards established in rule;
- (4) must coordinate staff development activities under sections [122A.60](#) and [122A.61](#) with this evaluation process and teachers' evaluation outcomes;
- (5) may provide time during the school day and school year for peer coaching and teacher collaboration;

- (6) may include job-embedded learning opportunities such as professional learning communities;
- (7) may include mentoring and induction programs for teachers, including teachers who are members of populations underrepresented among the licensed teachers in the district or school and who reflect the diversity of students under section [120B.35](#), subdivision 3, paragraph (b), clause (2), who are enrolled in the district or school;
- (8) must include an option for teachers to develop and present a portfolio demonstrating evidence of reflection and professional growth, consistent with section [122A.187](#), subdivision 3, and include teachers' own performance assessment based on student work samples and examples of teachers' work, which may include video among other activities for the summative evaluation;
- (9) must use data from valid and reliable assessments aligned to state and local academic standards and must use state and local measures of student growth and literacy that may include value-added models or student learning goals to determine 35 percent of teacher evaluation results;
- (10) must use longitudinal data on student engagement and connection and other student outcome measures explicitly aligned with the elements of curriculum for which teachers are responsible, including academic literacy, oral academic language, and achievement of English learners;
- (11) must require qualified and trained evaluators such as school administrators to perform summative evaluations and ensure school districts and charter schools provide for effective evaluator training specific to teacher development and evaluation;
- (12) must give teachers not meeting professional teaching standards under clauses (3) through (11) support to improve through a teacher improvement process that includes established goals and timelines; and
- (13) must discipline a teacher for not making adequate progress in the teacher improvement process under clause (12) that may include a last chance warning, termination, discharge, nonrenewal, transfer to a different position, a leave of absence, or other discipline a school administrator determines is appropriate.

Data on individual teachers generated under this subdivision are personnel data under section [13.43](#). The observation and interview notes of peer coaches may only be disclosed to other school officials with the consent of the teacher being coached.

(c) The department, in consultation with parents who may represent parent organizations and teacher and administrator representatives appointed by their respective organizations, representing the Professional Educator Licensing and Standards Board, the Minnesota Association of School Administrators, the Minnesota School Boards Association, the Minnesota Elementary and Secondary Principals Associations, Education Minnesota, and representatives of the Minnesota Assessment Group, the Minnesota Business Partnership, the Minnesota Chamber of Commerce, and Minnesota postsecondary institutions with research expertise in teacher evaluation, must create and publish a teacher evaluation process that complies with the requirements in paragraph (b) and applies to all teachers under this section and section [122A.40](#) for whom no agreement exists under paragraph (a) for an annual teacher evaluation and peer review process. The teacher evaluation process created under this subdivision does not create additional due process rights for probationary teachers under subdivision 2.

(d) Consistent with the measures of teacher effectiveness under this subdivision:

- (1) for students in kindergarten through grade 4, a school administrator must not place or approve the placement of a student in the classroom of a teacher who is in the improvement process referenced in paragraph (b), clause (12), or has not had a summative evaluation if, in the prior year, that student was in the classroom of a teacher who received discipline pursuant to paragraph (b), clause (13), unless no other teacher at the school teaches that grade; and
- (2) for students in grades 5 through 12, a school administrator must not place or approve the placement of a student in the classroom of a teacher who is in the improvement process referenced in paragraph (b), clause (12), or has not had a summative evaluation if, in the prior year, that student was in the classroom of a teacher who received discipline pursuant to paragraph (b), clause (13), unless no other teacher at the school teaches that subject area and grade.

All data created and used under this paragraph retains its classification under chapter [13](#).

Subd. 5a. Probationary period for principals hired internally.

A board and the exclusive representative of the school principals in the district may negotiate a plan for a probationary period of up to two school years for licensed teachers employed by the board who are subsequently employed by the board as a licensed school principal or assistant principal and an additional probationary period of up to two years for licensed assistant principals employed by the board who are subsequently employed by the board as a licensed school principal.

Subd. 6. Grounds for discharge or demotion.

(a) Except as otherwise provided in paragraph (b), causes for the discharge or demotion of a teacher either during or after the probationary period must be:

- (1) immoral character, conduct unbecoming a teacher, or insubordination;
- (2) failure without justifiable cause to teach without first securing the written release of the school board having the care, management, or control of the school in which the teacher is employed;
- (3) inefficiency in teaching or in the management of a school, consistent with subdivision 5, paragraph (b);
- (4) affliction with a communicable disease must be considered as cause for removal or suspension while the teacher is suffering from such disability; or
- (5) discontinuance of position or lack of pupils.

For purposes of this paragraph, conduct unbecoming a teacher includes an unfair discriminatory practice described in section [363A.13](#).

(b) A probationary or continuing-contract teacher must be discharged immediately upon receipt of notice under section [122A.20, subdivision 1](#), paragraph (b), that the teacher's license has been revoked due to a conviction for child abuse, as defined in section [609.185](#); sex trafficking in the first degree under section [609.322, subdivision 1](#); sex trafficking in the second degree under section [609.322, subdivision 1a](#); engaging in hiring or agreeing to hire a minor to engage in prostitution under section [609.324](#), subdivision 1; sexual abuse under section [609.342](#), [609.343](#), [609.344](#), [609.345](#), [609.3451, subdivision 3](#), or [617.23, subdivision 3](#); solicitation of children to engage in sexual conduct or communication of sexually explicit materials to children under section [609.352](#); interference with privacy under section [609.746](#) or harassment or stalking under section [609.749](#) and the victim was a minor; using minors in a sexual performance under section [617.246](#); possessing pornographic works involving a minor under section [617.247](#); or any other offense not listed in this paragraph that requires the person to register as a predatory offender under section [243.166](#), or a crime under a similar law of another state or the United States.

(c) When a teacher is discharged under paragraph (b) or when the commissioner makes a final determination of child maltreatment involving a teacher under section [260E.21, subdivision 4](#), or [260E.35](#), the school principal or other person having administrative control of the school must include in the teacher's employment record the information contained in the record of the disciplinary action or the final maltreatment determination, consistent with the definition of public data under section [13.41, subdivision 5](#), and must provide the Professional Educator Licensing and Standards Board and the licensing division at the department with the necessary and relevant information to enable the Professional Educator Licensing and Standards Board and the department's licensing division to fulfill their statutory and administrative duties related to issuing, renewing, suspending, or revoking a teacher's license. Information received by the Professional Educator Licensing and Standards Board or the licensing division at the department under this paragraph is governed by section [13.41](#) or other applicable law governing data of the receiving entity. In addition to the background check required under section [123B.03](#), a school board or other school hiring authority must contact the Professional Educator Licensing and Standards Board and the department to determine whether the teacher's license has been suspended or revoked, consistent with the discharge and final maltreatment determinations identified in this paragraph. Unless restricted by federal or state data practices law or by the terms of a collective bargaining agreement, the responsible authority for a school district must disseminate to another school district private personnel data on a current or former teacher employee or contractor of the district, including the results of background investigations, if the

requesting school district seeks the information because the subject of the data has applied for employment with the requesting school district.

Subd. 7. Hearing of charges against teacher.

The charges against a teacher must be in writing and signed by the person making the same and then filed with the secretary or clerk of the school board having charge of the school in which the teacher is employed. Before the school board discharges or demotes a teacher, the board must notify the teacher in writing and state in reasonable detail its grounds for the proposed discharge or demotion, together with a statement that the teacher may request in writing within ten days after receiving the notice a hearing before the board. The board may have the notice served personally or may send it by certified mail addressed to the teacher at the teacher's last known post office address. The teacher, under subdivision 13, also may elect a hearing before an arbitrator instead of the school board. Within ten days after receiving the notice the teacher may request in writing a hearing before the board or an arbitrator and it shall be granted. The teacher must be given reasonable notice of the time and place of the hearing before final action is taken. A teacher who fails to request a hearing within ten days is considered to acquiesce in the board's action. If the charge is made by a person not connected with the school system the charge may be disregarded by the school board. If the grounds are those specified in subdivision 6, clause (1), (2), (3), or (4), the notice must also state a teacher may request arbitration under subdivision 13. At the hearing, the school board or arbitrator shall hear all evidence that may be adduced in support of the charges and for the teacher's defense to the charges. Either party has the right to have a written record of the hearing at the expense of the board and to have witnesses subpoenaed and all witnesses so subpoenaed must be examined under oath. Any member of the school board conducting such a hearing has authority to issue subpoenas and to administer oaths to witnesses.

Subd. 8. Counsel; examination of witnesses.

Each party appearing before the school board has the right to be represented by counsel, and such counsel may examine and cross-examine witnesses and present arguments.

Subd. 9. Hearings.

All hearings before the school board must be private or may be public at the decision of the teacher against whom such charges have been filed.

Subd. 10. Decision, when rendered.

The hearing must be concluded and a decision in writing, stating the grounds on which it is based, rendered within 25 days after giving of such notice. Where the hearing is before a school board the teacher may be discharged or demoted upon the affirmative vote of a majority of the members of the board. If the charges, or any of such, are found to be true, the board conducting the hearing must discharge, demote, or suspend the teacher, as seems to be for the best interest of the school. A teacher must not be discharged for either of the causes specified in subdivision 6, clause (3), except during the school year, and then only upon charges filed at least four months before the close of the school sessions of such school year.

Subd. 11. Charges expunged from records.

In all cases where the final decision is in favor of the teacher the charge or charges must be physically expunged from the records.

Subd. 12. Suspension pending hearing; salary.

After charges are filed against a teacher, the school board may suspend the teacher from regular duty. If the teacher is suspended or removed after the final decision, the board may in its discretion determine the teacher's salary or compensation as of the time of filing the charges. If the final decision is favorable to the teacher, the board must not abate the teacher's salary or compensation.

Subd. 13. Hearing and determination by arbitrator.

A teacher against whom charges have been filed alleging any cause for discharge or demotion specified in subdivision 6, clause (1), (2), (3), or (4), may elect a hearing before an arbitrator instead of the school board. The hearing is governed by this subdivision.

(a) The teacher must make a written request for a hearing before an arbitrator within ten days after receiving a written notice of the filing of charges required by subdivision 7. Failure to request a hearing before an arbitrator during this period is considered acquiescence to the board's action.

(b) If the teacher and the school board are unable to mutually agree on an arbitrator, the board must request from the Bureau of Mediation Services a list of five persons to serve as an arbitrator. If the teacher and the school board are unable to mutually agree on an arbitrator from the list provided, the parties shall alternately strike names from the list until the name of one arbitrator remains. The person remaining after the striking procedure must be the arbitrator. If the parties are unable to agree on who shall strike the first name, the question must be decided by a flip of a coin. The teacher and the board must share equally the costs and fees of the arbitrator.

(c) The arbitrator shall determine, by a preponderance of the evidence, whether the causes specified in subdivision 6, clause (1), (2), (3), or (4), exist to support the proposed discharge or demotion. A lesser penalty than discharge or demotion may be imposed by the arbitrator only to the extent that either party proposes such lesser penalty in the proceeding. In making the determination, the arbitration proceeding is governed by sections [572B.15](#) to [572B.28](#) and by the collective bargaining agreement applicable to the teacher.

(d) An arbitration hearing conducted under this subdivision is a meeting for preliminary consideration of allegations or charges within the meaning of section [13D.05, subdivision 3](#), paragraph (a), and must be closed, unless the teacher requests it to be open.

(e) The arbitrator's decision is final and binding on the parties, subject to sections [572B.18](#) to [572B.28](#).
Subd. 14.

MS 2018 [Repealed, [1Sp2017 c 5 art 2 s 58](#)]

Subd. 14a. Negotiated unrequested leave of absence.

The school board and the exclusive bargaining representative of the teachers must negotiate a plan providing for unrequested leave of absence without pay or fringe benefits for as many teachers as may be necessary because of discontinuance of position, lack of pupils, financial limitations, or merger of classes caused by consolidation of districts.

Subd. 15. Records relating to individual teacher; access; expungement.

All evaluations and files generated within a district relating to each individual teacher must be available to each individual teacher upon the teacher's written request. Effective January 1, 1976, all evaluations and files, wherever generated, relating to each individual teacher must be available to each individual teacher upon the teacher's written request. The teacher has the right to reproduce any of the contents of the files at the teacher's expense and to submit for inclusion in the file written information in response to any material contained therein.

A district may destroy the files as provided by law and must expunge from the teacher's file any material found to be false or substantially inaccurate through the grievance procedure required pursuant to section [179A.20, subdivision 4](#). The grievance procedure promulgated by the director of the Bureau of Mediation Services, pursuant to section [179A.04, subdivision 3](#), clause (h), applies to those principals and supervisory employees not included in an appropriate unit as defined in section [179A.03](#). Expungement proceedings must be commenced within the time period provided in the collective bargaining agreement for the commencement of a grievance. If no time period is provided in the bargaining agreement, the expungement proceedings must commence within 15 days after the teacher has knowledge of the inclusion in the teacher's file of the material the teacher seeks to have expunged.

122A.44 CONTRACTING WITH TEACHERS; SUBSTITUTE TEACHER

Subd. 1. Contracting with qualified teachers. The board must employ and contract with necessary qualified teachers and discharge the same for cause.

Subd. 2. Hiring substitute teachers.

(a) The board must not hire a substitute teacher except:

(1) For a duration of time of less than one school year to replace a regular teacher who is absent; or

(2) For a duration of time equal to or greater than one school year to replace a regular teacher on a leave of absence.

(b) If a substitute teacher is hired pursuant to paragraph (a), clause (2), each full school year during which the teacher is employed by a district pursuant to that clause shall be deemed one year of the teacher's probationary period of employment pursuant to either section 122A.40, subdivision 5, or 122A.41, subdivision 2. The teacher shall be eligible for continuing contract status pursuant to section 122A.40, subdivision 7, or tenure status pursuant to section 122A.41, subdivision 4, after completion of the applicable probationary period.

122A.46 EXTENDED LEAVES OF ABSENCE

Subd. 1. Teachers defined. As used in this section, the term "teachers" shall have the meaning given it in section 122A.15, subdivision 1. The term "teachers" also includes any teacher in the classifications included in the professional state residential instructional unit, under section 179A.10, subdivision 2, clause (16).

Subd. 2. Leave of absence. The board of any district may grant an extended leave of absence without salary to any full- or part-time elementary or secondary teacher who has been employed by the district for at least five years and has at least ten years of allowable service, as defined in section 354.05, subdivision 13, or the bylaws of the appropriate retirement association or ten years of full-time teaching service in Minnesota public elementary and secondary schools. The duration of an extended leave of absence under this section must be determined by mutual agreement of the board and the teacher at the time the leave is granted and shall be at least three but no more than five years. An extended leave of absence under this section shall be taken by mutual consent of the board and the teacher. If the school board denies a teacher's request, it must provide reasonable justification for the denial.

Subd. 3. Reinstatement. Except as provided in subdivisions 7 and 8, a teacher on an extended leave of absence pursuant to this section shall have the right to be reinstated to a position for which the teacher is licensed at the beginning of any school year which immediately follows a year of the extended leave of absence, unless the teacher fails to give the required notice of intention to return or is discharged or placed on unrequested leave of absence or the contract is terminated pursuant to section 122A.40 or 122A.41 while the teacher is on the extended leave. The board is not obligated to reinstate any teacher who is on an extended leave of absence pursuant to this section, unless the teacher advised the board of the intention to return before February 1 in the school year preceding the school year in which the teacher wishes to return or by February 1 in the calendar year in which the leave is scheduled to terminate.

Subd. 4. Seniority and continuing contract rights. Any teacher who is reinstated to a teaching position after an extended leave of absence pursuant to this section shall retain seniority and continuing contract rights in the employing district as though the teacher had been teaching in the district during the period of the extended leave. This subdivision shall not be construed to require a board to reinstate a teacher to any particular position or to include the years spent on the extended leave of absence in the determination of a teacher's salary upon return to teaching in this district.

Subd. 5. Salary. The years spent by a teacher on an extended leave of absence pursuant to this section shall not be included in the determination of salary upon return to teaching in the district. The credits earned by a teacher on an extended leave of absence pursuant to this section shall not be included in the determination of salary upon return to teaching in the district for a period equal to the time of the extended leave of absence.

Subd. 6. School board authority. Nothing within the provisions of this section shall be construed to limit the authority of a school board to grant any teacher a leave of absence which is not subject to the provisions of this section and sections 354.094 and 354A.091.

Subd. 7. Employment in another district. A school board shall not be obligated to reinstate a teacher who takes a full-time or part-time position as a teacher in another Minnesota school district while on an

extended leave of absence pursuant to this section. This subdivision shall not apply to a teacher who is employed as a substitute teacher.

Subd. 8. Superintendent. A school board shall not be obligated to reinstate a superintendent on an extended leave of absence pursuant to this section to a position in the district.

Subd. 9. Benefits. A teacher on an extended leave of absence shall receive all of the health, accident, medical, surgical and hospitalization insurance or benefits, for both the teacher and the teacher's dependents, for which the teacher would otherwise be eligible if not on an extended leave. A teacher shall receive the coverage if such coverage is available from the school district's insurer, if the teacher requests the coverage, and if the teacher either (a) reimburses the district for the full amount of the premium necessary to maintain the coverage within one month preceding the district's payment of the premium, or (b) if the district is wholly or partially self-insured, pays the district, according to a schedule agreed upon by the teacher and the school board, an amount determined by the school board to be the amount that would be charged for the coverage chosen by the teacher if the school board purchased all health, accident, medical, surgical and hospitalization coverage for its teachers from an insurer. A school district may enter into an agreement with the exclusive bargaining representative of the teachers in the district where the district agrees, for an individual teacher, to pay all or a portion of the premium for such coverage. Any such agreement must include a sunset of eligibility to qualify for the payment.

128D.10 CONTINUITY ON TENURE, PENSIONS, AND RETIREMENT

(a) The tenure, pension, and retirement provisions of any law applicable to employees of the special school district of Minneapolis before April 24, 1959, shall continue to be applicable in the same manner and to the same extent to employees of the special independent school district after April 24, 1959, except as otherwise provided in law.

(b) The provisions of any general law or laws which are applicable only to independent school districts wholly or partially within cities of the first class shall not be applicable to the special independent school district of Minneapolis.
